Re: Your request for access to information under Part II of the Access to Information and Protection of Privacy Act, 2015 [Our File #: MAE/248/2019]

On December 4, 2019, the Department of Municipal Affairs and Environment received your request for access to the following records/information:

"In relation to the water reports that were provided for the Twillingate water supply that was located at hospital pond from 1971 - 1997 can you please advise how it was possible for hospital pond to have had a water supply installed in 1971 when it was used as a dumping ground for the hospital in Twillingate and in 1945 when the American army left as a dumping ground for their garbage? One would assume that in 1971, long after 1945, that before the water supply was installed in hospital pond, surely someone involved in the installation would have notice the "metallic waste, etc. It was noted that the water levels were lowered in 1997 and that is when the pond was discovered as a dumping ground, 26 years later. It was lowered, not drained. Also, Mr. Haseen Khan was involved with this situation in 1997, and I note that he is a professional engineer. I would like a detailed explanation as to how a water system for a town/city is installed and was told an engineer would be the right person to ask this question. Thank you."

Please be advised that the Deputy Minister has reviewed this request and the Department of Municipal Affairs and Environment has no records responsive to this request. Your question can be directed to Haseen Khan, the Director of the Water Resources Management Division at hkhan@gov.nl.ca
