Re: Your request for access to information under Part II of the Access to Information and Protection of Privacy Act, our file # BTCRD/17/2016

On May 4th, 2016 the Department of Business, Tourism, Culture and Rural Development received your request for access to the following records/information:

"Former Minister of Education, Darrin King, took a delegation to Denmark. I want the following information:

Date of trip?
Names of the delegation (attendees)?
Itinerary of meetings and locations?
Follow-up report or results of this trip issued by Minister King or his Department?
Cost of this Danish trip, airfare, meals, accommodation, other expenses, for Minister King and total cost for delegation?
Expense claims filed by the individuals attending this function(s)?
Public Records associated with announcement of this Denmark trip i.e. was this trip announced or reported in the House or in the media?"

Clarifications you provided:

"Copies of individual travel claims and receipts are not required; a spreadsheet providing a detailed breakdown of individual and total overall costs will be satisfactory."

Please be advised that a decision has been made by Daryl Genge, Deputy Minister for the Department of Business, Tourism, Culture and Rural Development to provide access to the requested information. In accordance with your request for a copy of the records, the appropriate copies have been enclosed.

Please be advised that you may ask the Information and Privacy Commissioner to review the processing of your access request, as set out in section 42 of the Access to Information and Protection of Privacy Act (the Act). A request to the Commissioner must be made in writing within 15 business days of the date of this letter or within a longer period that may be allowed by the Commissioner.

The address and contact information of the Information and Privacy Commissioner is as follows:

P.O. Box 8700, St. John's, NL, Canada A1B 4J6 1 709.729.7000 1 709.729.4858
You may also appeal directly to the Supreme Court Trial Division within 15 business days after you receive the decision of the public body, pursuant to section 52 of the Act.

Please be advised that responsive records will be published following a 72 hour period after the response is sent electronically to you or five business days in the case where records are mailed to you. It is the goal to have the responsive records posted to the Office of Public Engagement's website within one business day following the applicable period of time. Please note that requests for personal information will not be posted online.

If you have any further questions, please feel free to contact me by e-mail at JonathanHammond@gov.nl.ca.

Sincerely,

Jonathan Hammond

The Ministerial visit focused on meetings with the major companies currently working in NL, but based in Oslo or Trondheim. These include: Aker, Kvaerner, Statoil, Eureka, TGS, and PGS. Also, it included visits with R&D organizations in both regions including SINTEF, NTNU, Innovation Norway, and Invest Norway. Also, a briefing with the Canadian Embassy was arranged to gain further perspective on the opportunities in the region.

Attached is the agenda, I'm not sure whether or not there were changes on the ground.

Province Strengthens International Profile in Arctic Expertise at Major Technology Conference

The Honourable Darin King, Minister of Business Tourism, Culture and Rural Development, is in Copenhagen, Denmark, this week meeting with industry leaders and participating in the 2015 Arctic Technology Conference (ATC). A gathering of global business and academic leaders, ATC provides the opportunity for the industry's best to come together to share ideas, current research and cutting edge technology. Newfoundland and Labrador will host the conference in 2016.
“With a mature offshore supply and service industry of over 600 companies, all in support of an industry that is operating successfully in our Arctic-like conditions, ATC provides us with a tremendous opportunity to demonstrate the fundamental role our province will play in future Arctic activity. Our government has long recognized Newfoundland and Labrador’s extensive Arctic-related capabilities and expertise. We are pleased to once again participate in this important conference along with a number of Newfoundland and Labrador organizations.”

- The Honourable Darin King, Minister of Business, Tourism, Culture and Rural Development

Founded in 1969, the Offshore Technology Conference (OTC) is the world’s foremost event for the development of offshore resources in the fields of drilling, exploration, production and environmental protection. ATC is built upon OTC’s successful multidisciplinary approach; with 14 technical societies and organizations working together to deliver the world’s most comprehensive Arctic event. ATC draws over 1,000 delegates and approximately 100 exhibitors from around the world. A list of participating organizations and details on the provinces Arctic Opportunities Initiative can be found in the backgrounder below.

Newfoundland and Labrador’s strategic location, world-class infrastructure, and waters colder than anywhere else south of the Arctic Circle, make it the ultimate proving ground for developing cutting-edge solutions to operational challenges in the Arctic.

“We are delighted to host the Arctic Technology Conference in Newfoundland and Labrador. This will be a fabulous opportunity for us to highlight our energy resources and further our global reputation as we network with like-minded professionals and potential investors. As the ideal staging ground for Arctic-related activities, Newfoundland and Labrador is the path to the Arctic, and hosting ATC in 2016 will further establish this position in the international community.”

-The Honourable Derrick Dalley, Minister of Natural Resources

Minister King is leading a delegation of 19 Newfoundland and Labrador firms and organizations including Clarenville-based SubC. One of the province’s leading ocean technology firms, SubC won the Outstanding
Incubator Graduate Award from the U.S.-based National Business Incubation Association (NBIA). Out of six possible award categories, SubC Imaging is the only Canadian company to receive an award and was recognized for revenue strength and product innovation. The NBIA Incubation Awards honour organizations that exemplify the best in the industry.

Province's Participation in the Arctic Technology Conference a Success

Mr. Speaker, I rise in this Honourable House today to share the enthusiasm I experienced last week during my participation in the Arctic Technology Conference in Copenhagen, Denmark.

The Arctic Technology Conference, which is known as ATC, Mr. Speaker, is a gathering of global business and academic leaders. The conference provides an unparalleled opportunity for Newfoundland and Labrador's best to come together with the industry's finest to share ideas, current research and cutting-edge technology.

Mr. Speaker, with a mature offshore supply and service industry with over 600 companies, all in support of an industry that is operating successfully in the Arctic-like conditions - ATC provided the organizations involved with a tremendous opportunity to demonstrate the fundamental role our province will play in future Arctic activity.

Our government has long recognized Newfoundland and Labrador's extensive Arctic-related capabilities and expertise.

Newfoundland and Labrador's strategic location, world-class infrastructure, and waters colder than anywhere else south of the Arctic Circle, make our province the ultimate proving ground for developing cutting-edge solutions to operational challenges in the Arctic.

Our strong ocean technology cluster was represented well in Copenhagen, Mr. Speaker. A total of 19 companies were represented, including: Oceanic
Consulting, GRI Simulations, C-Core, Canatec, Intecsea, Memorial University, Subsea 7, Fugro and Provincial Aerospace.

Mr. Speaker, we are quite proud of the delegates that participated in this important conference, and even prouder that Newfoundland and Labrador will host this conference in St. John's next year.

As the ideal staging ground for Arctic-related activities, Newfoundland and Labrador is the path to the Arctic and hosting ATC in 2016 will further establish this position in the international community.

The conference will provide an international platform for Newfoundland and Labrador's ocean technology sector and bring greater awareness to the province's research and development in emerging technologies, as well as bring attention to local leading-edge companies operating in the sector and our extraordinary marine infrastructure.

The world's most comprehensive Arctic event, Mr. Speaker, we anticipate that ATC will draw over 1,000 delegates and approximately 100 exhibitors from around the world.

I look forward to welcoming delegates to our province so they can see first-hand the world-class capabilities we have right here in Newfoundland and Labrador and the extensive potential we have in the ocean technology sector.

Thank you, Mr. Speaker.
