---

On October 9, 2019, the Department of Natural Resources received your request for access to the following records/information:

**Any briefings or reports prepared by the department of natural resources or prepared by NALCOR and provided to the department of natural resources in relation to the discussion between Nalcor and Emera to provide power to New York**

On October 9, 2019 you provided a date range for the above noted request as being "in the past 90 days" therefore we limited our search criteria to records created or received between July 9, 2019 and October 8, 2019.

On October 16, 2019 you indicated that you were not looking for copies of any previously released information or records that are publically available, such as the Liberty Consulting Group report, the Synapse Energy Economics report, any presentations made to the Public Utilities Board in relation to rate mitigation/management or similar type records.

The Department of Natural Resources have reviewed this request and conducted a search and confirmed that there are no responsive records available.

Please be advised that you may ask the Information and Privacy Commissioner to review the processing of your access request, as set out in section 42 of the *Access to Information and Protection of Privacy Act* (the *Act*). A request to the Commissioner must be made in writing within 15 business days of the date of this letter or within a longer period that may be allowed by the Commissioner.
