December 23, 2016

Dear [redacted]

Re: Your request for access to information under Part II of the Access to Information and Protection of Privacy Act, 2015 [Our File #: PRE/65/2016]

On July 19, 2016, the Premier’s Office received your request for access to the following records/information:

“All correspondence in all formats (including but not limited to, pins, text messages, emails, phone calls, blackberry messages) for the following individuals: Nancy O’Connor, Kelvin Parsons, Rodney Mercer, Peter Miles, Greg Mercer for the period of June 4th-June 11th 2016.”

I am pleased to inform you that a decision has been made by the Chief of Staff of the Premier’s Office to provide access to some of the requested information.

Requests related to the cell phone and landline records for Peter Miles, Rodney Mercer, Kelvin Parsons and Nancy O’Connor have been previously released. Greg Mercer does not have any cell phone records for this period. You can find the records previously released online at:

- Peter Miles - http://atipp-search.gov.nl.ca/public/atipp/requestdownload?id=2975

Access to the remaining records, and/or information contained within the records, has been refused as it is non-responsive or in accordance with the following exception to disclosure, as specified in the Access to Information and Protection of Privacy Act (the Act):

27. (1) In this section, "cabinet record" means

(a) advice, recommendations or policy considerations submitted or prepared for submission to the Cabinet;
(g) a record created for or by a minister for the purpose of briefing that minister on a matter for the Cabinet;

(i) that portion of a record which contains information about the contents of a record within a class of information referred to in paragraphs (a) to (h).

(2) The head of a public body shall refuse to disclose to an applicant

(a) a cabinet record;

29. (1) The head of a public body may refuse to disclose to an applicant information that would reveal

(a) advice, proposals, recommendations, analyses or policy options developed by or for a public body or minister;

(c) draft legislation or regulations.

31. (1) The head of a public body may refuse to disclose information to an applicant where the disclosure could reasonably be expected to

(f) reveal the arrangements for the security of property or a system, including a building, a vehicle, a computer system or a communications system;

34. (1) The head of a public body may refuse to disclose information to an applicant if the disclosure could reasonably be expected to

(a) harm the conduct by the government of the province of relations between that government and the following or their agencies:

(i) the government of Canada or a province,

(v) the Nunatsiavut Government;

(b) reveal information received in confidence from a government, council or organization listed in paragraph (a) or their agencies.

35. (1) The head of a public body may refuse to disclose to an applicant information which could reasonably be expected to disclose

(f) positions, plans, procedures, criteria or instructions developed for the purpose of contractual or other negotiations by or on behalf of the government of the province or a public body, or considerations which relate to those negotiations;

40. (1) The head of a public body shall refuse to disclose personal information to an applicant where the disclosure would be an unreasonable invasion of a third party's personal privacy.
Please note, any correspondence between the Premier’s Office and MHA’s that relate to the Office of the House of Assembly or Constituency issues does not fall under the scope of the Act and therefore has not been included.

As required by 8(2) of the Act, we have severed information that is unable to be disclosed and have provided you with as much information as possible. As requested, we are providing you with an electronic copy of the records. Please note the following information has been fully redacted from the package:

You may appeal this decision and ask the Information and Privacy Commissioner to review the decision to provide partial access to the requested information, as set out in section 42 of the Act (a copy of this section of the Act has been enclosed for your reference). A request to the Commissioner must be made in writing within 15 business days of the date of this letter or within a longer period that may be allowed by the Commissioner. Your appeal should identify your concerns with the request and why you are submitting the appeal.

The appeal may be addressed to the Information and Privacy Commissioner as follows:

Office of the Information and Privacy Commissioner
2 Canada Drive
P. O. Box 13004, Stn. A
St. John’s, NL. A1B 3V8

Telephone: (709) 729-6309
Toll-Free:1-877-729-6309
Facsimile: (709) 729-6500

You may also appeal directly to the Supreme Court Trial Division within 15 business days after you receive the decision of the public body, pursuant to section 52 of the Act (a copy of this section of the Act has been enclosed for your reference).

Please be advised that responsive records will be published following a 72 hour period after the response is sent electronically to you. It is the goal to have the responsive records posted to the Completed Access to Information Requests website within one business day following the applicable period of time. Please note that requests for personal information will not be posted online.

If you have any further questions, please feel free to contact me by telephone at (709)729-3570 or by e-mail at joybuckle@gov.nl.ca.

Sincerely,

Joy Buckle
ATIPP Coordinator

Enclosure
Access or correction complaint

42. (1) A person who makes a request under this Act for access to a record or for correction of personal information may file a complaint with the commissioner respecting a decision, act or failure to act of the head of the public body that relates to the request.

(2) A complaint under subsection (1) shall be filed in writing not later than 15 business days

(a) after the applicant is notified of the decision of the head of the public body, or the date of the act or failure to act; or

(b) after the date the head of the public body is considered to have refused the request under subsection 16(2).

(3) A third party informed under section 19 of a decision of the head of a public body to grant access to a record or part of a record in response to a request may file a complaint with the commissioner respecting that decision.

(4) A complaint under subsection (3) shall be filed in writing not later than 15 business days after the third party is informed of the decision of the head of the public body.

(5) The commissioner may allow a longer time period for the filing of a complaint under this section.

(6) A person or third party who has appealed directly to the Trial Division under subsection 52(1) or 53(1) shall not file a complaint with the commissioner.

(7) The commissioner shall refuse to investigate a complaint where an appeal has been commenced in the Trial Division.

(8) A complaint shall not be filed under this section with respect to

(a) a request that is disregarded under section 21;

(b) a decision respecting an extension of time under section 23;

(c) a variation of a procedure under section 24; or

(d) an estimate of costs or a decision not to waive a cost under section 26.

(9) The commissioner shall provide a copy of the complaint to the head of the public body concerned.
Direct appeal to Trial Division by an applicant

52. (1) Where an applicant has made a request to a public body for access to a record or correction of personal information and has not filed a complaint with the commissioner under section 42, the applicant may appeal the decision, act or failure to act of the head of the public body that relates to the request directly to the Trial Division.

(2) An appeal shall be commenced under subsection (1) not later than 15 business days

(a) after the applicant is notified of the decision of the head of the public body, or the date of the act or failure to act; or

(b) after the date the head of the public body is considered to have refused the request under subsection 16(2).

(3) Where an applicant has filed a complaint with the commissioner under section 42 and the commissioner has refused to investigate the complaint, the applicant may commence an appeal in the Trial Division of the decision, act or failure to act of the head of the public body that relates to the request for access to a record or for correction of personal information.

(4) An appeal shall be commenced under subsection (3) not later than 15 business days after the applicant is notified of the commissioner’s refusal under subsection 45(2).

Promoting a Healthier Society

Legislative Amendments Aim to Prevent and Reduce Smoking

A bill to amend the Smoke-Free Environment Act, 2005 and the Tobacco Control Act will undergo second reading in the House of Assembly today. The proposed amendments aim to further protect the public, in particular children and youth, from the harms of flavoured tobacco products (including menthol) and hookah smoking, and the potential harms of electronic cigarettes (e-cigarettes).

"Preventing and reducing smoking is a priority for our government. These amendments will help minimize the risk that flavoured tobacco products, e-cigarettes and hookah may lead to more young people starting to smoke. The legislation we are bringing forward is consistent with legislation in several other Canadian provinces and supports our larger goal of promoting healthy living and protecting public health."
- The Honourable Sherry Gambin-Walsh, Minister of Seniors, Wellness and Social Development

The proposed amendments will cover the sale, use and promotion of flavoured tobacco, e-cigarette, and hookah products throughout Newfoundland and Labrador. Detailed information about the legislative changes is available in the backgrounder below.

"Our province has some of the highest rates of chronic disease in Canada. The amendments we are proposing are designed to protect Newfoundlanders and Labradorians, particularly our children and youth, from the harmful health effects of smoking. Flavoured tobacco, e-cigarettes and hookah are of concern as they are enticing to youth. These amendments support our government's commitment to promoting a healthier population and reducing health care costs."
- The Honourable John Haggie, Minister of Health and Community Services.

Through Budget 2016, $250,000 in new funding has also been provided to support new and expanded programs and services to help individuals quit smoking. For more information on tobacco control or how to prevent or quit smoking, visit: www.swsd.gov.nl.ca/healthyliving/tobaccocontrol.html

QUICK FACTS
• Proposed amendments being introduced in the House of Assembly today will further protect the public, in particular children and youth, from the harms of flavoured tobacco products (including menthol) and hookah smoking, and the potential harms of e-cigarettes.
The main objective of the amendments is to prevent and reduce smoking in Newfoundland and Labrador, particularly among children and youth.

The proposed amendments will cover the sale, use and promotion of flavoured tobacco, e-cigarette, and hookah products throughout Newfoundland and Labrador.

Budget 2016 provides $250,000 in new funding to support new and expanded programs and services to help individuals quit smoking.

For more information on Tobacco Control or how to prevent or quit smoking, visit: www.swsd.gov.nl.ca/healthyliving/tobaccocontrol.html

BACKGROUNDER
Overview of Proposed Legislative Amendments to Prevent and Reduce Smoking

Proposed amendments to the Smoke-Free Environment Act, 2005 and the Tobacco Control Act will strengthen measures to protect people from the harms of flavoured tobacco products and hookah smoking, and the potential harms of electronic cigarettes (e-cigarettes).

Flavoured Tobacco
Proposed amendments will prohibit the sale of flavoured tobacco products (including menthol). The ban will apply to: cigarettes, cigarillos (little cigars), fine-cut tobacco, and smokeless tobacco (chewing tobacco and snus) that have a characterizing flavour (e.g., candy, bubble gum, fruit, and menthol) or are represented as being flavoured.

Electronic Cigarettes
Proposed amendments will:
- Prohibit the sale of electronic cigarettes to persons under the age of 19;
- Prohibit the sale where the sale of tobacco products is currently prohibited;
- Prohibit use in indoor public places, workplaces and in motor vehicles when occupied by a person under the age of 16; and
- Regulate the promotion (including advertising) and display in the same manner that the province currently regulates tobacco promotion and display.

Hookah
Proposed amendments will:
- Prohibit the sale of non-tobacco shisha products to persons under the age of 19;
- Prohibit the sale where the sale of tobacco products are currently prohibited;
- Regulate the promotion (including advertising) and display in the same manner that the province currently regulates tobacco promotion and display; and
- Prohibit hookah smoking of non-tobacco shisha products in indoor public places and workplaces including any existing hookah establishment.
Coming Into Force Dates

Upon Royal Assent

- Prohibition on the sale of e-cigarettes and non-tobacco shisha to persons under the age of 19;
- Prohibition on persons under the age of 19 from entering or working in a hookah establishment; and
- Prohibition on the use of e-cigarettes in indoor public places, workplaces and in motor vehicles when occupied by a person under the age of 16.

July 1, 2017

- Prohibition on the sale of flavoured tobacco products (including menthol);
- Prohibition on the sale of electronic cigarettes and non-tobacco shisha from places where tobacco sales are currently prohibited;
- Restrictions on the display and promotion of e-cigarettes and non-tobacco shisha at retail stores in the same manner as tobacco promotion and display is regulated; and
- Prohibition of hookah smoking of non-tobacco shisha in indoor public places and workplaces including any existing hookah establishment.

2016 06 06 1:10 p.m.
The following statement was given today in the House of Assembly by the Honourable Sherry Gamblin-Walsh, Minister of Seniors, Wellness and Social Development:

Minister Recognizes June as Seniors Month in Newfoundland and Labrador

Mr. Speaker, I rise today to recognize June as Seniors Month in Newfoundland and Labrador. It is a time to show our appreciation for the many contributions older adults have made, and continue to make, in our province.

My mandate from the Premier includes the development of legislation to create a Seniors’ Advocate Office. I am pleased to say that Budget 2016 provides funding to establish this office. It will be independent of government, report to the House of Assembly and be a strong voice for seniors and their families as we look to address system-wide issues which impact older adults.

Budget 2016 provides $63.7 million for the Newfoundland and Labrador Income Supplement to help eligible low income seniors, individuals, families, and persons with disabilities. We have also increased the Low Income Seniors’ Benefit by $12.7 million in Budget 2016 bringing the total annualized investment in the seniors’ benefit to $57.9 million. Many seniors in our province will benefit from these two programs.

We continue to support seniors to live healthy, independent lives while participating fully in their communities.

I ask all members to join me in celebrating June as Seniors Month and recognizing the many contributions of seniors throughout our province.

Expanding Our Economic Potential

Anaconda Mining Receives Support to Expand Operations

The Provincial Government is supporting Anaconda Mining in its efforts to expand its operations through a $400,000 repayable loan under the Business Investment Program and a $100,000 investment through the Business Development Support Program. The Honourable Dwight Ball, Premier of Newfoundland and Labrador, announced the support at the 29th Annual Baie Verte Mining Conference on June 3.

“As a small and growing mining company, Anaconda Mining holds great potential in our province for increased economic growth. Through our support, the company will continue to expand its operations and provide high skilled employment opportunities for our residents. Anaconda Mining has already demonstrated its commitment to giving back to the community and its corporate culture is one that leads by example. We are excited about the incredible potential of Anaconda Mining and believe this is just the beginning of this company's success in Newfoundland and Labrador”
- The Honourable Dwight Ball, Premier of Newfoundland and Labrador

Funding will support productivity through the construction of a control room and ore shed; the purchase of machinery and equipment (core crusher/automation) and includes technical support and set up.

“Supporting companies like Anaconda Mining helps to diversify and strengthen our economy. Each year, Anaconda Mining spends approximately $13 million with companies based in Newfoundland and Labrador or distributors within the province, contributing to the local economy. In addition, most employees and their families live in Baie Verte region.”
- The Honourable Christopher Mitchemore, Minister of Business, Tourism, Culture and Rural Development

Anaconda Mining is a growth-oriented, gold mining and exploration company with a producing project called the Point Rousse Project and an exploration/development project called the Viking Project in Newfoundland. The Point Rousse Project is approximately 6,300 hectares of property on the Ming's Bight Peninsula located in the Baie Verte mining district. Since 2012, Anaconda has increased its property control by 10-fold on the peninsula and gold production to nearly 16,000 ounces per year. In an effort to expand production, it is currently exploring three primary, prospective gold trends, which have approximately 20 km of cumulative strike length and include five deposits and numerous prospects and showings, all within eight km of the Pine Cove mill.
“In the past five years Anaconda Mining has tripled production at the Point Rousse Project to 16,000 oz of gold per year. Our success has been fueled by a commitment to advance innovation and efficiency throughout our operations, including this mill automation project. We are proud to be a part of a growing industry in the Baie Verte mining district and to contribute to long-term economic diversification in the region.”
- Dustin Angelo, President & CEO, Anaconda Mining Inc.

Anaconda also controls the Viking Project, which has approximately 6,225 hectares of property in White Bay, Newfoundland, approximately 100 km by water (180 km via road) from the Pine Cove mill. The project contains the Thor Deposit and other gold prospects and showings. The company's plan is to discover and develop more resources within these project areas and double annual production at the Pine Cove mill from its current rate of nearly 16,000 ounces to 30,000 ounces.

QUICK FACTS
- The Provincial Government is supporting Anaconda Mining in its efforts to expand its operations through a $400,000 repayable loan under the Business Investment Program and a $100,000 investment through the Business Development Support Program.
- Funding will be used to assist with the building of a control room and ore shed; the purchase of machinery and equipment (core crusher/automation) and includes technical support and set up.
- Anaconda Mining is a growth-oriented, gold mining and exploration company with a producing project called the Point Rousse Project and an exploration/development project called the Viking Project.

Moving Forward on Compensation Disclosure

Provincial Government Announces Plans for Compensation Disclosure Legislation

The Provincial Government announced today that it will introduce legislation requiring proactive disclosure of compensation information for public sector employees. The legislation will be introduced in the fall session of the House of Assembly.

"Today we join British Columbia, Alberta, Manitoba, Ontario and Nova Scotia in moving to enact legislation requiring proactive disclosure of compensation information."
- The Honourable Siobhan Coady, Minister Responsible for the Office of Public Engagement

The legislation would require an annual listing of all employees in departments, agencies, boards, commissions and Crown corporations with a salary of $100,000 a year or more. The compensation disclosure list will include name, job title, base salary, overtime pay, severance pay and a combined listing of other compensation. It will report on calendar-year earnings and will be published annually on the Open Data webpage at www.open.gov.nl.ca.

“Our government respects the right of citizens to access information on how public funds are used. This includes the disclosure of public sector employee compensation information, which is to be introduced and debated in our legislature."
- The Honourable Cathy Bennett, Minister Responsible for the Human Resource Secretariat

The Provincial Government is committed to Open Government and has reviewed the work completed to date. More work is required to ensure elements are affordable and meet fiscal realities and available resources. Recent initiatives include the creation of the Independent Appointments Commission, an enhanced listing of departmental salary details, release of management pay scales, and the Premier’s mandate letters to ministers highlighting government’s commitment to openness, transparency and accountability.

QUICK FACTS
- The Provincial Government will introduce legislation this fall requiring proactive disclosure of compensation information for public sector employees.
- The legislation would require an annual listing of all employees in departments, agencies, boards, commissions and Crown corporations with a salary of $100,000 a year or more. The compensation
The compensation disclosure list will be published on the Open Data webpage at www.open.gov.nl.ca. The Provincial Government is committed to Open Government and has reviewed the work completed to date. More work is required to ensure elements are affordable and meet fiscal realities and available resources. Recent initiatives include:

- The creation of an Independent Appointments Commission, which will take the politics out of government appointments to agencies, boards and commissions;
- An enhanced listing of departmental salary details;
- Release of management pay scales; and,
- The Premier’s mandate letters to ministers highlighting government’s commitment to openness, transparency and accountability.

Working to Address Climate Change

Provincial Government Announces Plan for Greenhouse Gas Emissions Reductions

Greenhouse gas emissions from industrial emitters will be reduced and a new fund for clean technology will be established through the Government of Newfoundland and Labrador’s Management of Greenhouse Gas Act. The act will reduce greenhouse gas emissions in the province through a form of carbon pricing and comes after significant consultation with local large industry.

“This act will help reduce emissions and create economic opportunities for clean technology projects here at home. Climate change and energy efficiency are not just environmental issues – they are equally economic issues that can present opportunities for technology development, clean energy development and job growth. I believe we are striking the right balance with the new Management of Greenhouse Gas Act.”
- The Honourable Perry Trimper, Minister responsible for the Office of Climate Change and Energy Efficiency

The legislation provides for two years of emissions monitoring to help form reduction targets. As well, a fund will be established for supporting emissions-reduction technology, which will be 100 per cent industry-funded. This allows companies the flexibility to achieve emissions reductions at lower cost, while supporting projects that will help the province meet its greenhouse gas target. The Provincial Government is committed to working with companies and industry associations on next steps, including consulting on the development of the fund and regulations.

“We welcome the approach that the Provincial Government has developed and the importance placed on taking local circumstances into account. Consulting with industry has ensured that we have been able to bring our perspectives to the table and we look forward to further work with the government to improve our environment.
- Dan Harris, Refinery Manager, North Atlantic Refining Ltd.

Large industrial companies in Newfoundland and Labrador account for 43 per cent of greenhouse gas emissions, more than 30 per cent of GDP, and about 15 per cent of fiscal revenue.

QUICK FACTS:
- The Government of Newfoundland and Labrador is introducing the new Management of Greenhouse Gas Act to reduce industrial emissions.
• Emissions will be monitored for two years to help set reduction targets in consultation with industry.
• The act also establishes a new fund for clean technology which will be 100 per cent industry funded.
• Local large industry accounts for 43 per cent of greenhouse gas emissions and more than 30 per cent of GDP.

2016 06 07 11:10 a.m.
The following statement was given today in the House of Assembly by the Honourable Eddie Joyce, Minister of Service NL:

Minister Recognizes Roadcheck 2016

Mr. Speaker, I rise in this Honourable House to note that Roadcheck 2016 will be carried out in our province, and throughout North America from today, June 7, until Thursday, June 9.

Roadcheck 2016 is an initiative of the Commercial Vehicle Safety Alliance and represents a major undertaking by vehicle safety enforcement personnel across Canada, the United States, and Mexico.

Mr. Speaker, over the next three days, provincial highway enforcement officers will conduct an inspection blitz of commercial vehicles, and remind owners and operators of safe operating practices. Officers will mainly conduct the North American Standard Level 1 Inspection, which is a 37-step procedure that checks both driver and vehicle safety. Supporting safe and sustainable communities is a priority for our government and our participation in Roadcheck 2016 speaks to this commitment.

Mr. Speaker, each year our dedicated staff check hundreds of vehicles throughout the province during the Roadcheck exercise. As we undertake Roadcheck 2016, I would like to take this opportunity to recognize the great work of our enforcement staff, who perform their duties faithfully every day. Their work is greatly appreciated by our government, and vital to the safety of motorists throughout Newfoundland and Labrador. I also want to applaud the efforts of everyone in the commercial transport industry who promotes road safety and follow best practices.

Thank you, Mr. Speaker.
Commemorating the First World War

Where Once They Stood We Stand Capital Campaign Reaches $11.1 Million

Today, Sylvain Vinet, Senior Vice President, Retail Markets, Eastern Canada for CIBC, presented Tom Foran, Chair of The Rooms Corporation, and Dean Brinton, CEO of The Rooms Corporation with $100,000 donation to The Rooms Where Once They Stood We Stand capital campaign. This brings the total raised to date to $11.1 million.

“CIBC is proud to stand with The Rooms and to join this exceptional group of donors to commemorate the First World War through the creation of this legacy project to remember the fallen.”
- Sylvain Vinet, Senior Vice President, Retail Markets, Eastern Canada for CIBC

The Rooms has organized the largest project for the commemoration of the 100th anniversary of the First World War in the country. For more than three years The Rooms has worked tirelessly to document; to preserve; to educate; and to remember the stories of those who have gone before us and who have helped to shape the province of Newfoundland and Labrador. On July 1 this meaningful anniversary will be marked with the dedication of the Fortis Courtyard and Amphitheatre and the opening of the Royal Newfoundland Regiment Gallery by HRH The Princess Royal.

“We are less than a month away from commemorating the 100th anniversary of Beaumont-Hamel and honouring all those who served on the home front and overseas. The Rooms is delighted that CIBC has joined our very special team of donors who have helped turn our legacy project into a reality.”
- Tom Foran, Chair of The Rooms Corporation and Co-Chair of The Rooms capital campaign

CIBC's contribution brings The Rooms one step closer to their $15 million capital fundraising goal.

QUICK FACTS

Protecting and Preserving our Oceans

World Oceans Day Creates Awareness and Understanding of Marine Environments

Today marks the eighth annual World Oceans Day, which is recognized around the world to honour, protect and conserve the world’s oceans. This year’s theme – Healthy Oceans, Healthy Planet – encourages participants to reflect on what actions can be taken to safeguard ocean communities.

“In Newfoundland and Labrador, the ocean and the opportunities it provides have always been at the heart of our economy and our culture. The coastline and ocean are intrinsically linked to our history, culture, recreational enjoyment and prosperity, and we will continue to rely on the resources from our waters for generations to come. Today is an opportunity to take a moment to reflect on what the ocean means to you and how you can help protect it.”

- The Honourable Steve Crocker, Minister of Fisheries and Aquaculture

In honour of World Oceans Day, the Provincial Government held its annual World Oceans Day art and essay contests, engaging youth across the province from Kindergarten to Grade Nine. A list of winners can be found in the backgrounder below.

In addition, last weekend over 1,500 people celebrated World Oceans Day at the Marine Institute, taking part in exhibits, demonstrations and family activities. The event was organized by the World Oceans Day event committee, comprising the Department of Fisheries and Aquaculture, Fisheries and Oceans Canada, World Wildlife Fund, Fish, Food and Allied Workers, Canadian Parks and Wilderness Society and the Marine Institute.

QUICK FACTS
- The United Nations passed a resolution in December 2008 to recognize June 8 as World Oceans Day.
- Budget 2016 provides $1.8 million to Centre for Fisheries Ecosystem Research (CFER).
- CFER focuses on innovative research to inform the status of the province’s fisheries resources and enhances fisheries science capabilities in the province by building research capacity at Memorial University and Marine Institute.
- More information on World Oceans Day can be found at www.fishaq.gov.nl.ca/education/.

BACKGROUND
World Oceans Day Contest Award Winners

Each year the Department of Fisheries and Aquaculture recognizes World Oceans Day with an annual art contest that is managed by the Department and the World Oceans Day planning committee. The contest is open to students in primary and elementary schools in the province.

The winners of the 2016 World Oceans Day Art Contest are:
- Kindergarten: Yael Piercey, Immaculate Heart of Mary School, Corner Brook
- Grade 1: Rotém Phillips-Grobbelaar, Immaculate Heart of Mary School, Corner Brook
- Grade 2: Henry Stone, École des Grands-Vents, St. John’s
- Grade 3: Grace Abbott, Goulds Elementary, Goulds
- Grade 4: Rebecca Penney, Riverside Elementary, Clarenville
- Grade 5: Brooklynn Parsons, Elwood Elementary, Deer Lake
- Grade 6: Ethan McNabb, Stephenville Middle School, Stephenville

The Department of Fisheries and Aquaculture also collaborated with World Wildlife Fund-Canada on the annual Oceans Hero Essay Contest. This contest is open to junior high students across the province.

The winner of the 2016 World Oceans Day Oceans Hero Essay Contest is:
- Terrance Careen, Grade 7 student at Fatima Academy, St. Brides

The winning entries can be viewed online at www.fishaq.gov.nl.ca/education/.

Public Advisory: Provincial Ferries Now Operating on Summer Schedules

Residents and travellers are advised that the following intra-provincial ferries on the island portion of the province are now operating on summer schedules:

- Fogo Island - Change Islands - Farewell
- St. Brendan's - Burnside
- Little Bay Islands - Long Island - Pilley's Island
- Ramea - Grey River - Burgeo
- Gaultois - McCallum - Hermitage
- Rencontre East - Bay L'Argent - Pool's Cove
- South East Bight - Petite Forte
- La Poile - Rose Blanche

The Portugal Cove - Bell Island ferry is currently operating on the One Vessel Non-Enhanced Schedule and the Francois - Grey River - Burgeo ferry is operating on a year-round schedule.

For Labrador, the Blanc Sablon - St. Barbe ferry service will commence a summer schedule on June 19, 2016, and an update on the Labrador North Coast ferry service was issued on Wednesday, June 1, with that service set to begin June 20 - www.releases.gov.nl.ca/releases/2016/tw/0601n06.aspx.

All schedules, service updates and rate information for intra-provincial ferries can be found at www.tw.gov.nl.ca/ferryservices/.

Exploring International Markets Supports Film Industry

Province Invests in Business Development Mission for Local Filmmakers

The Provincial Government and the Newfoundland and Labrador Film Development Corporation (NLFDC) are co-leading a group of 10 emerging to mid-level filmmakers on a business development mission to Los Angeles, June 4-9. The Provincial Government is providing $25,000 through the Business Development Support Program to support the mission.

“This is an excellent opportunity for local filmmakers to participate in an event with the most influential decision makers – the producers – in the US entertainment industry, all gathered in one place. Through this mission, the participants will receive targeted one-on-one meetings with industry experts, specialized group sessions, and attend an industry leading conference all intended to help them further develop their film and television projects for the international market.”
- The Honourable Christopher Mitchelmore, Minister of Business, Tourism, Culture and Rural Development

Scheduled to coincide with the Producer’s Guild of America Produced By 2016 conference, local filmmakers participated in conference activities on June 4-5 and will then attend scheduled workshops and, where appropriate, targeted B2B meetings with Los Angeles based executives from June 6 to 9.

The following producers each received $2,500 to assist with the cost of travel:
- Michael Hickey (Independent Producer)
- Carrie at Heart Productions
- Allison White (Independent Producer)
- Rogue Rock Pictures
- David Feehan (Independent Producer)
- Mark O’Neill (Independent Producer)
- Joshua Jamieson (Independent Producer)
- Kerry Gamberg (Independent Producer)
- Tamara Segura (Independent Producer)
- Micah Martin (Independent Producer)

“Exposure to this huge market has proved invaluable to participants and we have seen the progression of producers moving from emerging to mid-level to established producers. The business contacts made and the long-term relationships formed at missions such as this would not be possible without the
partnership and support of the Department of Business, Tourism, Culture and Rural Development and the Atlantic Canada Opportunities Agency.”

- Chris Bonnell, Executive Director-Film Commissioner, NLFDC

The film and television industry is an economic generator in Newfoundland and Labrador. The NLFDC has reported 2015-16 was ‘the best year ever’ for the film and television industry in the province. Total production activity reached a volume of $45.8 million, which included two television series and five feature films, providing more than 600 fulltime employment equivalencies (direct, indirect and induced) were created by local companies in the film and television industry last year alone. On average, over 70 per cent of the funds used to make large-scale film and television productions are leveraged from outside Newfoundland and Labrador.

Since the creation of the NLFDC, more than $359 million in total production activity has occurred. Of that $359 million total production activity created, it is estimated that more than $250 million has been new money, industry specific investment, leveraged into the province.

QUICK FACTS
- The Provincial Government and the Newfoundland and Labrador Film Development Corporation (NLFDC) are co-leading a group of 10 emerging to mid-level filmmakers on a business development mission to Los Angeles, June 4-9, 2016.
- The Provincial Government is providing $25,000 through the Business Development Support Program to support the mission.

Government Advances Legislative Agenda

Spring Session of the House of Assembly Supports Fiscal Responsibility, Openness, Transparency and Accountability

The inaugural session of the House of Assembly, under the leadership of the Honourable Dwight Ball, Premier of Newfoundland and Labrador, concluded today. The productive session, which included 38 pieces of legislation, demonstrated the Provincial Government's commitment to fiscal responsibility, as well as openness, transparency and accountability.

"Within our government’s first 100 days, we opened the House of Assembly and initiated an ambitious legislative agenda that supports matters that are important to Newfoundlanders and Labradorians and that advance our commitment to making sound, evidence-based decisions while improving openness, transparency and accountability. I thank all Members of the House of Assembly for their contribution.”

- The Honourable Andrew Parsons, Minister of Justice and Public Safety and Government House Leader

The spring session of the House of Assembly included a difficult but necessary provincial budget, which featured a plan that will reverse the effects of the unprecedented financial situation facing the province. Examples of other important legislative initiatives that were undertaken include:

- Creating a merit-based appointment process for agencies, boards and commissions and an Independent Appointments Commission;
- Ensuring the rights of transgendered individuals by removing the requirement for a person to undergo sex reassignment surgery prior to changing the gender marker on the persons birth registration or marriage registration;
- Protecting the environment through regulation of greenhouse gas emissions from large industrial facilities;
- Protecting against the harms of flavoured tobacco products, electronic cigarettes and hookah smoking;
- Eliminating compensation for parliamentary secretaries and the parliamentary assistant to the Premier;
- Supporting safer roads and highways through the implementation of stronger penalties for motor vehicle infractions; and,
- Modernizing how the Provincial Government pays providers for the insured services they provide to Newfoundlanders and Labradorians.
The complete list of legislation passed in the spring session of the House of Assembly is available at www.assembly.nl.ca/business/bills/ga48session1.htm.

"As a government, we appreciate that residents demand more out of the House of Assembly and are committed to improving the function of the provincial legislature. We are committed to updating standing orders, setting a schedule for the House of Assembly, and seeking opportunities for non-partisan legislative review committees and democratic reform. It is an ambitious agenda but the people of the province deserve an ambitious government."

- Minister Parsons

The 48th General Assembly opened on March 8.

QUICK FACTS
• The inaugural session of the House of Assembly, under the leadership of the Honourable Dwight Ball, Premier of Newfoundland and Labrador, concluded today
• The Provincial Government introduced and passed 38 pieces of legislation.
• The legislative agenda highlighted government’s commitment to greater fiscal responsibility, as well as increased openness, transparency and accountability.

Public Advisory: Child Death Review Committee Case Reviews

Under section 13.5 of the Fatalities Investigations Act, the Minister of Justice and Public Safety is required, within 60 days after receiving a report from the Child Death Review Committee (CDRC), to make public those recommendations relating to:

- Relevant protocols, policies and procedures;
- Standards and legislation;
- Linkages and coordination of services; and
- Improvements to services affecting children and pregnant women.

The CDRC forwarded two reports to the Minister of Justice and Public Safety on May 12, 2016. The reports examine the facts and circumstances surrounding two unrelated deaths of youth in Newfoundland and Labrador that occurred in August and September, 2015.

Case 1:
A youth committed suicide.

Recommendation:
1. Eastern Health develop a transition system giving immediate access to adult services for youth who require ongoing service upon leaving the children’s mental health service.

Case 2:
A youth died as the result of a motor vehicle accident.

Recommendations:
1. The Department of Justice and Public Safety develop awareness initiatives customized for young drivers regarding seat belt usage and safe driving records;
2. The Department of Justice and Public Safety develop restrictions for young drivers designed to improve their safety, such as expanded driving curfews and restrictions on highway driving in the evening/night; and
3. The Royal Newfoundland Constabulary and the Royal Canadian Mounted Police increase efforts to ensure compliance with seat belt regulations.

This report has been forwarded to the Child and Youth Advocate.

Strategic Oil and Gas Exploration in Newfoundland and Labrador

Offshore Exploration Program Shows Positive Results

Today’s announcement by Statoil, providing results of its offshore exploration program, is good news for Newfoundland and Labrador as it confirms the presence of hydrocarbons in the Baccalieu and Bay de Verde prospects in addition to the Bay du Nord, Harpoon and Mizzen discoveries.

“The discovery of oil in the Baccalieu prospect demonstrates how nimble and responsive our offshore can be when we work together. Statoil was issued an exploration licence in January 2016, began drilling a well in March, and has already announced the discovery of oil. Statoil will now review the information gathered in its drilling program and will assess the geology. We look forward to their analysis.”

- The Honourable Siobhan Coady, Minister of Natural Resources

In the Flemish Pass Basin, 13 exploration well tracks have been drilled and five oil discoveries have been announced, including Mizzen, Harpoon, Bay du Nord, Bay de Verde and Baccalieu. This is an impressive success ratio for a frontier basin.

Statoil is playing a significant role in the development of Newfoundland and Labrador’s offshore oil industry. The province’s resource potential is significant and long term. There is much work ahead in exploration and development by Statoil and other companies working offshore.

Offshore Newfoundland and Labrador is considered one of the best frontier regions in the world today with over 20 basins, significant new basin areas, and over 350 leads and prospects defined to date from new seismic work.

New geoscience data and the province’s new land tenure system are enabling industry to significantly shorten the lead time required to identify and drill prospects.

The Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB) has issued two Calls for Bids under the scheduled land tenure regime in the Canada-Newfoundland and Labrador Offshore Area which closes in November 2016.

The Provincial Government, in partnership with Nalcor, is well underway with an independent resource assessment for new blocks in the Eastern Newfoundland Region. The results of this resource assessment will be issued publicly ahead of the closing of the licence round.
QUICK FACTS

- Today’s announcement by Statoil, providing results of its offshore exploration program, is good news for Newfoundland and Labrador as it confirms the presence of hydrocarbons in the Baccalieu and Bay de Verde prospects in addition to the Bay du Nord, Harpoon and Mizzen discoveries.
- Statoil was issued an exploration licence in January 2016, began drilling a well in March, and has already announced the discovery of oil in the Baccalieu prospect.
- Modern seismic data and interpretation techniques along with publicly released well results have indicated multiple aged formations are prospective in the Flemish Pass.
- The Provincial Government is encouraged by the amount of new seismic data being acquired in the offshore region including additional 3D data in a large program for this year.

Supporting Healthcare Providers

Provincial Government Reaches Tentative Agreement with PAIRN

Today, the Provincial Government announced a tentative collective agreement has been reached with the Professional Association of Interns and Residents (PAIRN). This agreement follows over two years of bargaining and is being honoured in good faith.

“Having resident salaries which are comparable to those in other Atlantic provinces will encourage medical students to consider post graduate training in Newfoundland and Labrador. Research has shown that residents who complete Undergraduate Medical Education in this province are much more likely to decide to practice in Newfoundland and Labrador. This is important in order to provide care to our population.”
- The Honourable John Haggie, Minister of Health and Community Services

PAIRN has been without a contract since 2013 and have been bargaining with government since 2014. This agreement, reached in March 2016, will see salaries adjusted to achieve parity with PARI-MP (Nova Scotia) during the last two years of the collective agreement. Parity is determined by salary comparisons that were completed as of July 1, 2014.

“Our government made a commitment prior to Budget 2016 to PAIRN and that is being honoured in light of fairness and good faith. The approximately 260 residents and fellows who work in our regional healthcare authorities as part of their academic program are integral pieces of our healthcare system.”
- Minister Haggie

The adjustments will equal $1.3 million over the life of the contract which has been included in the Department of Health and Community Services departmental budgets.

Encouraging Development in the Mining Industry

Request for Proposals Released for Exempt Mineral Land

The Provincial Government has issued a request for proposals for licensing of the mineral rights associated with the Former Consolidated Rambler Tailings Exempt Mineral Land.

“Several companies have expressed interest in obtaining the mineral rights to the Former Consolidated Rambler Tailings Exempt Mineral Land. The Request for Proposals process will ensure that any company interested in developing the property has the opportunity to demonstrate how their proposal can benefit the province. Our government is committed to encouraging and supporting the development of the provincial mining industry.”

- The Honourable Siobhan Coady, Minister of Natural Resources

The successful proponent will be granted exclusive mineral rights under the Mineral Act either as an Extended Map Staked Licence or a Mining Lease, as appropriate. The proponent’s commitments will be incorporated as terms and conditions of the licence or lease.

The closing date for receipt of proposals is August 5, 2016. Details of the process can be found at: www.nr.gov.nl.ca/nr/

Media Advisory: Minister Mitchelmore to Attend Ministers of Innovation and Economic Development Meeting

The Honourable Christopher Mitchelmore, Minister of Business, Tourism, Culture and Rural Development, will attend a meeting of federal, provincial and territorial ministers of innovation and economic development in Ottawa on Monday, June 13. The meeting will take place at the C.D. Howe Building, 235 Queen Street, Ottawa.

The meeting will focus on two key areas: innovation and economic development priorities, and the clean technology innovation and jobs working group.

Subject: FW: Extremely Important To Contact ASAP

Mr. Ball

I received a call from Rodney Mercer. He asked me to meet with him. Mr. Ball, that would be a mistake and I can not make any mistakes with what I have to offer.

What I have to share is a business of Government worth in excess of a Billion Dollars.

One of the people I have sat with recently is Dave Denine. I have know Dave since I am 9 yrs old. He and I went over what I am proposing for a couple of hours ... he told me that you are a real down to earth man and should be open to what I have. It takes a strong leader to take the measures to do what is right.

I know you are being pressured from every angle. Mr. Ball not only am I capable of building a business of Government, I also can read through people and situations. I am a very strategic thinker with a real vision for solutions. You need me sir!!! I come with my plan of business... no one else has come close to the package I will be first offering you to work with.

Dave suggested we meet at my kitchen table.. you and I only.. we can discuss this plan and schedule a further time to make agreement on how we can work together to role out. Day or Night.. for your benefit, it should be as soon as humanly possible.

I do not belong to any political party and my goals are for every Child, Woman and Man in the province.

Sent from my BlackBerry 10 smartphone on the Bell network.

Subject: Extremely Important To Contact ASAP

Dear Mr. Ball,

I can not express enough how much you and I need to have contact as soon as possible...

I have recently had conversations with your MHA's and a minister in your party... They are very interested in what I have to offer.

I ask you, for your benefit, the benefit of politics in this province and especially for the people of the province, please call me before you make anymore drastic changes. I work extremely well in extreme stressful environments. For some reason, I preform my best under pressure. I have a way out of this which will not only have you free but one which will install trust in the people again.

Mr. Ball, I have been working on a lot of business for the government on my own, long before the past elections and the budget. I have massive gains to offer that will hush the crowd of roaring people.

Tomorrow morning I have my first meeting with one of the major union leaders, I have a program which will quiet everyone and turn this province around today!!!

My cell number is: [redacted]

Have an amazing day!!!

Subject: Re: Premier Ball your Attention Please

Joanne,

Thanks for the response, but I emailed the premier @ his email and I expected the premier to respond to my email. I assumed that if I email the premier's personal email I would receive a response from him not an email stating that someone else read my email to him replying that the premier will get my email. I would have thought he would get my email if I emailed him!

Only makes sense don't it ????

Tks

Hi Mr. Premier

Let me introduce myself. My name is [redacted] I am a [redacted] year old Proud Newfoundlander whom loves my province I am [redacted]

Anyway that's all I'm gonna write. I'll do it this way. I'm a resident of this province and Your the leader of that province and I am requesting a phone call or a face to face topics include Greigs open pen salmon farm. I have spoken to many officials on this since the previous gov approved this is a scary business opp and I get the allowable Risk ...........

And to be honest budget stuff
And I'll say this I can appreciate your a busy man right now but you asked for the job you got it sir.

With all do respect sir

Your sucking the life out of the people of this province There has to be a better way! People will not forget this sir. Like what's the cut of your jib? Open your eyes and see your killing the hearts of every residence. Anyway Mr.Premier stop and listen to your people.

I was also at the house of assembly on Monday night and have voiced my opinion to several mhas already this one applys to all mhas and its one that has my blood boiling and am still awaiting a response from one Mha.

So as I sat in the house on Monday may 3 evening session as members got up to speak there 20 mins other members were walking around laughing making jokes whatnot it would be unfair to say all but I would suggest the majority ya they were worse that a bunch of half day kindergartens. I was disgusted your our elected officials and our province is appertanly in bad shape so help me understand why Your government is killing the hearts of the majority from I can see of NL.

Would love some of your time Premier Ball My concerns are legitimate and my voice respectful you are my premier I will show you the respect you deserve.

Sincerely

Sent from my iPhone

Hi Rodney,

I just received a call for Premier Ball from [redacted] wanted me to pass along the message that he would like the government to honor his vote. He said he is not a party man and has voted for each party over the years, but he does support our current government and did vote for them. He said he feels with all the nonsense out there, he wanted to say that he has elected the Premier and his government and, despite any hiccups along the way, he is supporting them. He even went so far to say that he no longer falls into the category to pay the levy but would write a cheque to the government anyways and asked who he could make it out to.

Please return his call at [redacted]

Thank you!

Hi Rodney,

Please call [redacted] said he is calling from the Southern Shore. He said he previously left a message with the Justice Department regarding some remarks made by Minister Parsons in a statement as it relates to the Nalcor Investigation. [redacted] is looking for a call back from our office to discuss that situation and possibly get some further clarification.

Thank you,

Kala

Hi Rodney,

I just received a call that bounced back from your line from [Redacted]. I let [Redacted] know you are in a meeting.

She said she was calling for the Premier to resign for allowing child abuse in the province. She asked that you return her call. She asked that “the top person I spoke with before the Premier went on holidays get off his ass and give me a call”. During the call [Redacted] used two or two explicit words, but otherwise maintained a friendly and calm tone. She ended the call saying that “she won’t wait for the call, her body refuses to wait” and she needed you to call her back. She provided the number [Redacted].

Thanks,

Kala Noel

To EAs & CAs,

Please see invitation below to the Multi-Faith Prayer Breakfast sponsored by the Religious Social Action Coalition (RSAC) and the St. John's and Area Council of Churches and hosted by Premier Dwight Ball on Wednesday, June 8, 2016 from 9:00 a.m. to 10:00 a.m. in the West Block Cafeteria.

In the event of the filibuster continuing into tomorrow morning, we are requesting EAs and CAs, where available, attend the breakfast on behalf of your Minister / Member.

Please note that breakfast will include: Scrambled eggs, 2 pancakes, hashbrowns, toast, tea/coffee for a cost of $7.90 (HST included).

Kind regards,

Virginia Connors

---

Good Evening,

We wish to advise, that due to a filibuster currently ongoing in the House of Assembly, the possibility exists that MHAs may be unavailable to attend the Multi-Faith Prayer Breakfast tomorrow morning. The Premier will be in attendance, and our Office will be contacting all Ministers' Executive Assistants and Members' Constituency Assistants to attend on their behalf.
Would you please notify other members of the Religious Social Action Coalition and the St. John’s and Area Council of Churches.

Kind regards,

Virginia Connors

Invitation to Multi-Faith Prayer Breakfast – Wednesday, June 8, 2016 at 9:00 am – Confederation Building – West Block Cafeteria

Good Day All:

We invite you to attend our third Multi-Faith Prayer Breakfast hosted by Premier Dwight Ball on Wednesday, June 8, 2016 from 9:00 a.m. to 10:00 a.m. in the West Block Cafeteria.

Sponsored by the Religious Social Action Coalition (RSAC) and the St. John’s and Area Council of Churches, the purpose of this breakfast is to receive prayers of the several religious communities of our Province: Jewish; Christian; Muslim; Hindu; Sikh. There will be a presentation by the RSAC (multi-faith group to address Poverty). Some of the leaders of the above religious communities also will be in attendance. Those attending will pay for their breakfast and we would ask you to move through the cafeteria and be seated by 9:00 a.m. so that we can begin and end on time. The Jewish, Christian, Muslim, Hindu and Sikh communities are looking forward to spending time with us in this way.

We strongly encourage all Members of the House of Assembly to attend this important event.

Breakfast will include: Scrambled eggs, 2 pancakes, hashbrowns, toast, tea/coffee for a cost of $7.90 HST included. For those who do not choose to have a full breakfast, there will be fresh fruit, yogurt, fruit juices, muffins, etc. available for purchase in the cafeteria.

You are asked to reply concerning your attendance at this significant event. Please RSVP to Edna Roberts at eroberts@gov.nl.ca by June 3, 2016 to confirm your attendance.

Thank you for your participation.

Thanks

Nancy
Sent from my BlackBerry 10 smartphone on the Bell network.
Good Morning, everyone.

I would like to welcome our inter-faith leaders and guests to the Confederation Complex.

I would also like to welcome any employees joining us for this morning's event.

I don't know about the rest of you, but the smell of breakfast cooking here in the cafeteria is certainly making me hungry.

Not to worry, I won’t speak for too long; we’ll be sitting down to eat in no time.

Most of us are here to take in a presentation by the Reverend Canon David Burrows, Coordinator of the Religious Social Action Committee.

This presentation will be on “fair minimum living” and focusing on poverty elimination approaches for our province.

Our government is committed to supporting measures to prevent, reduce and alleviate poverty.

While there has been much talk about the recent provincial budget and measures that we had to take to address an unprecedented, very real and very serious fiscal situation, I want to point out that Budget 2016 provides over $250 million in initiatives to support people with low income.

New investments include:
• $76.4 million annualized in a new Newfoundland and Labrador Income Supplement, a new disability benefit and enhancements to the Seniors’ Benefit. These benefits are paid directly to low income individuals and families and are designed to mitigate tax increases.

• $2.5 million to address homelessness by increasing the budget of Newfoundland and Labrador Housing’s Supportive Living Program to $7.6 million; and

• $3 million to increase the monthly fuel allowance for eligible income support clients.

The new NL Income Supplement and Disability Benefit, as well as the increased Seniors’ Benefit, put money directly in the hands of those in low income and mitigate tax increases implemented in Budget 2016.
We are analyzing income and other data, as well as information from the community, about people in low income to identify gaps in programs and services and priority areas for future focus.

In fact, I had the opportunity to host a meeting with the Religious Social Action Committee in my office just a few weeks ago where we discussed many issues facing people in low income and how we might make strides to address poverty and homelessness in our province.

We have also been working with End Homelessness St. John’s and federal partners to ensure innovative approaches to preventing and ending homelessness.

Our government has committed to developing a new provincial housing strategy that will address both the affordability and availability of housing options, paying particular attention to the needs of seniors and youth.

And, we will work diligently to ensure that accessible and affordable housing is available throughout Newfoundland and Labrador, and to improve housing options and conditions for low to moderate income households.

We know that the availability of quality childcare and early learning opportunities is important to break the cycle of intergenerational poverty.

To that end, and in addition to investments in full-day kindergarten, we are working closely with our federal counterparts to ensure development of a national early learning framework that will meet the needs of our province.

We have also committed to review the province’s minimum wage with a view to establishing a consistent formula that is reflective of the cost of living.

As we embark upon this review in the coming months, we will be seeking input from stakeholders and the general public, including representation from groups such as yours.

In closing, I would like to say that I look forward to continuing a dialogue with the Religious Social Action Committee and other groups that are focused on the physical and spiritual well-being of Newfoundlanders and Labradors.

We will continue to plan for the future as we seek to build a stronger tomorrow for all people in our province.

Ongoing cooperation and collaboration with community-based groups will be essential to helping ensure we are putting the best policies and programs in place to serve the many and diverse people and communities throughout Newfoundland and Labrador.
Thank you for inviting me here this morning.
Print these for him too as a reference

Hi Dwight

This is for reference for tomorrow. Attached above is the latest poverty messages.

Nancy
Seniors, Wellness and Social Development
Poverty Reduction Measures
May 16, 2016

Key Messages:

• Our government is committed to supporting measures to prevent, reduce and alleviate poverty.

• Budget 2016 invests over $250 million in initiatives to support people with low income.

• New investments include:
  ➢ $76.4 million annualized in a new Newfoundland and Labrador Income Supplement, a new disability benefit and enhancements to the Seniors’ Benefit.
  ➢ These benefits are paid directly to low income individuals and families and are designed to mitigate tax increases.
  ➢ $2.5 million to address homelessness by increasing the budget of Newfoundland and Labrador Housing’s Supportive Living Program to $7.6 million.
  ➢ $3 million to increase the monthly fuel allowance for eligible income support clients.

• We are analyzing income and other data as well as information from the community about people in low income to identify gaps in programs and services and priority areas for future focus.

If asked how Poverty Reduction measures compare from Budget 2015 to Budget 2016:

• Budget 2015 provided $190 million for poverty reduction initiatives.

• Budget 2016 invests over $250 million in initiatives to support people with low income including new benefits designed to mitigate increases to taxes and fees.
Poverty Reduction Secondary Messages

- Even in this difficult fiscal time, our government has increased the investment in initiatives to reduce and prevent poverty from $190 million last year to over $250 million this year.

- The new NL Income Supplement and Disability Benefit, as well as the increased Seniors’ Benefit, put money directly the hands of those in low income and mitigate tax increases implemented in Budget 2016.

- We are continuing to assess gaps in programs and services for people in low income.

- We are working to improve access to and coordination of services for vulnerable populations. We have been meeting with community partners to discuss how best to work together to meet our shared goals.

- Budget 2016 maintained funding levels to community-based groups at 2015-16 levels so they can continue the valuable work they do.

- We are focused on housing and homelessness and are working with community partners to end homelessness in our province.

  - Budget 2016 increased funding for NLHC’s Supportive Living Program by $2.5 million for a total grant budget of $7.6 million. This program funds community-based groups to provide supportive housing options.

  - We have also been working with End Homelessness St. John’s and federal partners to ensure innovative approaches to preventing and ending homelessness.

- Ensuring the availability of quality childcare and early learning opportunities is important to break the cycle of intergenerational poverty.

- In addition to investments in full day kindergarten, we are working closely with our federal counterparts to ensure development of a national early learning framework that will meet the needs of our province.

Subject: Appearance Request For Premier Ball

Hello Rodney,

My name is Victoria Gallant from the TV show Giver at Sinking Ship Entertainment in Ontario. I was directed by the Premier’s office to email you in regard to an appearance request for Premier Ball.

For the past three seasons Giver have travelled across Southern Ontario, meeting kids from different communities and helping them build their dream playgrounds. Through our program we empower children through direct involvement in the design and construction of the playgrounds and proving they can affect positive change in their communities at any age.

For our fourth season we are embarking on a much larger project which will finally allow Giver to involve kids on a national scale. This summer, for the upcoming 2017 celebrations in Ottawa, we will be building a world record park in the shape of Canada that will contain 10
smaller playgrounds representing the provinces and territories. We are reaching out to youth across Canada as we wish to have the selected provincial applicants travel to Ottawa to be involved in the design and construction of their home province or territory.

Here is the trailer for our upcoming project [https://vimeo.com/151575042](https://vimeo.com/151575042), you can also visit our website [www.Giver150.com](http://www.Giver150.com).

We would like to extend an invitation to Premier Ball to attend the opening of the Newfoundland Park on August 22nd in Ottawa.

Please let me know if you have any additional questions. We are happy to answer any concerns you may have.

We look forward to your response.

Victoria

Dear Premier Dwight Ball:

Minister Byrne has instructed me to send you an Excel spreadsheet containing the list of applications for the Summer Student Employment Program (High School) in your district. We would ask that you review the list and allocate the number of positions, hours per week and weeks for each application and fill in the orange cells accordingly. As indicated in the attached cover letter, please stay within the overall allocation limit of $19,000, and send me either a hard copy or an Excel copy of your completed list by Tuesday, June 14.

To facilitate your efforts, the Department of Advanced Education and Skills has designed the attached spreadsheet to automatically calculate the cost in the green column as entries are made in the orange cells. Contact information for each applicant has also been provided to assist your office in contacting the applicants at your discretion.

Once we have received your completed spreadsheets, the Department will formally notify the applicants of their awarded student positions. If you have any questions, please feel free to contact me at any time at GordonMacGowan@gov.nl.ca or call me directly at 709-729-1989.

Sincere regards,

GORDON MACGOWAN, MBA | Executive Assistant

Total: 83 | $256,231.50 | 0 | 0 | $0.00
June 8, 2016

Dear Colleagues:

Attached is a spreadsheet listing applications received from organizations located in your district for the 2016 Student Summer Employment Program - High School (SSEP-HS). To ensure effective and efficient administration of the program, please return (or email) your recommendations by Tuesday, June 14, 2016 to my Executive Assistant, Mr. Gordon MacGowan at GordonMacGowan@gov.nl.ca.

The attached spreadsheet can be completed either manually or electronically.

To assist with the manual completion of the attached spreadsheet, please refer to a second handout - SSEP-HS Funding Worksheet, which details the cost per position depending on the number of hours and weeks being recommended.

A copy of this spreadsheet will also be e-mailed to your office. The spreadsheet has been set up so that once you enter the number of positions, weeks and hours in the spreadsheet, the cost will automatically calculate with the total cost for the Electoral District summarized on the bottom. Further, if an organization has received funding through the Student Summer Employment Post-Secondary Program (SSEP-PS), it will be indicated on the accompanying spreadsheet.

Please be advised that the maximum amount of funding for each Electoral District is $19,000. Please do not exceed this amount. To assist you in the process, note the following program criteria:

- Jobs must be a minimum of 20 hours per week for a minimum of four (4) weeks;
- Jobs can be no more than a maximum of 40 hours per week for eight (8) weeks;
- Minimum wage to be calculated at $10.50 per hour; and,
- Mandatory Employment Related Costs (MERCs) to be calculated at 15 per cent of the total cost of the placement.

Should you require further information, please contact Mr. Gordon MacGowan at 729-1989 or by e-mail at GordonMacGowan@gov.nl.ca.

Sincerely,

HON. GERRY BYRNE, MHA
District of Corner Brook
Minister

Attached
Nancy,

See attached outline for Friday evening meeting to add to your briefing notes for the Premier. We have been told there is “a bus load of people coming from deer lake”. Please consider if we should have some security in the area or at the meeting with us. Jason, Sonya and myself will be attending with the Premier.

Thanks,

Lisa
Gros Morn Joint Council Town Hall Meeting with Premier Ball

Friday June 10th 2016  6:30pm

Woody Point Town Hall

6:30pm: Private meet and greet with Mayors and Town Clerks of each town in the council office. (Approx 10 people)

7:00pm: Move to Town Hall for open question meeting, expected to last 1 hour.

The hall can hold approximately 83 people sitting and then standing room.

Table set up in the front of the room with 4 chairs for Premier Ball & Staff (maybe should be just Premier and Minister Joyce ??) facing the audience and there will be a microphone for audience to ask questions.

Mayor of Woody Point, Fred Mclean, will give opening remarks and will provide an outline of how the questions/answer session will flow and then introduce the Premier.

Premier to give opening remarks and then each Mayor will each ask one question and one follow up question.

Mayor of Woody Point, Fred McLean question topic: Municipal Capital Works (question is attached).

Mayor of GBS, Clare Bursary question topic: Health Care

Mayor of Trout River, Gloria Barnes question topic: Long Term Care

Floor will be turned over to the public to come to a microphone for one question with one follow up question. Fred McLean will MC the question and answer session.

Contacts:

Town Clerk: Jacqueline Blanchard: O 709-453-2237  C 458-7448
Deputy Mayor: Richard Roberts  C 458-8162
Mayor: Fred McLean: C 458-8628

There is an expectation of a group of people from Deer Lake being led by Damien Keating attending the meeting to protest the budget.
Hi Rodney,

Please call [redacted] said you are playing phone tag – I believe she is returning your call. She asked that you try her today or tomorrow when you are free.

Thanks!

Thanks – I will respond today to advise that Premier is unable to attend due to another commitment (Public Service Award of Excellence is on around that time).

Hi Erin;

Here is the link to the podcast for the shows and it will posted there when show is over........

Thanks
Paula
Hey Rodney,

Sorry I didn’t realize he needed it for this weekend – of course you can bug away! It looks like this was not documented in TRIM so while there was a back and forth discussion about it back in May, it does not appear that a response was provided. I have copies of emails from late May but I was hoping to find the response to forward along to you. If you give me a call on my cell we can discuss… 725-3114

Thanks. Sorry for asking several times but the Premier will attending a Legion convention this weekend and I was looking for an update if in the event he was asked.

Hi Rodney - sorry - have had trouble trying to track this one down! Hoping to get somewhere with this soon...

Sent from my BlackBerry 10 smartphone on the Bell network.

Just wondering if there is any update on this file?
Good Afternoon;

Please find the calendar for the week of June 13 – July 3, 2016.

Thanks
Paula

To EA's & CA's,

Please see invitation below to the Multi-Faith Prayer Breakfast sponsored by the Religious Social Action Coalition (RSAC) and hosted by Premier Dwight Ball on Wednesday, June 8, 2016 from 9:00 a.m. to 10:00 a.m. in the West Block Cafeteria.

In the event of the filibuster continuing into tomorrow morning, we are requesting EAs and CAs, where available, attend the breakfast on behalf of your Minister / Member.

Please note that breakfast will include: Scrambled eggs, 2 pancakes, hashbrowns, toast, tea/coffee for a cost of $7.90 (HST included).

Kind regards,

Virginia Connors
Director of Information Management
Office of the Premier
Executive Council

Invitation to Multi-Faith Prayer Breakfast – Wednesday, June 8, 2016 at 9:00 am – Confederation Building – West Block Cafeteria

Good Day All:

We invite you to attend our third Multi-Faith Prayer Breakfast hosted by Premier Dwight Ball on Wednesday, June 8, 2016 from 9:00 a.m. to 10:00 a.m. in the West Block Cafeteria.

Sponsored by the Religious Social Action Coalition (RSAC) and the St. John’s and Area Council of Churches, the purpose of this breakfast is to receive prayers of the several religious communities of our Province: Jewish; Christian; Muslim; Hindu; Sikh. There will be a presentation by the RSAC (multi-faith group to address Poverty). Some of the leaders of the above religious communities also will be in attendance. Those attending will pay for their breakfast and we would ask you to move through the cafeteria and be seated by 9:00 a.m. so that we can begin and end on time. The Jewish, Christian, Muslim, Hindu and Sikh communities are looking forward to spending time with us in this way.

We strongly encourage all Members of the House of Assembly to attend this important event.

Breakfast will include: Scrambled eggs, 2 pancakes, hashbrowns, toast, tea/coffee for a cost of $7.90 HST included. For those who do not choose to have a full breakfast, there will be fresh fruit, yogurt, fruit juices, muffins, etc. available for purchase in the cafeteria.

You are asked to reply concerning your attendance at this significant event. Please RSVP to Edna Roberts at eroberts@gov.nl.ca by June 3, 2016 to confirm your attendance.

Thank you for your participation.

Good day Mr. Mercer

I hope you have been brought on to help smooth the transition of power from our current premier Dwight Ball to a more competent and trustworthy leader. His word means little if anything now and the only way to restore confidence in a Liberal government now is find a replacement.

Dwight Ball will not serve a four year term. His party will turn of him if he doesn't resign before then. Be honest with him about this.

Sincerely,
Good evening,

Please be advised that the Briefing Notes distributed today by Cabinet Secretariat are available for pickup.

Thank you,

FYI- invitation for Premier to attend Motorcycle Ride for Dad June 16th and present a cheque.

Hi,

Please see the attached invite to the Ride for Dad. In the past the Premier and Minister of Health would attend and bring greetings to the group. They would also present a cheque to the group. We have between $10,000-15,000 available to present to this group. Would the Premier be interested in attending, or will Minister Haggie go ahead on behalf of government?

Let me know if you have any questions.

Thanks,

Alicia

FYI. Invitation and request below (June).

Dear Minister Haggle,

I'm writing today as the Communications Executive Member with the Motorcycle Ride For Dad, the largest motorcycle ride in this province, which raises funds to support prostate cancer research and awareness right here in Newfoundland and Labrador. We have been fortunate to have the support of our provincial government for many years and we are very hopeful this will continue. Please find attached a request for support and invitation to attend our Ride Day ceremony. We would be honoured to have you in attendance.

I would be happy to answer any questions you may have regarding this very worthy cause.

Kristine Hamlyn

Honourable Dr. John Haggie  
Minister, Health and Community Services  
Government of Newfoundland and Labrador  
PO Box 8700  
St. John's, NL A1B 4J6

Dear Minister Haggie:

You are cordially invited to attend the 2016 Motorcycle Ride For Dad (MRFD), beginning at the Newfoundland Power parking lot, 55 Kenmount Road, St. John’s, at 8:30 a.m. on Ride Day, June 16th, 2016.

Ride For Dad is an annual fundraiser that raises money through rider pledges and corporate sponsorships for prostate cancer research and education. Since the Ride began in this province in 2007, it has grown into the largest motorcycle ride in Newfoundland and Labrador, and last year we surpassed the $1 million mark in funds raised.

The contributions of our provincial government to date have gone a long way toward financing prostate cancer awareness right here at home. We know we're making a difference because the number of newly diagnosed prostate cancer cases in this province has continued to increase – which is a good thing – because it means we're making progress. More and more men are showing up to get their prostates checked and, as we already know, early detection saves lives!

The funds raised through MRFD in this province stay in this province to support prostate cancer research and awareness. The Avalon Chapter has been proud to support research initiatives at Memorial University of Newfoundland and Labrador in cooperation with the Dr. H. Bliss Murphy Cancer Care Foundation, led by Dr. Ken Kao.

At our Ride Day event you will have an opportunity to address approximately 1000 individuals, as well as publicly present your donation, should you choose to continue support of this worthy cause. We would also like to invite you to continue the tradition of contributing a Minister's Message to our Ride Guide, which is included in hundreds of rider backpacks.

With help from local media partners, our multi-media campaign is reaching almost every community in this province. Should you decide to continue your support, we would be proud to prominently display the government logo on our promotional materials, whenever and wherever appropriate. Please note, the majority of our media will begin in April and continue through Ride Day.

We have been fortunate to have past Premier’s join us on stage on Ride Day. In an effort to continue this tradition we have also invited Premier Ball to attend and speak at our event.

On behalf of the Executive Committee of the Avalon Chapter of Motorcycle Ride For Dad, thank you for your time and consideration. We look forward to your response.

Sincerely,

Caelie Conroy  
Co-Chair

Please see below.

Julia,
We have a briefing note from Hydro on the issue noted below: the HVdc wire has some strands rising up following stringing. First observed about two months ago. The issue is limited to the HVdc line. The supplier has been engaged to investigate. Stringing has been suspended. Crews will likely be redeployed elsewhere to minimize delays in the transmission line stringing.

Krista

Related to the same issue as the note. A press release is likely going out today so you should alert Julia.

Sent from my BlackBerry 10 smartphone on the Bell network.

Diana;
We should ensure PO is aware before a news release is issued. Tks.
Charles

Nalcor Energy is investigating a technical issue with the transmission line conductor (wire) installed to date on the Labrador-Island Link between Muskrat Falls and southern Labrador. Some of the metal strands that make up the cylindrical conductor are raised in an inconsistent pattern along the 170 km of conductor installed for the High Voltage direct current (HVdc) transmission line.

Nalcor plans to send out a media statement with regards to this today (around noon).

Attached you will find the draft media statement, key messages, and the briefing note they have prepared.
HVdc Transmission line conductor issue

Key Messages and Media Statement – June 8, 2017 (DRAFT)

Key Messages:

• Nalcor Energy is investigating a technical issue with the transmission line conductor (wire) installed to date on the Labrador-Island Link between Muskrat Falls and southern Labrador. Some of the metal strands that make up the cylindrical conductor are raised in an inconsistent pattern along the 170 km of conductor installed for the High Voltage direct current (HVdc) transmission line.

• We have assembled a team to lead a detailed investigation to understand the extent of the issue, the root cause and implications to the conductor supplied for the approximately 1,100 km transmission line.

• We are working with the cable supplier-General Cable Canada to analyze the data and identify the root cause. The investigation includes conducting independent tests on the conductor.

• A decision has been made to temporarily suspend further installation of the conductor on the HVdc line until the root cause is fully understood and it is verified that the conductor meets the project's stringent quality requirements.

• The transmission line contractor, Valard Construction, continues to look for opportunities to redeploy its crews and equipment elsewhere on the transmission line to carry out other construction activities.

• At this time, the root cause of the issue and any impacts on the HVdc cable and project schedule, are not known. More details on the investigation will be released once available.

• Our efforts at this time are focused on minimizing the impact the Project. Of principal concern to LCMC is the possible implication that this un-smooth surface could create, thus leading to unacceptable electrical conditions. Our concern is that the integrity of the wire could be compromised.
Media Statement:

Nalcor Energy is investigating a technical issue with the transmission line conductor (wire) installed to date on the Labrador-Island Link between Muskrat Falls and southern Labrador. Some of the metal strands that make up the cylindrical conductor are raised in an inconsistent pattern along the 170 km of conductor installed for the High Voltage direct current (HVdc) transmission line.

A Lower Churchill Project team is working with the cable supplier, General Cable Canada, to lead a detailed investigation into the extent of the issue, the root cause, and implications for the Labrador-Island Link. The investigation includes conducting independent tests on the conductor.

A decision has been made to temporarily suspend further installation of the conductor on the HVdc line until the root cause is fully understood and it is verified that the conductor meets the project’s stringent quality requirements. The transmission line contractor, Valard Construction, continues to look for opportunities to redeploy its crews and equipment elsewhere on the transmission line to carry out other construction activities.

At this time, the root cause of the issue and any impacts on the HVdc cable and project schedule, are not known. More details on the investigation will be released once available.

Quick Facts:

- The HVdc Labrador-Island Link spans almost 1,100 km from Muskrat Falls to Soldiers Pond, including approximately 400 km in Labrador and 700 km on the island.
- The contract for the design, manufacturing, and warranty of the conductor was awarded in January 2014 to General Cable Canada from Ontario, and manufactured in Quebec.

![Image showing metal strands risen from HVdc conductor](image-url)

Picture shows where some of the metal strands have risen from the HVdc conductor (wire).
Title: High Voltage direct current (HVdc) transmission line conductor (wire)

Issue: This information note provides an overview on the technical issue observed on the HVdc conductor and the actions taken. Some of the strands that make up the cylindrical conductor are raised in an inconsistent pattern along the conductor that has been installed to date (strung) in Labrador.

Background and Current Status:

The Labrador-Island Link (LIL) transmission line consists of the following:

- ±350 kilovolt (kV) HVdc transmission line spanning almost 1,100 km from Muskrat Falls to Soldiers Pond (400 km in Labrador and 700 km on the island);
- two pole conductors; overall diameter of the conductor is 57mm, each aluminum strand is 4.6mm, and each steel strand is 3.6mm. There are two layers of steel and five layers of aluminum. Steel core has one stand in the inner layer and six strands in the next layer. Aluminum inner layer has 10 strands, next 16, next 22, next 28, and the outer layer 34 strands; and
- there is an electrode line (Labrador portion) and Optical Ground wire also strung between the poles.

- The contract for the design, manufacturing, and warranty of the conductor was awarded in January 2014 to General Cable Canada from Ontario, and manufactured in Quebec.

- Testing on the conductor was completed in Kinetics, Ontario. The conductor was exposed to a variety of testing regimes to confirm it met the requirements specified by SNC-Lavalin in the technical specification.

- Stringing on LIL started in Labrador in October 2015. As of early June there was approximately 170 km of route line strung.

Analysis

- The installed pole conductor of the HVdc line is observed to have some strands rising up or popping-up from the cylindrical conductor (also called prouding) after stricking. The technical issue appears to be inconsistent with no pattern to the strands that are raised along the conductor.

- This issue was first visually observed during stringing about two months ago. One of the actions taken at that time was to re-inspect the installed conductor and to continue to observe the conductor and issue.
• This technical issue is specific to the HVdc conductor and there are no issues on any other transmission lines for the project.

Actions Being Taken:
• LCMC has assembled a team to lead the investigation to understand the extent of the issue, the root cause and implications to the conductor wire supplied for the transmission line (Root Cause Analysis).

• LCMC has engaged the supplier, General Cable Canada, in full support of this investigation.

• LCMC, working with General Cable Canada and Valard Construction, have completed various tests during installation to observe anomalies and identify any potential contributing factors.

• Working with General Cable Canada, we are arranging independent testing facilities to complete additional testing to verify the properties and behaviours of the conductor.

• Having thoroughly tested installation methods, LCMC has determined that it is prudent to temporarily suspend stringing of the HVdc line until we fully understand the root cause, potential implications to the project, and plan is developed to move forward.

• We've asked Valard to look for opportunities to redeploy its crews and equipment elsewhere to facilitate the overall completion of the transmission line work and minimize potential delay to the TL construction schedule.

• LCMC is implementing a detailed approach with General Cable to verify the suitability of the conductor for further installation, and evaluate options should replacement of the conductor be required.

Hello Julia,

I hope you are doing well. I’m sending this message along to you with a high level of urgency. As you know we met with Mr. Stan Marshall yesterday on June 8, 2016.

In recognition of the Premier’s public commitments of a final report to be issued by EY and Section 3.6 of EY’s Interim Report dated 8 April 2016 stated that “EY will assess the reasonableness of Nalcor’s reforecast cost & schedule once it is completed and will update this report accordingly, ...”, we are proposing a course of action in this document to meet those commitments.

Mr. Marshall advised us yesterday that EY will be given full access to whatever information or personnel that we require to do the work that will underpin our report on the reasonableness of the Updated Forecast. If we authorized to start our work early next week, we can issue the report by the end of June, simultaneous with Nalcor’s public release of the Updated Forecast. A timeline and fee estimate for this scope of work is provided on the attached page.

We would appreciate an indication from you tomorrow if possible (or asap), as we would have to mobilize our team and issue a document request list early next week. Thank you.

Regards,

David

Statoil completes efficient exploration drilling campaign offshore Newfoundland

Statoil, along with its partners, has finalized a 19-month exploration drilling program offshore Newfoundland. The purpose of the drilling program was to increase the robustness of the Bay du Nord project and to test new areas of the Flemish Pass Basin.

Nine wells were drilled safely and efficiently by the Seadrill West Hercules in the Flemish Pass Basin, located approximately 500 kilometres east of St. John’s, Newfoundland and Labrador. The results have improved Statoil’s understanding of the frontier Flemish Pass Basin.

The drilling program included four exploration wells in close vicinity of the 2013 Bay du Nord discovery, as well as three appraisal wells on the discovery. In addition, two exploration wells were drilled in areas outside the Bay du Nord discovery. The program was conducted in a harsh offshore environment; however, with strong operational and HSE performance, setting several records on drilling speed during the campaign.

The drilling program has resulted in two discoveries of oil at the Bay de Verde and Baccalieu prospects in the Bay du Nord area, both of which add to the resource base for a potential development at the Bay du Nord discovery. The appraisal and near-field exploration of the Bay du Nord discovery has reduced key reservoir uncertainties and confirmed that the volumes are within the original volume range of the 300 to 600 million barrels of recoverable oil initially estimated by Statoil in 2013, but potentially towards the lower end of the range.

“We are encouraged by the discoveries in the Bay de Verde and Baccalieu wells and the results of the appraisal wells,” said Erling Vågnes, senior vice president, Statoil Exploration, Northern Hemisphere. “Based on the improved understanding of the Flemish Pass Basin petroleum system, we are maturing further prospects that may add volumes to Bay du Nord.”

“The Flemish Pass Basin offshore Newfoundland is a frontier area, where only 17 wells have been drilled in the entire basin—in an area that is 30,000 km²,” said Vågnes. “This drilling campaign has been critical both to maturing the Bay du Nord discovery as well as evolving our knowledge of the greater basin and Newfoundland offshore—which remains a core exploration area for Statoil.”

The drilling program began in November 2014 and was extended by one month to incorporate the drilling of Baccalieu, a well on a licence awarded by the C-NLOPB in the 2015 land sale, which Statoil was able to progress from access to well-completion in four months.

Statoil’s assessment of the commercial potential of the Bay du Nord discovery is ongoing.

“The recent drilling program has been critical to Statoil’s continued assessment of Bay du Nord, and work is underway to evaluate the results related to proceeding with a potential Statoil-operated development in the Flemish Pass Basin,” said Paul Fulton, president, Statoil Canada.

About Statoil:

Statoil is an international energy company with operations in 37 countries. Building on more than 40 years of experience from oil and gas production on the Norwegian continental shelf, we are committed to accommodating the world’s energy needs in a responsible manner, applying technology and creating innovative business
solutions. We are headquartered in Stavanger, Norway with approximately 22,000 employees worldwide, and are listed on the New York and Oslo stock exchanges.

Subject: License Plate #

Hi Greg – did you manage to take a photo of your license plate number – need for parking permit? Thanks.
Virginia
No problem Kel. Thanks for linking Greg in.

Hi Greg, if you would like to discuss this matter, I would be happy to take your call or meet with you at your convenience. My telephone #’s are below. I am around all weekend if that would be convenient.

Best regards,

Paul

Hi Paul,

I will be away from the office for a while so thought best to cc your message to Greg Mercer who is filling in for me.

Kelvin

Sent from my BlackBerry 10 smartphone on the Bell network.

---

Hi Kel,

I hope you are doing well.

As you know, David Leather and a couple of our key team members met with Stan Marshall on Wednesday 8 June 2016 for a second briefing. Stan indicated he would be publicly releasing a revised forecast of cost and schedule on 30 June 2016. As you also know, the Premier’s publicly committed to a final report being issued by EY and this is also reflected in Section 3.6 of EY’s Interim Report dated 8 April 2016, i.e., “EY will assess the reasonableness of Naicor’s reforecast cost &
schedule once it is completed and will update this report accordingly," Stan said he would ensure that EY will be given full access to whatever information or personnel that we require to do the work on that report.

Yesterday we proposed a course of action/workplan to the Clerk that would enable EY to report on 30 June 2016 simultaneous with Nalcor releasing its updated cost and schedule forecast to the public. Our ability to meet the tight 30 June timeline is contingent on EY being in a position to start work early to mid-next week. I thought you should be made aware the foregoing due to the necessity for this to move ahead without delay if a 30 June EY report is of interest.

I am available for a call or a meeting if that would be helpful.

Have a good weekend.

Paul

Hi Greg,

In the event you never received my previous email on June 6, 2016, I'm resenting to your government email account. Please send required documents and completed forms to me for processing. If you wish to meet early next week to answer any human resource/payroll/benefits questions you may have, please let me know and I'll we can meet at your convenience.

Subject: Political Contract/hiring documents

Hi Gregory,

Congratulations on your new role as Senior Strategist with the Office of the Premier! Your employment contract is currently with the Chief of Staff for approval/signature.

Attached are the required payroll, insurance and pension forms along with a checklist of documents required to have you set up on payroll.

The following link will provide information regarding Government’s insurance program.

http://www.exec.gov.nl.ca/exec/hrs/working_with_us/employee_benefits.html

The following link will provide additional information on the Government Money Purchase Pension Plan. There is also a GMPP information package attached along with an enrolment form.

http://www.exec.gov.nl.ca/exec/hrs/pensions/plans_GMPP.html
The following link will provide additional information regarding your paid leave benefits (Paid Leave Policy)

http://www.exec.gov.nl.ca/exec/hr/working_with_us/paid_leave.html

Your political contract requires that you provide a satisfactory RNC certificate of conduct within 60 days of employment. The application form is also attached for your reference. Process as follows:

To obtain a Certificate of Conduct, the applicant must appear in person to the Royal Newfoundland Constabulary cashiers office locations below:

- 1 Fort Townshend, St. John’s
- 9 University Drive, Corner Brook
- 417 Booth Avenue, Labrador City

An applicant must provide: two (2) valid pieces of identification, one of which must be government-issued and include the applicant’s name, date of birth, signature and photo. The application process generally takes 7-10 business days. Upon the completion of the application, the Criminal Record Screening Certificate issued will normally be forwarded to the applicant via Canada Post mail service.

Applicants must ensure the information displayed on the applicant’s invoice is correct. Any discrepancies may result in the application not being processed or may create a delay. If a discrepancy is identified, please contact the RNC Cashier’s Office.

Don’t hesitate to contact me with respect to any human resource or payroll/benefits related questions you may have. Please complete the payroll forms and provide required documents along with your signed contract and return to me as soon as possible.

Perhaps we can meet in the next couple of days for 15-20 minutes for answer any questions you may have as well as to complete the oath of confidentiality.

Look forward to meeting you!

Read the back before filling out this form. Your employer or payer will use this form to determine the amount of your tax deductions.

Fill out this form based on the best estimate of your circumstances.

<table>
<thead>
<tr>
<th>Last name</th>
<th>First name and initial(s)</th>
<th>Date of birth (YYYY/MM/DD)</th>
<th>Employee number</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

1. Basic personal amount — Every person employed in Newfoundland and Labrador and every pensioner residing in Newfoundland and Labrador can claim this amount. If you will have more than one employer or payer at the same time in 2016, see “Will you have more than one employer or payer at the same time?” on the next page.

2. Age amount — If you will be 65 or older on December 31, 2016, and your net income from all sources will be $30,780 or less, enter $5,619. If you net income for the year will be between $30,780 and $68,250 and you want to calculate a partial claim, get Form TD1NL-WS, Worksheet for the 2016 Newfoundland and Labrador Personal Tax Credits Return, and fill in the appropriate section.

3. Pension Income amount — If you will receive regular pension payments from a pension plan or fund (excluding Canada Pension Plan, Quebec Pension Plan, Old Age Security, or Guaranteed Income Supplement payments), enter $1,000, or your estimated annual pension income, whichever is less.

4. Tuition and education amounts (full time and part time) — If you are a student enrolled at a university, college, or educational institution certified by Employment and Social Development Canada, and you pay more than $100 per institution in tuition fees, fill in this section. If you are enrolled full time, or if you have a mental or physical disability and are enrolled part time, enter the total of the tuition fees you will pay, plus $200 for each month that you will be enrolled. If you are enrolled part time and do not have a mental or physical disability, enter the total of the tuition fees you will pay, plus $50 for each month that you will be enrolled.

5. Disability amount — If you will claim the disability amount on your income tax return by using Form T2201, Disability Tax Credit Certificate, enter $5,939.

6. Spouse or common-law partner amount — If you are supporting your spouse or common-law partner who lives with you and whose net income for the year will be $720 or less, enter $7,192. If his or her net income for the year will be between $720 and $7,912 and you want to calculate a partial claim, get Form TD1NL-WS and fill in the appropriate section.

7. Amount for an eligible dependant — If you do not have a spouse or common-law partner and you support a dependent relative who lives with you and whose net income for the year will be $720 or less, enter $7,192. If his or her net income for the year will be between $720 and $7,912 and you want to calculate a partial claim, get Form TD1NL-WS and fill in the appropriate section.

8. Caregiver amount — If you are taking care of a dependant who lives with you, whose net income for the year will be $13,660 or less, and who is either your or your spouse's or common-law partner's:
   - parent or grandparent (aged 65 or older), or
   - relative (aged 18 or older) who is dependent on you because of an infirmity, enter $2,795.
   If the dependant's net income for the year will be between $13,660 and $16,455 and you want to calculate a partial claim, get Form TD1NL-WS and fill in the appropriate section.

9. Amount for infirm dependants age 18 or older — If you are supporting an infirm dependant aged 18 or older who is your or your spouse's or common-law partner's relative, who lives in Canada, and whose net income for the year will be $6,607 or less, enter $2,795. You cannot claim an amount for a dependent you claimed on line 8. If the dependant's net income for the year will be between $6,607 and $8,802 and you want to calculate a partial claim, get Form TD1NL-WS and fill in the appropriate section.

10. Amounts transferred from your spouse or common-law partner — If your spouse or common-law partner will not use all of his or her age amount, pension income amount, tuition and education amounts, or disability amount on his or her income tax return, enter the unused amount.

11. Amounts transferred from a dependant — If your dependant will not use all of his or her disability amount on his or her income tax return, enter the unused amount. If your or your spouse's or common-law partner's dependent child or grandchild will not use all of his or her tuition and education amounts on his or her income tax return, enter the unused amount.

12. TOTAL CLAIM AMOUNT — Add lines 1 to 11.

Your employer or payer will use this amount to determine the amount of your provincial tax deductions.

Continue on the next page ➤
Filling out Form TD1NL

Fill out this form only if you are an employee working in Newfoundland and Labrador or a pensioner residing in Newfoundland and Labrador and any of the following apply:

- you have a new employer or payer and you will receive salary, wages, commissions, pensions, employment insurance benefits, or any other remuneration,
- you want to change amounts you previously claimed (for example, the number of your eligible dependants has changed), or
- you want to increase the amount of tax deducted at source.

Sign and date it, and give it to your employer or payer.

If you do not fill out Form TD1NL, your employer or payer will deduct taxes after allowing the basic personal amount only.

Will you have more than one employer or payer at the same time?

If you have more than one employer or payer at the same time and you have already claimed personal tax credit amounts on another Form TD1NL for 2016, you cannot claim them again. If your total income from all sources will be more than the personal tax credits you claimed on another Form TD1NL, enter "0" on line 12 on the front page and do not fill in lines 2 to 11.

Total income less than total claim amount

☐ Check this box if your total income for the year from all employers and payers will be less than your total claim amount on line 12.

Your employer or payer will not deduct tax from your earnings.

Additional tax to be deducted

If you wish to have more tax deducted, fill in "Additional tax to be deducted" on the federal Form TD1.

Reduction in tax deductions

You can ask to have less tax deducted on your income tax return if you are eligible for deductions or non-refundable tax credits that are not listed on this form (for example, periodic contributions to a registered retirement savings plan (RRSP), child care or employment expenses, charitable donations, and tuition and education amounts carried forward from the previous year). To make this request, fill out Form T1213, Request to Reduce Tax Deductions at Source, to get a letter of authority from your tax services office. Give the letter of authority to your employer or payer. You do not need a letter of authority if your employer deducts RRSP contributions from your salary.

Forms and publications

To get our forms and publications, go to www.cra.gc.ca/forms or call 1-800-959-5515.

Personal information is collected under the Income Tax Act to administer tax, benefits, and related programs. It may also be used for any purpose related to the administration or enforcement of the Act such as audit, compliance and the payment of debts owed to the Crown. It may be shared or verified with other federal, provincial/territorial government institutions to the extent authorized by law. 4. Optional Benefits

This section to be completed by the Plan Member.

If you wish to apply for Optional Benefits coverage offered under the Government of Newfoundland & Labrador benefits plan please indicate your choices below. If you do not wish to apply for Optional Benefits coverage please indicate in the space provided. If no selection is made it is understood you have declined all Optional Benefits listed below.

If evidence of insurability is required please complete the Evidence of Insurability Coverage Detail and Medical & Lifestyle Questionnaire, form M5995(GNLHO).

Optional Employee Life (Policy No. 168002)
☐ I elect Optional Employee Life coverage up to $100,000 offered to new employees within the first 31 days (no medical evidence required).
  Amount: ________________________

☐ I elect Optional Employee Life coverage over $100,000 and have completed the M5995(GNLHO).
  Existing amount: ________________________
  New amount: ________________________ (can be purchased in units of $10,000 to a maximum of $300,000)
  Total Amount: ________________________

☐ I decline coverage.

Optional Spousal Life (Policy No. 168076)
☐ I elect Optional Spousal Life coverage up to $100,000 offered to spouses of new employees within the first 31 days with the completion of the Declaration of Good Health or the M5995(GNLHO).
  Amount: ________________________

☐ I elect Optional Spousal Life coverage over $100,000 and have completed the M5995(GNLHO).
  Existing amount: ________________________
  New amount: ________________________ (can be purchased in units of $10,000 to a maximum of $300,000)
  Total Amount: ________________________

☐ I decline coverage.

Optional AD&D (Policy No. 168076)
☐ I elect coverage (no medical evidence required).
  ☐ Employee  Total Amount: ________________________ (can be purchased in units of $10,000 to a maximum of $300,000)
  ☐ Family

☐ I decline coverage.

Optional Critical Illness (Policy No. 168076)
☐ I elect coverage and have completed the M5995(GNLHO):
  ☐ Employee $25,000  ☐ Spouse $10,000  ☐ Child $5,000 (no medical evidence required for children under the age of 16)

☐ I decline coverage.

Optional LTD (Policy No. 168075)
☐ I elect coverage. Please notify your Plan Administrator of any buyback of pensionable service as this may impact your premiums. Please complete M5995(GNLHO) if applying for Optional LTD after 31 days from eligible date of employment.

☐ I decline coverage.

Optional Dental (Policy No. 168074)
☐ I elect coverage.  ☐ Single  ☐ Family  If applying for Dental benefits after 31 days from eligible date of employment coverage will be limited to $100 in the first 12 months.

☐ I decline coverage.
5. Beneficiary Designation for Basic Life (168074) Optional Life (168076)

This section is to be completed by the plan member. This section must be completed to designate a beneficiary for your life benefits, if applicable. If you wish to designate a separate beneficiary for your Optional Life benefit, please complete Great-West Life beneficiary form MB345 and attach to this Application for Enrollment. The original of this form will be required for a life claim. CROSSED Out beneficiary designations must be Initialed. Please print clearly, In Ink.

I hereby revoke all previous beneficiary designations and designate the following as beneficiary(ies):

<table>
<thead>
<tr>
<th>Beneficiary:</th>
<th>% allocated</th>
<th>Relationship to plan member:</th>
</tr>
</thead>
<tbody>
<tr>
<td>last name</td>
<td>first name</td>
<td>middle initial</td>
</tr>
<tr>
<td>last name</td>
<td>first name</td>
<td>middle initial</td>
</tr>
<tr>
<td>last name</td>
<td>first name</td>
<td>middle initial</td>
</tr>
</tbody>
</table>

To be divided as follows: [ ] As per the percentage indicated above, or
[ ] In equal shares to the survivor(s).

You may change this beneficiary designation at any time upon notice to your Plan Administrator. If you wish to make the beneficiary designation irrevocable (meaning you may not change the designation or make certain changes to your coverage under the plan without the written consent of the beneficiary), please complete form MB348 BL.

Note: Where Quebec law applies and you have designated your married spouse or common-law spouse as beneficiary, the designation will be irrevocable unless you check the box marked “Revocable”, below.

I hereby make the above beneficiary designation:
[ ] Revocable: I may change this beneficiary designation at any time.

For Quebec Applicants Only - Benefits payable under this plan to a beneficiary who, at the time payment is to be made, is a minor or lacks legal capacity, will be paid to his/her tutor(s) or curator(s), unless a valid trust has been established for the benefit of the beneficiary, by Will or by separate contract, to receive any such payment and Great-West Life has been provided notice of the trust. If a valid trust has already been established, designate the trust as the beneficiary in this section. Before designating a trust, you should seek legal advice.

For All Other Applicants - If designating a beneficiary who is a minor or who lacks legal capacity you may wish to appoint a trustee/administrator by completing form MB348 BL. This appointment may not be suitable for all purposes. Before designating a trustee, you should seek legal advice.

Trustee Appointment

DO NOT COMPLETE THIS SECTION IF YOU ARE A QUEBEC RESIDENT

If designating a beneficiary who is a minor or who lacks legal capacity you may wish to appoint a trustee/administrator by completing this form. This appointment may not be suitable for all purposes.

If you are designating a trustee/administrator, we recommend you consult with a legal advisor, and with any proposed trustee/administrator.

Do not complete this section If you have made another trustee/administrator appointment.

I hereby appoint the following trustee to receive and to hold in trust, on behalf of any beneficiary, money payable to the beneficiary under this group benefits plan where, at the time payment is to be made, the beneficiary is a minor or otherwise lacks legal capacity. Any such payment, to its extent, will release The Great-West Life Assurance Company from further liability. The trustee shall act prudently and may use the money, including any returns on it or investments made, for the education and/or maintenance of the beneficiary. The trust will terminate once the beneficiary is of the age of majority and has legal capacity.

At that time, the trustee shall deliver to the beneficiary all assets held in trust.

6. Privacy

This section explains Great-West Life's commitment to privacy.

Protecting Your Personal Information

At The Great-West Life Assurance Company, we recognize and respect the importance of privacy. When you apply for coverage, we establish a confidential file that contains your personal information. This file is kept in the offices of Great-West Life or the offices of an organization authorized by Great-West Life. You may exercise certain rights of access and rectification with respect to the personal information in your file by sending a request in writing to Great-West Life. Great-West Life may use service providers located within or outside Canada. We limit access to personal information in your file to Great-West Life staff or persons authorized by Great-West Life who require it to perform their duties, to persons to whom you have granted access, and to persons authorized by law. Your personal information may be subject to disclosure to authorized persons under applicable law within or outside Canada. Personal information that we collect will be used for the purposes of determining your eligibility for coverage and administering the group benefits plan. This includes investigating and assessing claims, and creating and maintaining records concerning our relationship. For a copy of our Privacy Guidelines, or if you have questions about our personal information policies and practices (including with respect to service providers), write to Great-West Life's Chief Compliance Officer or refer to www.greatwestlife.com.

7. Authorization and Declaration

This section must be signed and dated In Ink by the plan member.

I hereby apply for the changes in coverage under the group benefits plan issued by Great-West Life.

I have read and understand and agree with the contents of the section on this form entitled "Protecting Your Personal Information".

I authorize:

- my plan sponsor to deduct from my pay and remit to Great-West Life the plan member contributions required under the plan, if applicable;
- Great-West Life, any healthcare provider, my plan administrator, other insurance or reinsurance companies, administrators of government benefits or other benefits programs, other organizations or service providers working with Great-West Life or the above to exchange personal information, when relevant and necessary to determine my eligibility for coverage and to administer the plan.

If applying for coverage for my spouse and/or dependants, I confirm that I am authorized to act on their behalf.

I agree that a photocopy or electronic copy of the Authorization and Declarations section is as valid as the original.

I certify that the information given is true, correct and complete to the best of my knowledge.

For Quebec applicants: I request that this form be in English.

Je demande que ce formulaire soit remis en anglais.

APPLICATION FOR

CRIMINAL RECORDS SCREENING CERTIFICATE

Please complete this form and submit with a $20.00 fee (non-refundable) to the RNC Cash Office, at 1 Fort Townsend off Parade Street. Interest is available for your convenience.

Cash Office is open from 9:00 - 4:30 weekdays. Summer hours are 9:00 - 4:00 weekdays.

Processing will take a minimum of ONE WEEK, excluding weekends and holidays.

An Applicant must provide two (2) valid pieces of identification, one of which must be government-issued and include the Applicant's name, date of birth, signature and photo.

SECTION 1

(a) I hereby request that a search of your records be conducted to determine if there are any criminal convictions or criminal findings of guilt related to me in your records.

(b) I hereby agree that the Royal Newfoundland Constabulary is not responsible for any inaccuracies resulting from the search.

(c) With the exception of SECTION 2 of this application, I understand that any certificate that may be issued in relation to the search is issued to me only for my own use. If I reveal the search certificate to any person or body, I do so at my own risk. If I reveal the search certificate to any person or body, I agree to hold the Royal Newfoundland Constabulary harmless for any use that person or body makes of the information.

(d) The disclosure of any information resulting from this search is my responsibility.

Page 55
Hire Form (NC-G-201) Instructions:

For employee's initial meeting with the Compensation and Benefit Service Center, the Service Center Specialist will aid with completing the form. For employee's not meeting with the Compensation and Benefit Service Center, the employee's manager is responsible for ensuring the hire date, biographic details and contact information sections of the Hiring Form (NC-G-201) is completed upon the employee's start, signing and forwarding to the Compensation and Benefits Service Center or their payroll office with other required information (i.e. copy of SSN, birth certificate) as it is important that the information be forwarded in a timely manner so as to ensure the employee is paid.

Employer:
- Must fill in their hire date (usual start date), employer ID if known, biographic details including their full name, social insurance number, gender, date of birth and contact information including full home mailing address, home telephone, cell phone number and home e-mail address.
- Seasonal or temporary employees must indicate if they would like their vacation paid bi-weekly or not.
- Employees must indicate if their spouse is in receipt of a Lumpsum Allowance or not.
- Employees must indicate if they are in receipt of a pension from the Public Service Pension Plan (PSP), Uniform Service Pension Plan (USPP), Teachers Pension Plan (TPP), Members of the House of Assembly Pension Plan (MHAAP), Prohibition Court Judge a Pension Plan (PJC). Please note that if you are in receipt of a pension from one of these plans the Contact Information listed on this form will be updated with pensions as well.
- Employees must sign the form and forward it to their manager for approval (for those forms not being completed by the Compensation and Benefits Service Center). In the absence of their manager the form should be forwarded to their Director or Supervisor for verification and approval.

Manager:
- Must verify the hire date to ensure it corresponds with the employee's usual start day.
- Sign the "hiring date approved by" space provided and forward Compensation and Benefits Service Center or their payroll office with all other required information.

A copy of this form can be found on the Public Service Network site (https://www.mpr.gov.pe.ca/psn_pdb.asp) or by contacting the Compensation and Benefits Service Center. If you have any questions about the completion of this form, please contact the Compensation and Benefits Service Center.

Read the back before filling out this form. Your employer or payer will use this form to determine the amount of your tax deductions.

Fill out this form based on the best estimate of your circumstances.

<table>
<thead>
<tr>
<th>Last name</th>
<th>First name and initial(s)</th>
<th>Date of birth (YYYY/MM/DD)</th>
<th>Employee number</th>
</tr>
</thead>
</table>

1. Basic personal amount — Every resident of Canada can claim this amount. If you will have more than one employer or payer at the same time in 2016, see *More than one employer or payer at the same time* on the next page. If you are a non-resident, see *Non-residents* on the next page.

| 11,474 |

2. Family caregiver amount for infirm children under age 18 — Either parent (but not both), may claim $2,121 for each infirm child born in 1999 or later, that resides with both parents throughout the year. If the child does not reside with both parents throughout the year, the parent who is entitled to claim the "Amount for an eligible dependent" on line 8 may also claim the family caregiver amount for that same child who is under age 18.

| 11,474 |

3. Age amount — If you will be 65 or older on December 31, 2016, and your net income for the year from all sources will be $35,927 or less, enter $7,125. If your net income for the year will be between $35,927 and $83,427 and you want to calculate a partial claim, get Form TDI-WS, Worksheet for the 2016 Personal Tax Credits Return, and fill in the appropriate section.

| 11,474 |

4. Pension income amount — If you will receive regular pension payments from a pension plan or fund (excluding Canada Pension Plan, Quebec Pension Plan, Old Age Security, or Guaranteed Income Supplement payments), enter $2,000 or your estimated annual pension income, whichever is less.

| 11,474 |

5. Tuition, education, and textbook amounts (full time and part time) — If you are a student enrolled at a university or college, or an educational institution certified by Employment and Social Development Canada, and you will pay more than $100 per institution in tuition fees, fill in this section. If you are enrolled full time, or if you have a mental or physical disability and are enrolled part time, enter the total of the tuition fees you will pay, plus $400 for each month that you will be enrolled, plus $5 per month for textbooks. If you are enrolled part time and do not have a mental or physical disability, enter the total of the tuition fees you will pay, plus $120 for each month that you will be enrolled part time, plus $20 per month for textbooks.

| 11,474 |

6. Disability amount — If you will claim the disability amount on your income tax return by using Form T2201, Disability Tax Credit Certificate, enter $8,001.

| 11,474 |

7. Spouse or common-law partner amount — If you are supporting your spouse or common-law partner who lives with you and whose net income for the year will be less than $11,474 ($13,595 if he or she is infirm) enter the difference between this amount and his or her estimated net income for the year. If his or her net income for the year will be $11,474 or more ($13,595 or more if he or she is infirm), you cannot claim this amount.

| 11,474 |

8. Amount for an eligible dependant — If you do not have a spouse or common-law partner and you support a dependent relative who lives with you, and whose net income for the year will be less than $11,474 ($13,595 if he or she is infirm and you cannot claim the family caregiver amount for children under age 18 for this dependant), enter the difference between this amount and his or her estimated net income. If his or her net income for the year will be $11,474 or more ($13,595 or more if he or she is infirm), you cannot claim this amount.

| 11,474 |

9. Caregiver amount — If you are taking care of a dependant who lives with you, whose net income for the year will be $15,940 or less, and who is either you or your spouse’s or common-law partner’s:
   - parent or grandparent (aged 65 or older), enter $4,667 ($5,788 if he or she is infirm); or
   - relative (aged 18 or older) who is dependent on you because of an infirmity, enter $6,788.
   If the dependant’s net income for the year will be between $15,940 and $20,607 ($15,940 and $22,274 if he or she is infirm) and you want to calculate a partial claim, get Form TDI-WS and fill in the appropriate section.

| 11,474 |

10. Amount for infirm dependants age 18 or older — If you support an infirm dependant age 18 or older who is your or your spouse’s or common-law partner’s relative, who lives in Canada, and whose net income for the year will be $6,807 or less, enter $6,807. You cannot claim an amount for a dependant if you or anyone else has already claimed it on line 8 or 9. If the dependant’s net income for the year will be between $6,807 and $13,595 and you want to calculate a partial claim, get Form TDI-WS and fill in the appropriate section.

| 11,474 |

11. Amounts transferred from your spouse or common-law partner — If your spouse or common-law partner will not use all of his or her age amount, pension income amount, tuition, education and textbook amounts, or disability amount on his or her income tax return, enter the unused amount.

| 11,474 |

12. Amounts transferred from a dependant — If your dependant will not use all of his or her disability amount on his or her income tax return, enter the unused amount. If your or your spouse’s or common-law partner’s dependent child or grandchild will not use all of his or her tuition, education, and textbook amounts on his or her income tax return, enter the unused amount.

| 11,474 |

13. TOTAL CLAIM AMOUNT — Add lines 1 to 12.

Your employer or payer will use this amount to determine the amount of your tax deductions.

| 11,474 |
Filling out Form TD1

Fill out this form only if:
• you have a new employer or payer and you will receive salary, wages, commissions, pensions, employment insurance benefits, or any other remuneration;
• you want to change amounts previously claimed (for example, the number of your eligible dependants has changed);
• you want to claim the deduction for living in a prescribed zone; or
• you want to increase the amount of tax deducted at source.

Sign and date it, and give it to your employer or payer. If you do not fill out Form TD1, your employer or payer will deduct taxes after allowing the basic personal amount only.

More than one employer or payer at the same time

☐ If you have more than one employer or payer at the same time and you have already claimed personal tax credits amounts on another Form TD1 for 2016, you cannot claim them again. If your total income from all sources will be more than the personal tax credits you claimed on another Form TD1, check this box, enter "0" on line 13 on the front page, and do not fill in lines 2 to 12.

Total income less than total claim amount

☐ Check this box if your total income for the year from all employers and payers will be less than your total claim amount on line 13. Your employer or payer will not deduct tax from your earnings.

Non-residents (Only fill in if you are a non-resident of Canada.)

As a non-resident of Canada, will 90% or more of your world income be included in determining your taxable income earned in Canada in 2016?

☐ Yes (Fill out the previous page.)

☐ No (Enter "0" on line 13, and do not fill in lines 2 to 12 as you are not entitled to the personal tax credits.)

If you are unsure of your residency status, call the international tax and non-resident enquiries line at 1-800-959-8281.

Provincial or territorial personal tax credits return

If your claim amount on line 13 is more than $11,474, you also have to fill out a provincial or territorial TD1 form. If you are an employee, use the Form TD1 for your province or territory of employment. If you are a pensioner, use the Form TD1 for your province or territory of residence. Your employer or payer will use both this federal form and your most recent provincial or territorial Form TD1 to determine the amount of your tax deductions.

If you are claiming the basic personal amount only (your claim amount on line 13 is $11,474), your employer or payer will deduct provincial or territorial taxes after allowing the provincial or territorial basic personal amount.

Note: If you are a Saskatchewan resident supporting children under 18 at any time during 2016, you may be able to claim the child amount on Form TD1SK, 2016 Saskatchewan Personal Tax Credits Return. Therefore, you may want to fill out Form TD1SK even if you are only claiming the basic personal amount on this form.

Deduction for living in a prescribed zone

If you live in the Northwest Territories, Nunavut, Yukon, or another prescribed northern zone for more than six months in a row beginning or ending in 2016, you can claim:

• $8.25 for each day that you live in the prescribed northern zone.

• $18.50 for each day that you live in the prescribed northern zone if, during that time, you live in a dwelling that you maintain, and you are the only person living in that dwelling who is claiming this deduction.

Employees living in a prescribed intermediate zone can claim 50% of the total of the above amounts.

For more information, go to www.cra.gc.ca/northernresidents.

Additional tax to be deducted

You may want to have more tax deducted from each payment, especially if you receive other income, including non-employment income such as CPP or QPP benefits, or old age security pension. By doing this, you may not have to pay as much tax when you file your income tax return. To choose this option, state the amount of additional tax you want to have deducted from each payment. To change this deduction later, fill out a new Form TD1.

Reduction in tax deductions

You can ask to have less tax deducted on your income tax return if you are eligible for deductions or non-refundable tax credits that are not listed on this form (for example, periodic contributions to a registered retirement savings plan (RRSP), child care or employment expenses, charitable donations, and tuition and education amounts carried forward from the previous year). To make this request, fill out Form T1213, Request to Reduce Tax Deductions at Source, to get a letter of authority from your tax services office. Give the letter of authority to your employer or payer. You do not need a letter of authority if your employer deducts RRSP contributions from your salary.

Personal information is collected under the Income Tax Act to administer tax, benefits, and related programs. It may also be used for any purpose related to the administration or enforcement of the Act such as audit, compliance and the payment of debts owed to the Crown. It may be shared or verified with other federal, provincial/territorial government institutions as the extent authorized by law. Failure to provide this information may result in interest payable, penalties or other actions. Under the Privacy Act, individuals have the right to access their personal information and request correction if there are errors or omissions. Refer to Info Source at www.cra.gc.ca/privacytools/infosrc-eng.html. Personal Information Bank CRA PPU 047.

Certification

I certify that the information given on this form is correct and complete.

Signature __________________________ Date __________

It is a serious offence to make a false return.
Important information enclosed regarding your Government Money Purchase Pension (GMPP) Plan.

Included in this package is:

- Your Welcome letter, detailing the steps to follow to enrol in the GMPP plan.
- Member Application to join the plan. This must be completed and returned to your employer.
- Plan Overview of the GMPP which contains all of the information and detail about the plan.
- Investment Personality Questionnaire, along with the Fund Review and Investment Management Fees and Expense document will provide some support in making the investment selection that is appropriate for you.

WATCH THE VIDEO!

With the use of your computer and an internet connection, go to: www.brainshark.com/grs/GMPP_Enrolment to watch a video that will walk you through the enrolment process.
GMPP Plan Member:

To assist you in saving for a secure retirement, your employer has provided you the opportunity to participate in the Government Money Purchase Pension Plan (GMPP). Membership is mandatory for eligible employees. Plan members are required to contribute 5% of their regular earnings to the plan which is matched by the employer.

Please note: If you become a member of any of the other public sector pension plans (PSPP, TPP, USPP, MHAPP), you may apply to transfer your GMPP funds to that plan at that time.

Upon enrolment, a plan member should:
- View the Enrolment Video at www.brainshark.com/grs/GMPP_Enrolment
- Review the Plan Overview included in this envelope
- Complete the Investment Personality Questionnaire to assist in selecting investments appropriate to your investment personality
- Complete the Application for Membership and return it to your Human Resources Division for review and subsequent submission to Great West Life
- Use the Guest Access ID & Password (please see reverse) to visit www.grsaccess.com to obtain detailed investment information on rates of return, fund reports, frequently asked questions, how to choose investments, and to find additional information related to the plan

Members can also contact Great West Life at 1-800-724-3402 to ask questions on the plan, seek assistance in completing the application for membership and/or learn more about their investment options.

As a member of the GMPP plan, your responsibilities include:
- Understanding the plan details and investment options available to you
- Choosing the right Investments to match your Investment Personality
- Updating any changes to your personal information
- Monitoring your savings and investments
- Taking advantage of information and tools made available to you
- Checking to see how your investments are performing
- Revisiting your investment selection annually

In addition to using information and/or tools provided by the Government of Newfoundland and Labrador and Great West Life, it is recommended that you obtain investment advice from an appropriately qualified individual.
Be our guest...
visit www.grsaccess.com today

Please use the following to access this website:
- Guest Access ID: 4259748
- Guest Password: 4635716

This website enables you to:
- Walk-through the entire retirement process
- Discover your investment personality
- Review detailed information on the funds in your plan

Once you become a member of this plan:

A confidential Access ID and password will be sent to your home mailing address. This will enable you to access many other features on our transactional website such as:

- Viewing your personal account
- Printing your own plan statement
- Viewing and changing the investment direction of your future deposit and maturing investments
- Transferring assets between funds
- Updating your address, phone and fax numbers and email address

SECTION 3 - ISSUER INFORMATION

The group retirement, savings and annuity products offered as investments under the pension trust fund are issued by The Great-West Life Assurance Company, The Canada Life Assurance Company and London Life Insurance Company. The Trustees of the trust fund and plan are Investors Group Trust Co. Ltd. London Life Insurance Company is the Agent of the Trustee. The Great-West Life Assurance Company & key design is a trade-mark of The Great-West Life Assurance Company (Great-West), used under licence by London Life for the promotion and marketing of insurance products. London Life and The Canada Life Assurance Company are subsidiaries of Great-West.

SECTION 4 - BENEFICIARY INFORMATION

These designations are for all benefits payable under the plan. If the applicant has a spouse or cohabiting partner, any benefits payable under the plan will be payable to the spouse or cohabiting partner regardless of the designations made below.

All beneficiary designations are revocable except where a Designation of irrevocable beneficiary form is completed.

I hereby appoint the following primary beneficiary(ies) to receive the proceeds in the event of my death. I reserve the right to revoke any and all revocable beneficiary designations. Unless the law requires otherwise, the entitlement of any beneficiary who predeceases me will revert to my surviving beneficiaries in equal shares, or if there is no surviving beneficiary, to my contingent beneficiary(ies). If there is no appointed or surviving contingent beneficiary(ies), the entitlement will revert to my estate/successors.

Stacked RPP (Pay) - 62494 - November 2011
Application for membership in a registered pension plan (continued)

SECTION 5 - TRUSTEE APPOINTMENT (to be completed if beneficiary is a minor or otherwise lacks legal capacity)
Please complete this trustee appointment section if any of the primary or contingent beneficiaries is under age 18 or otherwise lacks legal capacity to receive the proceeds (not required if the applicant has already completed a trust agreement). If the applicant wishes to name different trustees for different beneficiaries, please complete the Addendum to designation of revocable beneficiaries/trustee appointment form.

The applicant appoints the trustee to receive, in trust, all benefits made available to any beneficiary designated under this plan who, at the time benefits are paid, is under age 18 or lacks legal capacity to give a valid discharge according to the laws of the beneficiary’s domicile. Payment of benefits to the trustee discharges the issuer to the extent of the payment. The applicant authorizes the trustee in his or her sole discretion to use the benefits for the education or maintenance of the beneficiary and to exercise any right of the beneficiary under the plan. The trustee may, in addition to the investments authorized for trustees, invest in any product of, or offered by, the issuer or its affiliated financial institutions. The trust for any beneficiary will terminate once that beneficiary is both of age 18 and has legal capacity to give a valid discharge. The applicant directs the trustee to deliver at that time, to the beneficiary, the assets held in trust for that beneficiary. The applicant or the applicant’s personal representative may by writing appoint a new trustee to replace the former trustee.

<table>

</thead>
</table>

SECTION 6 - PAYROLL DEDUCTION AUTHORIZATION
The applicant authorizes his/her employer to deduct the following from each pay:

- required contributions under the provisions of the plan; and,
- the applicant authorizes the additional deduction of ____% OR ____% and reserves the right to alter or discontinue this option.

SECTION 7 - INVESTMENT ALLOCATION INSTRUCTIONS
The Issuer offers a selection of both guaranteed investments (Compound Interest Accounts) and variable investment funds (PH&N). Contributions directed to variable investment funds are not guaranteed and will increase or decrease in value according to fluctuations in the market value of the assets.

It is your responsibility to make an investment selection(s) and advise Great-West by indicating the percentage(s) below. The total allocation must equal 100%. If no election is made, contributions will be invested in the default investment options. The Government of Newfoundland & Labrador has selected the Balanced Pension Trust Fund (PH&N) for Employer contributions and the 1 Year Compound Interest Account (CH1) for Employee contributions.

OR

☐ By checking this box, the applicant agrees to have contributions invested in the default investment options as described above, and understands this direction can be changed at any time by contacting Great-West. It is very important to note that these default options may not be the most appropriate way to invest your contributions.

SECTION 8 - CONFIDENTIAL INFORMATION FILE
The Trustees will establish a confidential information file that contains personal information concerning the applicant. By submitting a written request to the Trustee, the applicant may exercise rights of access to, and rectification of, the file. The Trustee will collect, use and disclose the applicant’s personal information to: process this application and provide, administer and service the plan applied for (including service quality assessments by or on behalf of The Trustee); advise the applicant of products and services to help the applicant plan for financial security; investigate, if required, and pay benefits under the plan; create and maintain records concerning our relationship as appropriate; and, fulfill such other purposes as are directly related to the preceding. The Trustee may use service providers within or outside Canada. Personal information concerning the applicant will only be available to the applicant, plan sponsor, pension and related government authorities, the Trustee, their affiliates, and any duly authorized employees, agents and representatives of the Trustee or their affiliates, within or outside Canada, or to or for the purposes of the plan, except as otherwise may be required, authorized or allowed by law or legal process, or to the applicant, in all cases, availability is subject to lawful determination by the Trustee. Personal information is collected, used, disclosed, or otherwise processed or handled in accordance with governing law, including applicable privacy legislation, and the applicant’s personal information may be subject to disclosure to those authorized under applicable law within or outside Canada.

SECTION 9 - SIGNATURE
The applicant confirms the instructions, designations and appointments on this form. The applicant is aware of the reasons the information covered by the applicant’s authorizations and consents is needed, and the benefits of, and the risks of not, authorizing/consenting. The applicant authorizes and consents to London Life collecting, using, and disclosing personal information concerning the applicant for the purposes outlined in the Confidential Information File section. This authorization and consent is given in accordance with applicable law and without limiting the authorizations and consents given elsewhere in this application. The applicant’s authorizations and consents will begin the date this application is signed and end when no longer required. The applicant’s authorizations and consents may be revoked at any time by either written or electronic notification to London Life, subject to legal and contractual considerations. A reproduction of the applicant’s authorizations and consents will be as valid as the original.

PLAN OVERVIEW OF THE GOVERNMENT MONEY PURCHASE PENSION PLAN (GMPP)
YOUR GOVERNMENT OF NEWFOUNDLAND AND LABRADOR MONEY PURCHASE PENSION PLAN (GMPP)

General
- You will receive a number of different documents which will provide information to you about your plan. While every effort has been made to ensure the accuracy of this overview, your rights and benefits as a member of the above mentioned pension plan are governed by the terms of the plan documents and the Pension Benefits Act, 1997.

Type of Plan
- The Money Purchase Pension Plan (MPPP) is also known as a defined contribution pension plan. With this type of plan, contributions are made to the plan at least monthly. These contributions along with interest and/or investment gain/loss are used to purchase a pension at retirement. The exact amount of your pension can only be determined when you retire.

Eligibility
- If you do not qualify to participate in the following plans (for example, part-time employees or casual workers):
  - Public Service Pension Plan (PSPP)
  - Uniformed Services Pension Plan (USPP)
  - Teachers Pension Plan (TPP)
  - Members of the House of Assembly Pension Plan (MHAPP)
you are eligible to join this plan.
- If you were hired after April 1, 1989 or subsequent to the date your employer joined the plan, and do not qualify for participation in the above plans, membership is mandatory.
- Students and any other group specifically excluded by the Minister of Finance are ineligible for membership.
- If you transfer between employers participating in the Government Money Purchase Pension Plan (GMPP), your membership will continue and your records will simply be changed to reflect your new employer.
- Plan members who transfer into an employment class that would normally make them ineligible for membership in the GMPP may stay in the plan as inactive members but no further employee, employer or additional voluntary contributions will be permitted.

How to Enrol
- Complete the Application for membership in the Government Money Purchase Pension Plan form.
- If you require assistance completing the form, or if you need help to understand your investment options call GRS Access Line at 1-800-724-3402.
- Return your completed forms to your Human Resources or Payroll Department to begin payroll deductions.
1-800 Number for Service

Information and service on your GMPP is available:
- By calling 1-800-724-3402, you can obtain plan and account information, check your account balance, transfer assets between investments, change your investment directions for future contributions, view current interest rates and net unit values, update your address, or obtain a form to change your name and/or beneficiary designation.
- When you call you will be asked a few brief questions to verify your identity.
- Hours of service are: Monday to Friday, 8:00 am to 8:00 pm EST.
- Restrictions: changes to payroll deductions for voluntary contributions and requests for withdrawals on termination or retirement should be directed to your Payroll Department.

Internet Website
- The Website located at www.gmpaccess.com provides access to retirement and investment planning information.
- The site also gives you direct Internet access to your account 24 hours a day, seven days a week. It offers a secure and easy way to check your account balance and to process investment transactions.
- A logon ID and password will be issued to you separately by mail. These two items will allow you to access your account quickly and easily.

Contributions

Required Contributions
- You are required to contribute 5% of your regular earnings each year by payroll deduction.
- Your employer will match your required contributions, for a combined total contribution each year of 10% of your regular earnings.

Additional Voluntary Contributions
- You may make additional voluntary contributions through payroll deduction.

Additional information regarding Contributions
- The total of employee, employer and voluntary contributions may not exceed the lesser of 18% of your current year’s earnings and the maximum amount allowed each year as specified under the Income Tax Act (Canada).
- You are responsible for monitoring your contribution limit to ensure that your plan does not exceed the tax deductible limit.
- Contributions are reported as a Pension Adjustment (PA) on your T4 slip and are deducted in the calculation of your RRSP contribution limit.
- Contributions made by the employer and employee reduce the contribution room available in RRSPs.

Tax Implications of Contributions
- Employee contributions are deductible from your income and your tax benefit will be received immediately as payroll will lower your tax withholdings to reflect your pension contributions.
- Employer contributions are not tax deductible or added to your income.

Changing Your Contribution Amount
- You may change your voluntary contribution amount by contacting your Human Resources or Payroll Department.
### Vesting Period

- Once you are vested, you own all employer contributions and investment earnings on those contributions which have been made to your account.
- Contributions made prior to January 1, 1997 are fully vested and locked-in after the completion of 10 years of continuous service with the same employer, and has attained the age 45 or after the completion of 5 years of plan participation.
- Contributions made on or after January 1, 1997 are fully vested and locked-in after the completion of 2 years of plan participation.

### Termination of Employment

**Pre 1997**
- Completion of 10 years continuous service with the same employer and attained the age of 45 - 100% vested, locked-in
- 5 years plan participation or more - 100% vested, locked-in
- Less than 5 years plan participation - Not vested, not locked-in

**Post 1996**
- 2 years plan participation or more - 100% vested, locked-in
- Less than 2 years plan participation - Not vested, not locked-in

### Options on Termination and Retirement

If your funds are not vested or locked-in, your withdrawal and/or transfer options are:
- cash (tax withheld)
- transfer to a new employer's pension plan if that plan permits (no tax withheld)
- transfer to an RRSP/RRIF (no tax withheld)
- purchase an annuity (no tax withheld)

If your funds are vested and locked-in, your transfer options are:
- transfer to a new employer's pension plan if that plan permits (no tax withheld)
- transfer to a locked-in RRSP/LIRA to age 69 (no tax withheld)
- purchase a life annuity (no tax withheld)
- transfer to a LRIF (no tax withheld)

### Normal Form of Pension

- If you have a spouse or cohabiting partner when you retire, you will receive a monthly pension payable for your lifetime and upon your death, payments of 60% of the amount you received will continue to your spouse or cohabiting partner until his/her death.
- If you don't have a spouse or cohabiting partner when you retire, you will receive a monthly pension for your lifetime. In the event of your death, before 60 pension payments have been made, the balance of the 60 payments will be paid to your designated beneficiary.

### Pre-Retirement Death Benefit

If you die before you retire your designated beneficiary is entitled to receive a cash refund equal to the accumulated value of your contributions and the employer's contributions made on your behalf. If your designated beneficiary is your spouse or cohabiting partner the cash refund may be transferred to: a RRSP, a RRIF, purchase a life annuity or transfer to another registered plan, if that plan permits.

### Beneficiary Designation

- Newfoundland and Labrador legislation requires that your spouse or cohabiting partner be named principle beneficiary of your GMPP.
- You should consult an estate planner for advice on designating a beneficiary and update this designation, in writing, as your personal circumstances change.
**Investment Information**

- Investment options include guaranteed investment accounts (GIAs) and a selection of fund options from Phillips, Hager & North Investment Management Ltd. (please see the "Investment Menu" section for the funds that are available to you).
- There is no minimum purchase amount required.
- Further details on the funds available can be obtained in the Fund Report, which is included in the enrollment kit, and is also available on GRS Access.

**GIA details**

- You will receive an enhancement of ¼ percent on the posted rate of the term purchased.
- GIAs may be purchased for the term(s) selected (1, 2, 3, 4 and/or 5 years).
- GIAs will be purchased immediately for the term selected upon receipt of funds, providing the funds are received by daily cut off time (2:00 p.m. EST).
- On termination of employment, retirement, upon death, or at the end of the term selected, the guaranteed investment account value will be calculated at book value.
- For interfund transfers or withdrawal of contributions, the guaranteed investment account value will be calculated at market value.

**Investment Options**

<table>
<thead>
<tr>
<th>These are your investment options as determined by the Plan:</th>
</tr>
</thead>
<tbody>
<tr>
<td>- Guaranteed Investment Accounts (1-5 years)</td>
</tr>
<tr>
<td>- PH&amp;N Bond Fund</td>
</tr>
<tr>
<td>- PH&amp;N Balanced Fund</td>
</tr>
<tr>
<td>- PH&amp;N Canadian Equity Fund</td>
</tr>
<tr>
<td>- PH&amp;N Global Equity Fund</td>
</tr>
</tbody>
</table>

**Fund Management Fees**

- These fees are paid to the fund manager for day-to-day management of each fund.
- Please refer to your schedule of fees for details of the Investment Management Fee (IMF) or any other fees and expenses which you may pay indirectly through the fund(s).
- Please note that the IMFs may change from time to time as the size of assets under management change.

**Investment Personality Questionnaire**

- This helpful tool is included in your Retirement Guide and provides you with suggested investment mixes based on your investor profile.
- You begin by answering a series of questions that relate to your level of investment knowledge, comfort level with risk, years to retirement and personal information, and then total your score. Next, match your score to one of the recommended investment mixes provided.
- Please refer to the enclosed Fund Reviews and/or Fund Report to determine the investment category into which each investment falls.
- Should you require assistance, please call the toll-free number and speak to a Customer Service Representative.
## Investment Changes
- You may transfer between investments at any time by calling the toll-free number or by visiting the interactive website.
- You may change your investment direction for future contributions at any time by calling the toll-free number or by visiting the interactive website.
- For information about transaction deadlines please call the toll-free number and a Customer Service Representative will assist you.

## Envision Smart Tools
- This software, included in your Retirement Guide, will assist you with making decisions to meet your retirement goals and objectives.
- This software will help with decisions regarding contributions and accumulations at retirement.
- Copies of this software are available by calling the toll-free number and a Customer Service Representative will assist you.

## Statements
- Statements of participation show the value of your account and all the activity that has taken place.
- These statements are sent to your home address quarterly at the end of March, June, September and December.
- A confirmation statement will be sent confirming transfers between investments, and at the time of withdrawal. Also, confirmations are issued when a transaction takes place.

## Withdrawals During Active Employment
- You may make one free withdrawal from your voluntary contributions per calendar year. Each additional withdrawal is subject to a $50 fee which is deducted from the value of the funds withdrawn.
- Withdrawals from your required contributions are not permitted.

## Tax Reporting
- Total employee, employer, and any additional voluntary contributions are included in the Pension Adjustment (PA) reported on your T4, Issued by your employer by the end of February of the following tax year. The PA is used to calculate your RRSP contribution room for the next tax year.
- For cash withdrawals, a T4A will be issued by Group Retirement Services, by the end of February of the following tax year summarizing any withdrawals from your plan in the year and any tax withheld.
- Tax slips are not issued for amounts transferred with no tax withheld to another registered plan.

## Resources Available
- Your Retirement Guide
- Your Human Resources Department
- Your toll-free phone number 1-800-724-3402
- Internet: www.qhn-access.com
- For information on PH&N variable investment funds, visit website http://www.qhn.com
What You Should Do Now

- Read the enclosed material for an overview of retirement planning, investment strategies, and investment options.
- Complete the Investment Personality Questionnaire to determine your investor profile and the investment mix which is best suited to your profile, or call 1-800-724-3402 for assistance.
- Complete the Application for membership in the Government Money Purchase Pension Plan form.
- Return your completed forms to your Human Resources or Payroll Department to begin payroll deductions.

---

Please note:
The indicated growth reflects changes in unit value and reinvestment of all distributions and is net of the fund operating expense and applicable taxes. It does not take into account investment management fees and applicable taxes payable by the unitholder which would reduce returns. Performance data is provided for illustrative purposes only and represents past performance, which is not necessarily indicative of future performance.

1 The historical performance shown is that of the London Life segregated fund. For periods prior to the inception of the London Life segregated fund, the performance of the underlying third party fund was used.
INVESTMENT MANAGEMENT FEE AND EXPENSE

Investment management fee and expense represents the combination of the investment management fee (IMF) and fund operating expense (FOE), without GST.

IMFs represent fees paid to the investment manager for their professional services including the daily management of each fund. It may include a fee to us, if applicable, for the cost of administering and servicing your plan. IMFs are based on the asset value of each fund and are paid directly from the fund each day. The IMFs are unique to your plan and do not include GST, which is also charged. Your Member Booklet may include investment management fees.

FOEs are fees charged directly to the fund to cover costs including audit and custodial fees, fund transaction costs, taxes paid by the fund, bank fees, fund valuation and reporting. Fund operating expenses may be associated with third party investment manager underlying funds and/or our segregated funds. Charged as they occur, the total amount of fund operating expense is calculated at the end of each year. Therefore, the amount reported to you will usually be the previous year end charges calculated as a percentage of the fund. This does not include GST, which is also charged. Fund operating expenses can be found on Fund Reports.

Please provide any additional information that you feel is important:

AUTHORIZATION AND DECLARATIONS

I authorize:
- Great-West Life, any healthcare provider, my plan administrator, other insurance companies or reinsurers, its MIB Inc., administrators of government programs or benefit programs, other organizations, or service providers working with Great-West Life to exchange personal information, when necessary to determine my insurability and to administer the group benefits plan;
- Great-West Life to have performed tests, examinations, blood profiles and urinalysis tests as may be required to determine my insurability in connection with this application;
- Great-West Life to release my medical records to the regular healthcare provider or clinic named in this application including any test results that may be obtained during the application process;
- Great-West Life to communicate with me about this application using the email address I have provided;
- My plan sponsor to deduct from my pay and remit to Great-West Life the plan member contributions required under the plan, if applicable.

I certify or confirm that:
- I am actively at work on the date this application is signed;
- I have read and agree with the Important Notice describing the procedures of MIB Inc.;
- I have retained a copy of this application;
- If applying for coverage for dependents, I am authorized to act on their behalf;
- A photocopy or an electronic copy of this authorization is as valid as the original.

The statements and answers on this form will be used to determine your insurability and to provide benefits under the plan. Any changes in the accuracy of any of the statements and answers on the form between the date this form is signed and the effective date of any coverage approved by Great-West Life must be reported to Great-West Life. I understand that if I fail to do so, any coverage granted may be void.

I declare that the best of my knowledge, all of the above answers to the questions are complete and true. I understand that if any answer is incomplete or false, any coverage granted may be void. I understand that I may be refused coverage for all or part of any benefit. In the opinion of Great-West Life, I am not insurable for all or part of that benefit.

For Quebec Applicants: I request that all communication and documents be in English.

Je demande à ce que toutes les communications et tous les documents soient en anglais.

Hi Gail,

Great to be back and working with a great team especially yourself. Please keep me on circulation and have Diane add me to her email clippings as well.

Cheers,

Greg

Subject: FW: Open Line, MHA Gerry Rogers on the air

Mr. Mercer,

First things first, I am so excited to hear the news that you are joining our team! Welcome back my friend!

I monitor the Open Line and Back Talk programs. Basically only circulate if a politician or notable individual [such as a union leader] is speaking and attach a recording. [Unless making a short announcement re district.]

I have added you to the email listing this morning. However, if you prefer not to be receiving I will certainly make the adjustment.

Also, our staffer Dianne Randell circulates daily news clippings which include Telegram, Western Star, NL Herald, provincial Transcontinental papers [Transcontinental: Advertiser, Aurora, Compass, Gulf News, Labradorian, Northern Pen, Nor’wester, Packet, Pilot, and Southern Gazette]. As well as CBC / VOCM and Independent online news. Weekend news clippings are circulated on Monday [or Tuesday if a long weekend].

Would you like for me to have Dianne add you to her email listing for the daily clippings? I have forward today’s clippings to you in a separate email.

Looking forward to seeing you soon ;)

By copy of this email, I am requesting that Dianne Randell add you to her news clipping email list.

Again, welcome back dear!

Gail
Laura: Caller advising of protest on Friday re domestic violence
Caller advised that individuals can check Facebook group: Coordinated Approach for further details
CBC Cross Talk; former Premier Roger Grimes in studio to take calls

[I'll be recording and circulate audio]
Nathan,

RE project.

Don't have much to report really.

Paul Lane: Government keeps going back to *if we did nothing*; nobody on this side is saying to do nothing.

One clipping MHA Lane was reading emails another he was speaking on impact of increase on gas tax to taxi drivers and another clipping asking questions on behalf of constituents [see below].

5:04:53 MHA Paul Lane stated that Minister for Municipal Affairs not in chair; Government House Leader asked that comment be withdrawn as Unparliamentary to state someone not in HOA; MHA Lane stated no problem with withdrawing comment.

At 5:06: Someone from Coalition for People with Disabilities texted Mr. Lane stating that new libraries *won't be accessible* for people with disabilities

MHA Lane added that he has no idea where this information is coming from

Currently downloading the drive – will continue to listen as soon as Cross Talk is completed.

Kindest regards,

Gail Parsons

Ramona asked what Roger Grimes thought of today's CRA poll and asked:

‘Can Government Win Back public Support’?

Grimes: Referenced CRA polls
Messaging has been very mixed from this government: couple of examples
In budget – general message is tough budget yet:
Government has money to go ahead to introduce new program Full Day Kindergarten that government is not ready to implement
Also referenced Ed Martin severance issue

With right approach has no doubt Dwight Ball has lots of opportunity to turn things around
Have to fess up to why the mess ups in first six months; be honest with the people

No question that the severance issue could have been handled differently re disclosure
Believes if had time back Premier would have fired him (Ed Martin)

Dwight Ball is a nice guy; known him for quite some time.
Referenced the Independent Appointment Commission; Premier feels appointments should not be political
Grimes believes Ed Martin should have been fired same day sworn in as Premier
Adding that Ed Martin should have been fired back when Kathy Dunderdale was Premier
Being too nice by waiting for AG report an issue

Subject: CBC Cross Talk; former Premier Roger Grimes in studio to take calls
Ron: Not sure if Liberals will get back or not
Has to clean house in own department; needs someone to come in from Ottawa to explain

Grimes: Heard Greg Mercer has been given charge for what caller referenced.
Believes this is the first step
Won’t get through as a nice guy; politics is a blood sport

Ramona: Referenced position of Greg Mercer; Senior Strategist

Grimes: Would encourage Premier to rebuild and reestablish his own credibility

Richard Riche [Labrador]: Raised Muskrat Falls issue

Grimes: Believes Muskrat Falls one of biggest fiascos ever in the history of this province
Six months ago people of province couldn’t wait to get rid of Paul Davis

Jim: Believes Premier can win back public support
Needs to scrap study across the link; don’t need study
Danny Dumaresque knows how to do it.
Get rid of Full Day kindergarten

Ramona read text regarding public trust

Grimes: When you are there in the Legislature you tend to be in a bubble
Suggestion would be to drop the Levy
Politics is an art of what you can do; if everyone says do away with the Levy then you do away with the Levy

Florence: Hope that Roger Grimes is right; believes that Premier can win back public support
Too much at one time; slack back on some of the taxes.
Don’t believe Premier should resign.
Levy needs to cut back; libraries need to stay; education for our young people; tax on gas is hard
Black Tickle losing only nurse to community – government needs to reinstate nurse for Black Tickle
Don’t mind paying taxes as long as it doesn’t choke anyone
Premier will regain confidence from people if they slack back on taxes.

Judy: Premier Ball needs to forget about optics
Clear the decks and go forward
Referenced Ed Martin – where is his integrity? Who is Ed Martin to give Premier three options?
Where is integrity of former Nalcor board who resigned in support of Ed Martin?

Grimes: complimented caller for good points

Wilfred Bartlett: Knew Premier’s father; Premier comes from a good family
Really thinks that Premier can turn things around.
Frustrated because people of province are blaming the wrong people

Grimes: Encourages Premier as he has a job the people of province elected him to do.

Craig from Mud Lake: Only thing that can save them is shutting down Muskrat Falls and need to do review on Northern Spur
Never a complete study done on Northern Spur by someone independent to government and Nalcor
Grimes: Government needs to explain budget/issues so that everyone understands; people won't be so angry. Referencing a time when people would say; can you say that in plain English? Grade 6/7/8 level. Don't be using acronyms and phrases must people will not understand.

Ramona thanked Roger Grimes and advised that CBC will be downloading audio in couple of hours.

I have recorded and have attached audio for your easy listening.

No problem Gail

Greg,

After sending this request, I realized I jumped the gun and should have contacted you first to see if you want to be added to the NLIS email listing.
If Nancy and/or Erin has already done this for you; apologies for overstepping.
This is an exceptional week re filibuster and I wanted to ensure that you are looked after. ;)

On another note for your information, I understand that Virginia Connors ensured that you have card reader access re Executive Council: Elevator reader for 8th Floor, 8th Floor; 9th Floor; 10th Floor; 6th Floor and 7th Floor.

As you are a member of the Premier’s Office I have requested Renee Coates [ID Coordinator; 729-5037] ensure that you also have access to:
Government Caucus Room on Main Floor
HOA Chamber and scrum area [two doors; after security desk when first entering HOA area and across from Government Caucus Room]
Card Reader behind HOA Chamber [reader after Caucus Room and before entrance to Speaker’s office]
And of course both entrances to Government Members Office; 5th Floor
[entrance on elevator side and main entrance [formerly known as Official Opposition Leader’s suite].
Wanted you to be aware that you have card reader access in the event you were looking for MHA or staffer especially after hours.

Hope you are having a grand day as you certainly deserve it!

Kindest regards,

Gail Parsons

Ok. Thanks.
But for the next week or so, the centre is not open? Or not open on weekends?
Hi Peter,
We responded to a media inquiry from CBC below:

Hi Jeremy,
The information is not accurate. There is currently a staff vacancy at PAB due to retirement. The position will be filled as soon as possible. Summer students will be on staff June 15 and the centre will be open 7 days a week meeting both ferries each day.

Thanks,
Tansy

Environment and Conservation
Industrial Compost Facility
June 6, 2016

Summary:
Metro Environmental Services Inc. is proposing an industrial composting facility near Whitbourne. Organic waste to be composted will include mink farm offal, poultry and slaughterhouse offal and carcasses, and fish processing wastes. There is significant local opposition from the Town Council.

Key Messages:
• Public comments are currently being accepted on this project.
• Public comments and input from referring agencies are given full and fair consideration in the environmental assessment process.
• The deadline for public comments is June 15, with the Minister’s decision due June 25.

EA process:
• The purpose of environmental assessment is to protect the environment and quality of life of the people of the province, and to facilitate the wise management of our natural resources.
• It requires anyone who plans a project that could have a significant effect on the natural, social or economic environment, to present the project for examination.
The environmental assessment process ensures if projects proceed, they do so in an environmentally acceptable manner.

Motor gasoline and crude oil are two different markets.

Price of crude is only one input into the calculation of the pump price of gasoline. This week, on the Avalon Peninsula, the price of crude (in CDN $) contributed 30% of pump price.

Other inputs used in calculating the pump price of gasoline are:
- Exchange rates (for Canadian Market)
- Refinery profit margins
- Marketing and distribution costs
- PUB allowed NL markups (allowance for local transportation costs, profit)
- PUB NL pricing zone differential
- Federal Excise Tax
- Provincial Gasoline Tax
- HST

Statement by
Honourable John Haggie
Minister of Health and Community Services
June 6, 2016

Minister Recognizes National Cancer Survivors' Day in Newfoundland and Labrador

Mr. Speaker, I am pleased to rise in this Honourable House to recognize that yesterday was National Cancer Survivors Day. With advances in cancer prevention, early detection, and treatment more people are recovering and living longer following a cancer diagnosis.

Cancer survivors and their families joined representatives of Eastern Health, the Dr. H. Bliss Murphy Cancer Care Foundation, the Canadian Cancer Society, Young Adult Cancer Canada and others at a community walk to celebrate the day.

Our government continues its work in close collaboration with the regional health authorities, school districts and community partners to support programs and policies aimed at prevention. This includes smoking cessation programs, sun safety campaigns and other healthy living initiatives under the Cancer Control Policy Framework. Eastern Health's Cancer Transitions: Moving Beyond Treatment Program and
the Canadian Cancer Society’s *Defy Cancer Program* are two more examples of meaningful efforts to support survivors.

National Cancer Survivors Day is a celebration of life. It is an opportunity for survivors to celebrate and acknowledge those who have supported them along the way.

Thank you, Mr. Speaker.

rogerscaplen@gov.nl.ca

Statement by  
Honourable Sherry Gambin-Walsh  
Minister of Seniors, Wellness and Social Development  
June 6, 2016

Minister Recognizes June as Seniors Month in Newfoundland and Labrador

Mr. Speaker, I rise today to recognize June as Seniors Month in Newfoundland and Labrador. It is a time to show our appreciation for the many contributions older adults have made, and continue to make, in our province.

My mandate from the Premier includes the development of legislation to create a Seniors’ Advocate Office. I am pleased to say that Budget 2016 provides funding to establish this office. It will be
independent of government, report to the House of Assembly and be a strong voice for seniors and their families as we look to address system-wide issues which impact older adults.

Budget 2016 provides $63.7 million for the Newfoundland and Labrador Income Supplement to help eligible low income seniors, individuals, families, and persons with disabilities. We have also increased the Low Income Seniors’ Benefit by $12.7 million in Budget 2016 bringing the total annualized investment in the seniors’ benefit to $57.9 million. Many seniors in our province will benefit from these two programs.

We continue to support seniors to live healthy, independent lives while participating fully in their communities.

I ask all members to join me in celebrating June as Seniors Month and recognizing the many contributions of seniors throughout our province.
Today's additions.

Hugh
Summary: Peter Fenwick issued a news release over the weekend stating that the Port aux Basques Visitor Information Centre would be closed on weekends throughout the summer.

Key messages:
• Government remains committed to the Visitor Information Centre in Port aux Basques.

• The centre currently has a staff vacancy due to retirement. The position will be filled as soon as possible. Summer students will be on staff as of June 15 and the centre will be open 7 days a week meeting both ferries each day.

• For the next week or so, the Port aux Basques centre will remain open from Monday to Friday, from 7am-8pm (closed Saturday and Sunday).

• The Department of BTCRD operates eight provincial visitor information centres across the province.

• A total of 11 students will be hired and working at the province’s visitor information centres this summer. They will begin employment next week.
Office of Public Engagement  
Compensation Disclosure Legislation  
June 6, 2016

Summary: Provincial Government will be making an announcement of intentions to introduce legislation requiring proactive disclosure of compensation information for public sector employees.

Key messages:
- Government will draft legislation requiring the annual publication of a public sector compensation disclosure list. The legislation will be introduced in the fall session of the House of Assembly.
- The public's right of access to information on how public funds are used is a critical aspect of openness, transparency and accountability.
- Introducing compensation legislation will ensure the consistent release of compensation information and specify what information is to be published, how it is to be published and who has to publish it.
- By taking this step, government joins five other provincial governments that release compensation disclosure lists through legislation - British Columbia, Alberta, Manitoba, Ontario and Nova Scotia.
- The compensation disclosure list will include employees of departments, agencies, boards, commissions, and crown corporations whose salaries are $100,000 a year or more.
- The list will include employee name, position, base salary, overtime pay, severance and a combined listing of other types of compensation.
- The compensation disclosure list will report on calendar-year earnings and will be published annually on the Open Data website at www.open.gov.nl.ca.
- Government will consult the Information and Privacy Commissioner on the proposed legislation before introducing a bill in the House of Assembly.
Health and Community Services  
Eastern Health - Agnes Cowan Hostel  
June 6, 2016

Summary: The Agnes Cowan Hostel provides accommodations for out-of-town patients and families who are receiving care in St. John’s. Over the weekend of May 27, a client staying at the hostel posted several pictures on Facebook. The post was critical of the conditions at the hostel and has been widely shared. The original post can be found here: https://www.facebook.com/wanda.but/posts/10154083071400937.

What is being done to address the conditions at the hostel?

Key messages:
• Infrastructure staff with Eastern Health completed a room condition assessment last week.

• There were several rooms identified as needing refurbishment during the assessment.

• These rooms have been temporarily taken out of service while work is being completed.
Climate Change and Energy Efficiency
Greenhouse Gas Strategy
June 6, 2016

Summary: The Provincial Government committed to the development a greenhouse gas (GHG) reduction strategy, including GHG targets, for large industry, and will announce an approach tomorrow, Tuesday, June 7.

Key messages:
• I am very pleased that the new Management of Greenhouse Gas Act has gone through first reading in the House of Assembly and I look forward to announcing specifics of the legislation tomorrow morning.

• Our government committed to an approach tailored to the needs of Newfoundland and Labrador so that it accommodates our unique circumstances.

• It is important to move forward in a manner that is both environmentally sustainable and economically prudent.

• I believe we have achieved this and I look forward to sharing more details tomorrow.
Sorry Peter can you clarify your request.
Attached is the KM that Jenn had for the gasoline tax increase.
Are you asking that these be updated for the Zone 14 direction once we see the OC?

Donna

Are these ok?

Peter, we (in Finance) have a system in place for monitoring - we can provide you the info I had last week for the Thursday increase which I presented in debate Tuesday evening and was updated and given to me on Thursday am based on the changes Thursday.

We will provide that to you..

Subject: Weekly Gas prices

Craig,
Is there a way we could get a weekly update on gas prices and where they were last year, and the year before? Thanks,
Peter

Tax on Gasoline
June 3, 2016

Key messages:
• We made it clear as part of Budget 2016 that the increase on gasoline tax was temporary.

• We have also indicated that we expect to make a further announcement around that by this coming fall in our supplemental budget.

• The increase in gas tax is clearly outlined in the budget. We've been very transparent about what that increase is – the tax is 33 cents a litre.

• There are mechanisms available to the minister of Finance that would allow her, if necessary, to remit or rebate a portion of the additional 16.5 cents per litre gas tax.

• We will continue to monitor monthly the price of gasoline. As noted, we intend to review this tax in the Fall.

• The Gas Tax is designed to replace revenue lost by the lower price of oil. As prices improve we will adjust the tax downward and I'm pleased with the overall direction of oil prices. And hopefully we can reduce the tax sooner than later. That was always our plan.

• The Gas tax will bring in $142.8 million in revenue and that is 73% of the cost to build and maintain our roads.

• This is a measure that was identified during the public Government Renewal Initiative consultations as a method to address the dire fiscal situation of the province.

• The increase in the gasoline tax is estimated to provide $142.8 million annually. But it is important to keep in mind that this tax increase will be reviewed every six months in the event the price of oil increases and leads to a substantial increase in the price of gas.
Fyi as not sure this got added to revision to issues sent out by 10th. Thanks.

Julia

Environment and Conservation
Industrial Compost Facility
June 6, 2016

Summary:
Metro Environmental Services Inc. is proposing an industrial composting facility near Whitbourne. Organic waste to be composted will include mink farm offal, poultry and slaughterhouse offal and carcasses, and fish processing wastes. There is significant local opposition from the Town Council.
Key Messages:

- Public comments are currently being accepted on this project.
- Public comments and input from referring agencies are given full and fair consideration in the environmental assessment process.
- The deadline for public comments is June 15, with the Minister's decision due June 25.

EA process:

- The purpose of environmental assessment is to protect the environment and quality of life of the people of the province, and to facilitate the wise management of our natural resources.
- It requires anyone who plans a project that could have a significant effect on the natural, social or economic environment, to present the project for examination.
- The environmental assessment process ensures if projects proceed, they do so in an environmentally acceptable manner.

On Friday afternoon (June 3), an incident occurred at Churchill Falls in which a Nalcor employee working in the switchyard sustained injuries caused by the release of pressurized air. The employee was treated on the scene by our Emergency First Responders. He is safe and with family and was transported for follow-up medical treatment in St. John's. As an investigation of the incident is conducted, and in the interest of maintaining privacy for the individual and his family, we are unable to provide further detail at this time. However, we understand that he is in stable condition as he receives ongoing treatment and examination.

The incident is being investigated and has the full attention of Nalcor and the Churchill Falls management team. Occupational Health & Safety was notified and is on site, and we are fully supporting their investigation.

PARTIALLY EDITED QUESTION PERIOD

Monday, June 6, 2016

Oral Questions

MR. SPEAKER: The hon. the Leader of the Opposition.

SOME HON. MEMBERS: Hear, hear!

MR. P. DAVIS: Thank you, Mr. Speaker.

Mr. Speaker, the Premier stated last week that he would release the Justice report on Nalcor’s severance issue.

I ask the Premier: Will you now release all of the documentation related to this matter here in the House of Assembly?

MR. SPEAKER: The hon. the Government House Leader.

MR. A. PARSONS: Thank you, Mr. Speaker.

Certainly, there was an opinion put together by the Department of Justice and Public Safety, which was provided to the Premier’s office. That, in turn, led to the involvement of the Auditor General. At this time, the decision will be not to release that opinion due to the implications it may have on solicitor-client privilege.

That information has been provided, along with everything else, to the Auditor General for that review, which we’re looking forward to the conclusion of.

Thank you, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Leader of the Opposition.

MR. P. DAVIS: Thank you, Mr. Speaker.

Another day in the House and another day we get a little bit more information.

I’ll ask the Premier this: All of the documents you provided to Justice, which led to the opinion, will you now table that in the House as you committed to do?

MR. SPEAKER: The hon. the Government House Leader.

MR. A. PARSONS: Thank you, Mr. Speaker.

Certainly, I think that a number of documents have been released to the public now. I’m unsure as to what remains, but the important thing to remember here is as we go through this matter where we’re investigating the payment of severance to Mr. Martin, all information has been provided to the Auditor General so that we can have that report done, and that we look forward to the release of to see what happened there. We look forward to that report. Any information that the AG requires will be provided as soon as the request comes in.

Thank you, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Leader of the Opposition.
MR. P. DAVIS: Thank you, Mr. Speaker.

The Premier has said he’d release the documents here in the House as soon as he could. The Auditor General is on the record as saying that it doesn’t interfere with his work that he is doing.

I’ll ask the Premier this: You said earlier all of the documents have been provided, then you said they hadn’t, and now we’re hearing today from your minister they have. Premier, can you confirm that all of the information has now been provided to the Auditor General?

MR. SPEAKER: The hon. the Government House Leader.

MR. A. PARSONS: Thank you, Mr. Speaker.

All information has been provided to the Auditor General, but again, the important thing to remember is if there is other information that the Auditor General requires, he’ll certainly make a request for that. Again, this is a process that will take some time.

One of the things that the Auditor General also has the power to do is to question individuals through subpoenas. There are a number of things that will happen throughout this process and if any information is required – I do want to reiterate to the Member opposite that it was certainly never a case of the Auditor General being influenced, but it is certainly a matter of the process being prejudice by the release, especially of the opinion. That’s certainly I don’t think something that anybody wants including the Auditor General.

Thank you, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Leader of the Opposition.

MR. P. DAVIS: Thank you, Mr. Speaker.

We know the government has chosen to release certain pieces of information in certain parts of the documentation but they certainly won’t release it all so the people of the province can have a clear understanding about exactly what had taken place here, and now they are saying they’re not going to release the information.

Mr. Speaker, I’m going to ask the Premier this: We’re told that just days before Mr. John Green was appointed by you as Interim Chair of the Board he created an agreement on Mr. Martin’s severance for the Nalcor board. So, I ask the Premier: When did you find out that Mr. Green was actually involved in the severance? When did you find it out, Premier?

MR. SPEAKER: The hon. the Minister of Natural Resources.

MS. COADY: Thank you very much for the question, Mr. Speaker.

Mr. Green is a knowledgeable, dedicated, experienced board of director. We asked him, he was on a subsidiary board, the Nalcor Energy Marketing Board. We asked him if he would come from that board to rise to the Nalcor Energy Board in an interim basis of course, we want to go through the Independent Appointments Commission which we are in the process of doing to ensure we have a very full board of directors for Nalcor. He is very experienced. He was working with McInnis Cooper, however, Mr. Speaker, he stepped down from his role with McInnis Cooper to take on this responsibility. As an experienced board member he would know all about the conflict of interest rules.

Thank you, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Leader of the Opposition.

MR. P. DAVIS: Thank you, Mr. Speaker.
We know the minister now is going to answer for the Premier but I asked the Premier and we still know the answer so maybe the minister, if the Premier won’t answer, maybe the minister will tell us the answer to the question. When did the Premier find out that Mr. Green was involved with the severance agreement?

MR. SPEAKER: The hon. the Minister of Natural Resources.

MS. COADY: Thank you, Mr. Speaker.

Mr. Green’s involvement in any of his work with McInnis Cooper is – with McInnis Cooper and with the board of Nalcor. It wouldn’t be with this organization. It wouldn’t be with the government. As I’ve said Mr. Green is an experienced, knowledgeable Member of the board of directors. He knows what his role is. He took on this responsibility on an interim basis as chair of the board of Nalcor Energy. We’re very thankful that he has done that. We look forward to having a new board in place once the Independent Appointments Commission has the opportunity to do its work.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Leader of the Opposition.

MR. P. DAVIS: Thank you, Mr. Speaker.

Again the minister whose very quickly gaining the reputation on answering questions again has not answered the questions. I’m certainly not questioning Mr. Green’s qualifications or abilities, Mr. Speaker, to be on the record. I’m certainly not questioning that.

Maybe the Premier can tell us or confirm for us that the interim chair of the board of directors was the individual who provided the legal opinion and wrote the settlement agreement regarding the former CEO of Nalcor. Maybe the Premier can confirm that for us.

MR. SPEAKER: The hon. the Premier.

PREMIER BALL: Thank you, Mr. Speaker.

Well it was subsequent to the appointment of Mr. Green that there was information provided. Mr. Green as the interim chair of the board of Nalcor right now, certainly he was working with the law firm that was providing advice to the former board of Nalcor at the time. That information was part of the process that he was involved in as the minister said, he was working with the firm that had been providing advice. He is now, we are very pleased that he was able to step up and become in the interim board of Nalcor. It is a role that he’s played with some of the affiliates and subsidiaries, boards of Nalcor. He’s now involved there and is doing his job as interim chair of that board.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Leader of the Opposition.

MR. P. DAVIS: Thank you, Mr. Speaker.

The Premier’s question and answers is not completely clear to myself so I’m going to ask him again.

Are you saying that you didn’t find out or you did know that he provided the advice at the time that you appointed him as chair?

MR. SPEAKER: The hon. the Premier.

PREMIER BALL: Thank you, Mr. Speaker.
The appointment of Mr. Green has not been something that I have spoken to or been involved with. It is an appointment that occurs naturally and we allow it to happen. We expect our ministers to be involved in these matters. This is what happened here.

I was not directly involved with Mr. Green before or after his appointment and have no intention to be. He now sits as the interim chair. We look forward to the Independent Appointments Commission to get the new board in place as quickly as possible. This will be on a permanent basis.

That’s the process that’s been outlined there in his former capacity as a lawyer that was providing advice to the former board of Nalcor. That is what he did. We have reached out to government to ask and invite Mr. Green to come in an interim role. That is exactly what he’s done.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Leader of the Opposition.

MR. P. DAVIS: Thank you, Mr. Speaker.

The Premier says he leaves it with his minister so I’ll ask the minister if she knew that Mr. Green had created the agreement and provided the legal opinion before he was appointed as interim chair of the board.

MR. SPEAKER: The hon. the Minister of Natural Resources.

MS. COADY: Thank you, Mr. Speaker.

On April 21 we were pleased to be able to put in place an interim board of directors with Mr. Green as chair. We’ve all recognized, including the Leader of the Opposition, that he’s an experienced, dedicated board Member.

His role with McInnes group or what he had done previously to that, we did not discuss it. Obviously, we discussed the fact around the conflict of interest. He stepped down from his role at McInnes Cooper and we are very pleased to have him as the interim chair of the board of Nalcor Energy.

Thank you, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Leader of the Opposition.

MR. P. DAVIS: Thank you, Mr. Speaker.

I’m sure the Auditor General will look deeper into that matter. Mr. Speaker, at 3 this morning posters asking for the resignation of the Premier were removed from the Parkway.

I ask the Premier: Were employees of the provincial government instructed to remove these posters calling for your resignation?

MR. SPEAKER: The hon. the Minister of Transportation and Works.

MR. HAWKINS: Thank you, Mr. Speaker.

I thank the Member for the question. Obviously, this morning it was an operational decision to remove those signs. It’s certainly not something that we – as a minister I had discussion with. There are hundreds of operational decisions made on a daily basis throughout the Transportation and Works Department.

Obviously, Mr. Speaker, as well the first that I noticed that it had happened was through a media inquiry this morning. Immediately we checked into that situation. Obviously, the direction did not come from me as minister. Had it come to my level, the decision might have been different than what it was.
SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Leader of the Opposition.

MR. P. DAVIS: Thank you, Mr. Speaker. I thank the minister for his answer.

So, Minister, are you confirming that taxpayers’ dollars were used to remove these political posters in the middle of the night?

MR. SPEAKER: The hon. the Minister of Transportation and Works.

MR. HAWKINS: Mr. Speaker, as I said, it’s an operational decision. We make hundreds of operational decisions on a daily basis. There is money expended on operations.

In this particular case, there have been signs that had previously been put around the park area in the past that has been removed. So this is not different. As a matter of fact, it was contracted out with a different contractor to remove them.

Again, as I said, it was not a decision that came from me as minister. Had it gotten to my level, the decision might have been different, but it was removed. It’s a practice that has happened in the past so that is no different today than what happened in the past.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Leader of the Opposition.

MR. HUTCHINGS: Thank you, Mr. Speaker.

I’ll ask the minister: Who made the decision and who gave the direction?

MR. SPEAKER: The hon. the Minister of Transportation and Works.

MR. HAWKINS: Mr. Speaker, I think it was pretty clear where it came from. It was an operational decision. We made hundreds of operational decisions in Transportation and Works on a daily basis. Many of them, unless they are of a high-level nature, never, ever get to the ministerial level. I have to tell you, Mr. Speaker, this one did not get to a ministerial level. It was a decision that was made – it’s an operational decision.

If I remember correctly, I have not been around this table for very long, but I know in the past there have been decisions made, there have been signs that have been put around the park area that have been removed. I would suspect this was no different. It was a decision that not executive level members decided last night to have those removed.

Again, it was not a ministerial decision, neither was it a Premier’s decision. It’s a decisional that was made on an operational level. That’s the way it is.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Opposition House Leader.

MR. HUTCHINGS: Thank you, Mr. Speaker.

Mr. Speaker, according to the Canadian taxpayers association Newfoundland and Labrador is the most expensive place in the country to drive.

I ask the Minister of Finance: What is the maximum price you’re willing to allow the people of Newfoundland and Labrador to pay?

MR. SPEAKER: The hon. the Minister of Finance and President of Treasury Board.
MS. C. BENNETT: Thank you, Mr. Speaker.

As we discussed in this House last week during the debate around the changes that were made to the gas tax, we are faced with an unprecedented situation in this province, a $1.8 billion deficit that would have been $2.7 billion had we not taken any action. It was the decision of this government to implement gas tax changes.

As I mentioned in this House last week and actually shared with Members opposite, we have a system in place in the Department of Finance to provide information to me on a weekly basis. Last week when the prices were changed, my understanding from officials is that the price actually was a half a cent higher than the five year average, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Opposition House Leader.

MR. HUTCHINGS: Thank you, Mr. Speaker.

Mr. Speaker, the minister indicated last week in debate there was discussion about a regulatory regime put in place to cap gas price, what process was looked at and why at the end could it not be implemented?

MR. SPEAKER: The hon. the Minister of Finance and President of Treasury Board.

MS. C. BENNETT: Mr. Speaker, when I spoke here in the House last week and as I will certainly say here in response to the Member opposite’s question, our government made the very difficult decision to increase gas tax. It is our intention to monitor the situation throughout the summer. This was always a temporary decision as we announced in the budget. We have made it clear to the people of the province that we will review where the tax increase would put gas prices as a whole in the province and we would look to make changes hopefully in time for the supplemental budget in the fall.

However, I had also confirmed in this House that should we see something unprecedented happen with gas prices, Cabinet holds the accountability to be able to make a decision and we will.

Thank you.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Opposition House Leader.

MR. HUTCHINGS: Thank you, Mr. Speaker.

Mr. Speaker, again to the minister I just want to clarify, last week in debate she said they viewed a regulatory regime to cap gas price but she said the process couldn’t be implemented. I ask her what was the regulatory regime you looked at and why couldn’t it be implemented?

MR. SPEAKER: The hon. the Minister of Finance and President of Treasury Board.

MS. C. BENNETT: Sorry to the Member opposite I was having difficulty hearing you when you asked a question a couple of minutes ago.

What I referred to last week was we had actually looked at whether or not we could create a mechanism inside the legislation or in regulatory terms where we could have a gas tax that would float as the foundational price of gas changed. As the member opposite may know gas is actually a combination of a number of items not the least of which is the price of crude. We looked at that alternative and from a legislative perspective we were told that that wouldn’t be a feasible option so we made sure we put other mechanisms in place which is confirming that Cabinet can make a decision. As long as we reduce the tax under 16½ we have the ability to do that, Mr. Speaker.

Thank you.
SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Opposition House Leader.

MR. HUTCHINGS: Thank you, Mr. Speaker.

Mr. Speaker, federal minister Foote suggests that negotiations on the deferral of the equalization payments started merely a week before the announcement but the Minister of Finance publicly stated that it began in December.

I ask the Premier: Who is correct and when did the actual negotiations begin?

MR. SPEAKER: The hon. the Minister of Finance and President of Treasury Board.

MS. C. BENNETT: Mr. Speaker, as I mentioned in this House we had discussions that I was present for with Federal Minister Morneau back in February. I could call the Member opposite with the exact date. It would have been during the Northern Lights Conference. During that conversation we had a discussion with him on a long list of items that are very important to our province. We were very pleased with the federal government’s decision to defer the equalization repayment, one that the former government saw fit to take that obligation on this year and we didn’t agree with that. We’ll certainly be looking forward the fruits of the other conversations we’ve been having with our federal counterparts.

Thank you.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Opposition House Leader.

MR. HUTCHINGS: Thank you, Mr. Speaker.

Mr. Speaker, I say to the hon. minister, I may be incorrect, I thought her on a night line show indicating that in December there were meetings and in January there were meetings as well, and that’s when the actual negotiation began.

I ask the Minister of Finance: How much was paid on the equalization repayment loans just negotiated or started with the federal government to defer the payments.

MR. SPEAKER: The hon. the Minister of Finance and President of Treasury Board.

MS. C. BENNETT: Mr. Speaker, I can provide the Member opposite with the exact amounts. The payment structure is such that I understand that payments are retained by the federal government from other funds that we pay the federal government. There have been two payments, that’s what my understanding is. Those payments will not be reimbursed to the province but the federal government has pushed forward the remaining amount, and we are certainly going to be taking advantage of that extra cash.

I’m really pleased that we are able to put that deficit levy and respond to the needs and concerns of the people of the province, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Opposition House Leader.

MR. HUTCHINGS: Mr. Speaker, if the Premier and Minister of Finance knew they were negotiating with Ottawa to defer payments, and they’ve made payments since, why would you have gone through that process? Why wouldn’t you have included that in your budget if, in fact, the discussions started back in December and January?

MR. SPEAKER: The hon. the Minister of Finance and President of Treasury Board.
MS. C. BENNETT: Mr. Speaker, the answer is quite simple. We wanted to make sure that we weren’t counting our eggs before they hatched. It is important that in a negotiation you make sure that you have the details completed. And, in this particular case as soon as the information was confirmed through the federal government and in communications with the provincial government we were able to act on it. When we completed the budget – at that time – we did not have clarity, nor did we feel it would be prudent to reflect anything like that in the budget. That’s why we were very pleased – as soon as we found out the information – that we went to the people of the province and shared the information with them.

Thank you.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Member for Fortune Bay – Cape La Hune.

MS. PERRY: Bill 35 will be debated in the House of Assembly this afternoon.

I ask the Minister of Seniors and Wellness: Based on research is vaping a safe alternative to smoking that actually can help people quit smoking and reduce their risk of illness?

MR. SPEAKER: The hon. the Minister of Seniors, Wellness and Social Development.

MS. GAMBIN-WALSH: Mr. Speaker, we don’t know the long-term effects yet. There’s been a significant amount of research done. Our objective is to protect the public and protect the health. We’re putting in place a bill that is going to do just that. The research will be completed and continue to be completed. This will also be debated later on today.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Member for Fortune Bay – Cape La Hune.

MS. PERRY: Last year, the House of Commons received a report on vaping. It recommended collaborative action between Ottawa and all the provinces.

I ask the minister: Can you provide an update on what action has been taken to date with this report?

MR. SPEAKER: The hon. the Minister of Seniors, Wellness and Social Development.

MS. GAMBIN-WALSH: Mr. Speaker, we are going to continue to work with the federal government as we move this legislation forward. In actual fact, on May 19, 2015, the now Leader of the Opposition said that their plan was to bring this legislation to the House of Assembly. They also did a comprehensive review, so we’ve continued with that review.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Member for Mount Pearl North.

MR. KENT: Thank you, Mr. Speaker.

I ask the Minister of Transportation and Works: What private contractor was used for his Parkway poster patrol overnight?

MR. SPEAKER: The hon. the Minister of Transportation and Works.

MR. HAWKINS: Thank you, Mr. Speaker.

I thank the hon. Member for his question, even though it was a little bit slighted and slanted. As I mentioned previously, our workers, following practice – it is within a park. They were following practice as been – historically they have removed signs. It’s not something new.
So what they did last night, Mr. Speaker, is what they’ve done previously as a practice in removing signs within the park. I understand that there are other signs throughout the city that are still on the posts. It was removed in the park.

As I said before to the hon. Member, there was nothing that came to my level on that as a decision. As I said before, if it had, it might have been a different decision. I don’t know really the policy, whether they should be removed or not, but that’s something I will look into, Mr. Speaker (inaudible).

MR. SPEAKER: Order, please!

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Member for Mount Pearl North.

MR. KENT: Mr. Speaker, the minister is saying it’s a historic practice to hire a private contractor in the middle of the night to go out and remove posters on the Parkway. There are still some of those signs up at the top of Allandale Road in the park. Prince Philip Parkway is maintained by the City of St. John’s.

Why would government hire a private contractor that remains unnamed to removed posters in the middle of the night?

MR. SPEAKER: The hon. the Minister of Transportation and Works.

MR. HAWKINS: Mr. Speaker, again, as I said, this was an operational decision that was made on an operational level, and they were following what they have normally followed, and it is not uncommon to have contracting to do some of the work. Last night, the same thing happened with regards to this particular situation. My department, the officials within that department making operational decisions on a daily basis, not uncommon to do that, decided that would be a course of action they took. They did not move it up to the level of ministerial, which I’m assuming they would have thought they were doing okay because it was practice in the past to be able to do that.

So as a result of that, Mr. Speaker, when it came to my attention this morning from the media request it was an area I wanted to look into, as a result of that I am answering today as truthfully and honestly as I possibly can.

MR. SPEAKER: Order, please!

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Member for Mount Pearl North.

MR. KENT: So, Mr. Speaker, the minister is throwing officials under the bus, or in this case, under a white van.

Mr. Speaker, I ask the Premier: Who in your office directed that the posters come down? Was it Kelvin Parsons, or was it someone else?

MR. SPEAKER: The hon. the Premier.

PREMIER BALL: Thank you, Mr. Speaker.

Well, as was previously mentioned by the minister, this was an operational issue, and I can assure Members opposite and Members in all parties of this House of Assembly there was no one — and as the minister just mentioned already — there was no one from the Premier’s office that was involved in this at all. Simply it was an operational issue.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Member for Mount Pearl North.

Order, please!

The hon. the Member for Mount Pearl North.
MR. KENT: Mr. Speaker, as of this morning, over 12,000 people have signed a petition calling for the Premier to resign immediately. Due to antiquated rules in this House, an online petition cannot be presented.

Will the Government House Leader commit to addressing this issue when our Standing Order Committee meets this summer?

MR. SPEAKER: The hon. the Government House Leader.

MR. A. PARSONS: Yes, certainly, Mr. Speaker.

I look forward to changing a number of the Standing Orders to allow the Member opposite to tweet freely in this House of Assembly –

SOME HON. MEMBERS: Hear, hear!

MR. A. PARSONS: – and certainly we look forward to making a number of changes that the previous administration had 12 years to do and did absolutely nothing about during their 12 years in government.

Thank you, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Member for St. John’s East – Quidi Vidi.

MS. MICHAEL: Thank you, Mr. Speaker.

I want to come back to the Minister of Transportation and Works with regard to this work in the middle of the night. We can’t even get our roads plowed in winter in the middle of the night.

SOME HON. MEMBERS: Hear, hear!

MS. MICHAEL: I ask him: How can he justify this action happening in the middle of the night?

MR. SPEAKER: The hon. the Minister of Transportation and Works.

MR. HAWKINS: Thank you, Mr. Speaker.

I thank the Member for the question. As I said, and stated before, this was an operational decision that was made last night.

Subsequent to the question the other hon. Member made in reference to the fact that we’re throwing our workers under the white van. That is totally uncalled for, totally inappropriate. We respect and we regard our workers, whether they’re our employees, whether they’re our contractors who are doing work on our behalf. They are number one, Mr. Speaker, and we certainly recognize them.

So the decision that was made was an operational decision. As I said before, it did not come to a ministerial level. As a result of that, Mr. Speaker, I did not make that decision, nor did the Premier’s office make that decision. If it had come to me, I might have made a different decision.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Member for St. John’s East – Quidi Vidi.

MS. MICHAEL: Thank you very much, Mr. Speaker.

I say to the minister, what’s disgraceful is people’s freedom of expression has been taken away from them. That’s what’s disgraceful.
I ask the Minister of Transportation and Works: Will he tell this House what company was contracted and how much did it cost in the middle of the night to have those posters taken down?

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Minister of Transportation and Works.

MR. HAWKINS: Thank you, Mr. Speaker.

I will certainly answer the question. We did have a contractor. It is a contractor that does work for us on a regular basis. The cost was somewhere around $200 to remove those signs. That’s the amount that was expended on that last night, Mr. Speaker, or early this morning.

Again, from my department, from where I’m looking at it, my understanding is there’s not a policy we have within government. That’s something we need to look at. I know, previously, and I think that’s why the employees reacted as they did, because it has been past practice when signs have gone up around the park area, they have removed them. I think it’s a practice they’ve done in the past.

With all due respect, Mr. Speaker, I think the employees acted on what they did before. I respect that decision and I will certainly work with them –

MR. SPEAKER: Order, please!

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Member for St. John’s East – Quidi Vidi.

MS. MICHAEL: Thank you, Mr. Speaker.

I ask the Minister of Transportation and Works: Will he bring into this room and table the receipt that shows the name of the contractor, the bill and the receipt showing how much money was asked for and paid?

MR. SPEAKER: The hon. the Minister of Transportation and Works.

MR. HAWKINS: Mr. Speaker, I don’t think that’s going to be a big issue. I think we are transparent. We are open.

We make sure that any expenditures are there. So I, personally, have absolutely no problem with doing that.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Member for St. John’s East – Quidi Vidi.

MS. MICHAEL: Thank you very much, Mr. Speaker.

I’m asking the Premier now: Did he or anyone involved in any way with his office direct or have anything to do with the removal of protests signs from light poles early this morning in the vicinity of the Confederation Building?

MR. SPEAKER: The hon. the Premier.

PREMIER BALL: Thank you, Mr. Speaker.

Well obviously I just answered that question to some Members opposite, no, no one was involved from the Premier’s Office in the poster removal on the Parkway or in Pippy Park last night. That was not a decision that came from the Premier’s Office. It was an operational issue as the minister just clearly pointed out. So the answer simply is no one from the Premier’s Office was involved in removal of those posters last night.

SOME HON. MEMBERS: Hear, hear!
MR. SPEAKER: The hon. the Member for ST. John's East – Quidi Vidi.

MS. MICHAEL: Thank you very much, Mr. Speaker.

I ask the Premier: Does he not have a problem with an order to have work like this done in the middle of the night when we can’t even clear our highways in the middle of the night in winter?

MR. SPEAKER: The hon. the Minister of Transportation and Works.

MR. HAWKINS: Thank you, Mr. Speaker.

I don’t know why it is so difficult in the middle of the night. I mean work is done in the middle of the night all over the province. As a matter of fact with the 24 hour snow clearing –

SOME HON. MEMBERS: Oh, oh!

MR. SPEAKER: Order, please!

I’ve ruled in the House on several occasions that the only Member that I wish to hear speaking is the Member recognized to speak.

The hon. the Minister of Transportation and Works.

MR. HAWKINS: Thank you, Mr. Speaker.

With regard to the 24 snow clearing that’s an implementation that has not happened yet and it is something that will be happening next winter and again it’s measures that are taken and we have been very clear in this House and given the rationale and we’ve been open and we’ve been clear and we communicated that.

We realize that there are only certain areas of the province, Mr. Speaker, that had 24 hours. I’m sure the hon. Member opposite would be concerned about rural Newfoundland, all the other areas of the province that don’t get 24 snow clearing. I’m sure she is speaking about that.

So, Mr. Speaker, that’s just an area that we’re looking at and we will continue to follow through on that commitment.

Thank you, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The time for Question Period has expired.
Yes, the five areas align with what was discussed in February, most comments thus far are on the fine print.

Embargoed Until Minister Begins Reading

Statement by
Honourable Eddie Joyce
Minister of Service NL
June 7, 2016

Minister Recognizes Roadcheck 2016

Mr. Speaker, I rise in this Honourable House to note that Roadcheck 2016 will be carried out in our province, and throughout North America from today, June 7, until Thursday, June 9.

Roadcheck 2016 is an initiative of the Commercial Vehicle Safety Alliance and represents a major undertaking by vehicle safety enforcement personnel across Canada, the United States, and Mexico.
Mr. Speaker, over the next three days, provincial highway enforcement officers will conduct an inspection blitz of commercial vehicles, and remind owners and operators of safe operating practices. Officers will mainly conduct the North American Standard Level 1 Inspection, which is a 37-step procedure that checks both driver and vehicle safety. Supporting safe and sustainable communities is a priority for our government, and our participation in Roadcheck 2016 speaks to this commitment.

Mr. Speaker, each year our dedicated staff check hundreds of vehicles throughout the province during the Roadcheck exercise. As we undertake Roadcheck 2016, I would like to take this opportunity to recognize the great work of our enforcement staff, who perform their duties faithfully every day. Their work is greatly appreciated by our government, and vital to the safety of motorists throughout Newfoundland and Labrador. I also want to applaud the efforts of everyone in the commercial transport industry who promotes road safety and follow best practices.

Thank you, Mr. Speaker.

Atlantic Report: Major Projects Inventory 2016

Newfoundland Slows While The Maritimes Surge Ahead

The Spring edition of Atlantic Report contains highlights of APEC’s Major Projects Inventory, which has identified 412 major investment projects in Atlantic Canada, with a combined potential
value of $125 billion. The expected investment in major projects in 2016 is $12.8 billion, down by about 2% over 2015. Spending is up strongly in Nova Scotia and Prince Edward Island this year, and continues to improve in New Brunswick. Newfoundland and Labrador's slowdown continues.

This publication also included the Spring 2016 edition of Atlantic Currents, which was released on May 26.

Good Morning Peter:

Further to our discussion, I provide the following regarding light poles and City of St. John's policy. I will provide further info as soon as I can:

i) The poles along the Parkway in front of Confederation Building are owned by Newfoundland Power. We are still trying to contact a person at Newfoundland Power to confirm their policy regarding placement of posters.

ii) The following is obtained from the City of St. John’s website regarding their downtown pole policy:

Flyers on Poles

To keep a clean appearance in our downtown core the City regularly installs sheathing (Tyvek) on downtown poles to place event and show posters on. The arts community, area businesses, and other interested parties should take notice that the removal of the Tyvek occurs on the 3rd Monday of each month (except February, April & December and holidays).

Tyvek will be removed and replaced from poles in 2016 on the following dates:

• January 18
• March 21
• May 16
• June 20
• July 18
• August 15
• September 19
• October 17
• November 21

Advertisers should also note that the removal and replacement of the Tyvek may take more than one day and the schedule may be delayed by adverse weather conditions.

Help us eliminate litter by making sure that your posters are securely attached and by using only the designated poles which have Tyvek attached to them.

This program is sponsored jointly by The Downtown Development Commission, Newfoundland Power and The City of St. John's.

Subject: Operational Issues

Good Evening Folks.

I'm sending this email as a reminder that operational issues and decisions that could have public sensitivities need to be brought to the attention of the ADM before they are acted upon. This of course is not a departure from current practice. All of you operate very professionally in applying this lens on a regular basis. Your executive team is here to support and to guide when we get into the public facing issues that are not always clear.

That said, I need to make certain that the sometimes grey area of public sensitivity shall never take priority over a safety concern. I know this does not have to be stated to this particular group, because I know each of you take safety as the highest of priorities. But I do need to ensure that this message is not misunderstood or read in the wrong context by anyone. In situations where you feel employee or public safety is threatened, we know you will act first and inform second, and you are not being asked to change that.

After discussion with Max, I am sending this to all Transportation directors as well as Works. If you have any questions or wish to discuss further, either of us are available.
Thanks Everyone.

Cory
Thanks looks good

Honourable Siobhan Coady
Minister of Natural Resources
June 7, 2016

Annual Baie Verte Mining Conference Highlights Successful Provincial Mineral Sector

Mr. Speaker, I rise today to highlight the Provincial Government’s participation in the 29th Annual Baie Verte Mining Conference from June 3-4.

Along with the Honourable Premier, the Member of Parliament for Coast of Bays-Central-Notre Dame, and the MHA for the District of Baie Verte – Green Bay, I had the honour of attending. At the conference, we had the pleasure of exchanging information and ideas about the province’s business, mining and mineral exploration industries and the investment community.

The innovation and ingenuity, the excitement and interest that the conference attendees are contributing to the mining sector is remarkable. While mineral commodity prices are under pressure in the current economy, the companies and people of the Baie Verte region are thriving.

I was pleased to tour Anaconda’s Pine Cove gold mine and meet individuals from its vibrant, young workforce. The Provincial Government is supporting Anaconda Mining in its efforts to expand its operations through a $400,000 repayable loan under the Business Investment Program and a $100,000 investment through the Business Development Support Program.

I also toured Rambler Mines and Metals’ copper-gold Ming mine. The company recently announced financing was in place for expansion plans that will extend the life of the mine to at least 2021. Last month, Rambler received the John T Ryan Safety Award - a first for a Newfoundland and Labrador underground mine.
Both companies continue to actively explore projects in the area to expand their resources and are significantly contributing to industry and economy in the Baie Verte region, and ultimately the province.

Our government is supporting growth in the mineral industry through prospector training and mentoring, the mineral incentive program, public geoscience, the core storage program, promotions, and efficient and transparent regulation. We are committed to working closely with the mining industry and with communities to attract investment and develop the economy of Newfoundland and Labrador.

Annual Baie Verte Mining Conference Highlights Successful Provincial Mineral Sector

Mr. Speaker, I rise today to highlight the Provincial Government’s participation in the 29th Annual Baie Verte Mining Conference from June 3-4.

Along with the Honourable Premier, the Member of Parliament for Coast of Bays-Central-Notre Dame, and the MHA for the District of Baie Verte – Green Bay, I had the honour of attending. At the conference, we had the pleasure of exchanging information and ideas about the province’s business, mining and mineral exploration industries and the investment community.

The innovation and ingenuity, the excitement and interest that the conference attendees are contributing to the mining sector is remarkable. While mineral commodity prices are under pressure in the current economy, the companies and people of the Baie Verte region are thriving.

I was pleased to tour Anaconda’s Pine Cove gold mine and meet individuals from its vibrant, young workforce. I also toured Rambler Mines and Metals’ copper-gold Ming mine. The company recently announced financing was in place for expansion plans that will extend the life of the mine to at least 2021. Last month, Rambler received the John T Ryan Safety Award - a first for a Newfoundland and Labrador underground mine. Both companies continue to actively explore projects in the area to expand their resources and are significantly contributing to industry and economy in the Baie Verte region, and ultimately the province.

Our government is supporting growth in the mineral industry through prospector training and mentoring, the mineral incentive program, public geoscience, the core storage program, promotions, and efficient and transparent regulation. We are committed to working closely with the mining industry and with communities to attract investment and develop the economy of Newfoundland and Labrador.
Annual Baie Verte Mining Conference Highlights Successful Provincial Mineral Sector

Mr. Speaker, I rise today to highlight the Provincial Government’s participation in the 29th Annual Baie Verte Mining Conference from June 3-4.

Along with the Honourable Premier, the Member of Parliament for Coast of Bays-Central-Notre Dame, and the MHA for the District of Baie Verte – Green Bay, I had the honour of attending. At the conference, we had the pleasure of exchanging information and ideas about the province’s business, mining and mineral exploration industries and the investment community.

The innovation and ingenuity, the excitement and interest that the conference attendees are contributing to the mining sector is remarkable. While mineral commodity prices are under pressure in the current economy, the companies and people of the Baie Verte region are thriving.

I was pleased to tour Anaconda’s Pine Cove gold mine and meet individuals from its vibrant, young workforce. The Provincial Government is supporting Anaconda Mining in its efforts to expand its operations through a $400,000 repayable loan under the Business Investment Program and a $100,000 investment through the Business Development Support Program.
I also toured Rambler Mines and Metals’ copper-gold Ming mine. The company recently announced financing was in place for expansion plans that will extend the life of the mine to at least 2021. Last month, Rambler received the John T Ryan Safety Award - a first for a Newfoundland and Labrador underground mine.

Both companies continue to actively explore projects in the area to expand their resources and are significantly contributing to industry and economy in the Baie Verte region, and ultimately the province.

Our government is supporting growth in the mineral industry through prospector training and mentoring, the mineral incentive program, public geoscience, the core storage program, promotions, and efficient and transparent regulation. We are committed to working closely with the mining industry and with communities to attract investment and develop the economy of Newfoundland and Labrador.

Erin/Diana can you loop back with BTCRD and add in a reference? You can look at the NR from yesterday for details.

Cheers,
Hugh

Financing is not only in place but there is a $400k repayable loan and $100k in funding through BTCRD. We can’t really talk about Anaconda without talking about this.

Good with me.
Krista

Reminder: FMS and ECMS Users - Vacation Rules:

Don’t forget to set your vacation rules in FMS when you are out of the office this summer.
This will help ensure any invoices or expense claims sent to you for approval are dealt with properly while you are away.

Adding Vacation Rules
1. Click the Vacation Rules link.
2. Vacation Rules screen - Click the Create Rule button.
3. Vacation Rule: Item Type screen - Click the Next button if you would like all your Notifications reassigned to the same person, or use the Item Type down-arrow to select a specific person per Oracle application.
4. Vacation Rule: Response screen - Use the calendar icon to select the Start and End date.
5. Optional Message field - Enter a custom message for the person verifying on your behalf.
6. Second Transfer field - To select the person verifying on your behalf, enter the first few letters of their last name.
7. Click the Apply button.

Updating/Deleting Vacation Rules
Vacation Rules
On the Vacation Rules screen:
• Click the Update icon (pencil) to make changes.
• Click the Delete icon (garbage can) to delete Rule.

For further instructions, please see the quick reference cards for Accounts Payable and ECMS below.
If you require assistance in creating your vacation rules, please contact the FMS Helpdesk at fmshelpdesk@gov.nl.ca or 729-2670.
Could someone please, please tell me (1) what happened to cause the removal of the limited retroactivity clause between the May 25th version of the FAQ document and the May 31st version of the FAQ document and (2) why we, as an industry, were not informed of the change until June 6th – well late on Friday the 3rd but we didn’t review it until yesterday while most of the IBAN executive is in Ottawa at an IBAC meeting.

And more importantly, do you have any understanding of the implication of this change? Please see the tax revenue scenarios outlined below.

The reinstatement of the RST on Insurance was brought in with the budget and included absolutely no advance industry consultation to determine a smooth and effective implementation strategy. There was no thought to industry time lines (as we process documents 60 days in advance of the renewal date) or how long it would take to change our industries computer systems and processes to accommodate the tax. We were simply told that it was going to happen July 1, 2016 and we had to be ready for it.
With all that said, a group representing iBAN met with your group, explained the implications of tax change to the industry and worked with your group to design an implementation plan. That plan was published on the Government’s website in the May 25th 2016 FAQ document from the Department of Finance and this was the document all of us in the industry used when we contacted our clients explaining the new tax. Many of us posted the link on our websites and actually sent the document to our commercial clients – certainly to any clients who asked what their options were under the new tax.

Why would you make this change? And why would you do so at such a late date without contacting the group you worked with to develop the initial implementation framework?

I don’t think you really understand the position this puts the government, our industry and our clients in. We are not just dealing with policies that renew between now and the end of the month – we’re dealing with ever policy that renews in the next 12 months. We had many clients call us and request that we cancel their policies immediately and have new policies issued to them any time before July 1, 2016 to defer the 15% tax for a year or a portion of a year. We told those clients, based on our discussions with your group and the Department of Finance RST on Insurance FAQ document, posted on the Government website, that we were not able to do that because of the “Limited retroactivity” clause. Nobody liked it but they accepted it.

Now we’re faced with a situation where we as an industry of professional advisors have been made to look like we don’t know what we’re doing because of an action taken by Government and the failure to communicate that action to the industry and to the consumer.

Our job as a broker is to find our clients the best coverage available in the market at the best price – that’s all we do and we’re good at it. Using that definition of our role, with the removal of the Limited Retroactivity clause you put us in a position of having to inform our clients of the potential saving to them of cancelling their policies early and having them reissued with an effective date of June 30th. The following are a couple of examples of the impact to our clients and to Government Tax revenues, if we do that:

Scenario setup: A client, with varying premiums and varying renewal dates will have the following tax savings if we cancel their policy midterm, at their request (or our suggestion), and have it reissued prior to June 30th, 2016:

So a client with a $100,000 premium not renewing in the normal course of business until March 31st, 2017 will save almost $4,000 if they request we cancel their policy today and have it reissued effective June 30th 2016. Put yourself in the clients position, would you not call your broker just to even check out what your savings might be if you did this?
Can you comprehend how much work this will create – none of us are structured to respond to contacts from a substantial number of clients in this kind of time frame.

Finally, without exaggeration I see the possibility of millions of dollars of tax disappearing from the provincial treasury as a result of this change. These scenarios go against the one premise your group said was the fundamental pillar in this process – the Government needs as much money as possible, this tax will generate in excess of $10mil to the Provincial Treasure on a monthly basis and you did not want the people and business of this province to be able to avoid taxation by making arbitrary changes to their policies leading up to the July 1, 2016 implementation date. Limited retroactivity from the budget announcement date to the RST implementation date made sense. This does not. What happened?

I await your response.

Sincerely,
Miles, Peter

Subject: Downtown Street Cleaning - JUNE 8, 2016

Motorists are advised that street cleaning operations are in effect. Beginning at 12:01 am and continuing until 7:00 am, WEDNESDAY, JUNE 8, 2016 the following downtown streets will be swept.

BOTH BANNERMAN RD
EVEN CAVENDISH SQ (Island Side)
EVEN COCHRANE ST (Duckworth St-Military Rd)
EVEN DUCKWORTH ST (Cavendish Sq-Signal Hill Rd)
ODD EMPIRE AVE (King's Bridge Rd-Forest Rd)
EVEN FOREST RD (Empire Ave-Quidi Vidi Rd)
EVEN HARVEY RD
EVEN KING'S BRIDGE RD (Gower St-Empire Ave)
EVEN LEMARCHANT RD (Campbell Ave-Harvey Rd)
EVEN MILITARY RD
ODD ORDANCE ST (Island Side)
ODD QUIDI VIDI RD
ODD SIGNAL HILL RD (Quidi Vidi Rd-Cabot Ave)

All vehicles must be removed from the streets noted during this time period. Any vehicle left on the street during a scheduled cleaning will be ticketed. Please do not re-park your vehicle in any area that is scheduled for cleaning. The mechanical broom may make several passes on your street.

Your cooperation and patience are appreciated. Together, we can keep your neighbourhood clean.

Subject: TL 267 background and key points

Key Points
- This line is critical to system stability and reliability and eliminates the issue with Avalon reliability
- Due to the delayed in-service of the line from Labrador, Hydro is advancing the line to reduce the probability of outages in the winter 2017/18
- The line was a recommendation in the recent Energy Supply Risk Assessment submitted to the PUB in May 2016 which assessed additional actions required with the delay in MF
- There is no additional cost expected with advancing the line and the Public Utilities Board has approved the line (both cost and justification). The EA release is needed to meet the new schedule and construction must start immediately.

Background
The new transmission line from Bay d'Espoir to the Avalon is designed to strengthen the provincial electricity grid. It is important for continued system reliability.

The new high voltage, 230kV transmission line’s proposed route will be about 188 km in length and parallels two existing transmission lines between the Bay d'Espoir Generating Station and the Western Avalon Terminal Station near Chapel Arm. This route was chosen to avoid the creation of a new access corridor; it reduces the overall environmental footprint and minimizes the impact to communities.

The upgrade of this corridor will provide additional capacity into the Avalon Peninsula, relieve transmission congestion and enhance the resiliency of the current transmission network originally built in the late 1960s.

Newfoundland and Labrador Hydro submitted its environmental assessment (EA) May 2015 for the proposed route of the new transmission line between Bay d’Espoir and Western Avalon.

The document was registered on July 20, 2015 with the provincial government’s Department of Environment and Conservation as an undertaking under the Environmental Protection Act.

The process included a series of consultations and open houses with communities and key stakeholders along the proposed route. Several months were spent in the field analyzing a wide range of environmental and technical aspects of the project. The EA Registration consisted of more than 900 pages of text, maps and tables.

Hydro has determined that advancing the line to an in-service date of Nov 1, 2017 (versus Spring 2018) will considerably reduce the risk of potential power outages to the Avalon Peninsula over the winter 2017/2018 with the delay in the Labrador Island Link. The original in-service was aligned with the original schedule for the Labrador Island Link.

There is no additional cost to advancing construction and the compressed schedule is very aggressive. We are presently compromising the critical path with each day delay. If we won’t get the line in place before our peak winter season (Dec 1, 2017) Hydro cannot commission the line until the following Spring because we cannot take the equipment outages required to tie the line in.

Hydro completed significant engineering analysis, including hundreds of stability and load flow studies, to confirm that the line is necessary and that it is the best option to ensure optimal reliability levels over the long term.

The line was also a recommendation in the recent Energy Supply Risk Assessment submitted to the PUB. The line essentially “re-balances” the island grid and eliminates the “Avalon Reliability Issue”. We will be able to transfer more electricity from the core generating facilities off the Avalon to the area where most of the customers and load exist, which is on the Avalon. The alternative is to construct a new combustion turbine on the Avalon at an approximate incremental cost of $150M to ratepayers.

The Board of Commissioners of Public Utilities (PUB) approved the project in December 2014.

Anticipated cost is about $290 million.

The result will be a stronger island electricity grid with greater supply security for the Avalon Peninsula.
Dawn S. Dalley, Vice-President, Regulatory Affairs & Customer Service
Newfoundland and Labrador Hydro

PARTIALLY EDITED QUESTION PERIOD

Tuesday, June 7, 2016

Oral Questions

MR. SPEAKER: The hon. the Leader of the Opposition.

SOME HON. MEMBERS: Hear, hear!

MR. P. DAVIS: Thank you, Mr. Speaker.

Mr. Speaker, last Thursday the Premier stated that he would release the Justice report. Yesterday, the Premier had his Minister of Justice tell the people that the report would not be released.

I'll ask the Premier: Why the change of position? Why not release the Justice report as you have committed?

MR. SPEAKER: The hon. the Government House Leader.

MR. A. PARSONS: Thank you, Mr. Speaker.

Certainly what the Premier said was that he'd like to get the Justice opinion out as soon as possible, and that he would go back to our department, the Department of Justice and Public Safety and see what options there were. Solicitors within our department made it quite clear that doing so would breach solicitor-client privilege. Not only that, it would prejudice the process.

Do we want a legal opinion out that has been given to government – it would be out and that could possibly influence the testimony of individuals that may be called under subpoena to testify in front of the Auditor General. It's not something we thought was right and could influence and have a negative effect on government matters.

Thank you.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Opposition Leader.

MR. P. DAVIS: Thank you, Mr. Speaker.

My recollection is the Premier said on one day nine times that he would release the information. So I'll ask the Premier again: Knowing that, Premier, you've made a very clear commitment to the people of Newfoundland and Labrador, will you now release the secretive justice report and documentation today?

MR. SPEAKER: The hon. the Government House Leader.

MR. A. PARSONS: Thank you, Mr. Speaker.

Certainly, I think the Member opposite understands the concept of solicitor-client privilege but perhaps he doesn't. Again, what the Premier has said all along was there would be a justice review done. That review was done by officials within my department and an opinion was provided that this matter should be referred to the Auditor General, something I think that the other side actually concurred with.

Again, it was advised by solicitors and lawyers within the Department of Justice that releasing this opinion at this time would prejudice the process. The important thing to remember here is that the Auditor General has absolutely all information that is necessary to conduct a full and thorough investigation into the severance payout to Mr. Martin. I think that is something that all of us here in this province want to know how this happened. The Auditor General has the information necessary to make this determination.
Thank you.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Opposition Leader.

MR. P. DAVIS: Thank you, Mr. Speaker.

I say to the Premier that the report, who was doing the report, and the relationship between you and who was doing the report has not changed. It has not changed since you said that you would, and I quote; happily release the Justice report as long as the AG didn’t have any objections, end of quote.

Well, the Auditor General has said he had no issue with government releasing the report.

So, I ask the Premier again: Why are you hiding behind solicitor-client privilege when you can release this report? Why are you keeping it a secret, Premier?

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Government House Leader.

MR. A. PARSONS: Thank you, Mr. Speaker.

Again, I figure that the Member opposite, with his background in policing, would understand the concept of solicitor-client privilege but apparently not so.

What we’ve said all along here is that a justice review would be done. Once was that review was concluded it was determined that the only way to get all of the information necessary to determine the Ed Martin severance payout would be to have the Auditor General do this. Obviously, the Auditor General is not going to be influenced.

The Auditor General has no issue with the release of this because it is not his opinion; it’s not his solicitor-client privilege to wave. But I don’t think it’s a good suggestion here that individuals who may be called in to give testimony in front of the Auditor General should have the legal opinion provided to government before they do so. If the Member opposite can explain how that doesn’t prejudice the process I would love to understand that.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Opposition Leader.

MR. P. DAVIS: Thank you, Mr. Speaker.

I’ll ask the Premier just to be clear if he has or has not provided the secret justice report to the Auditor General? Have you or have you not provided it, Premier?

MR. SPEAKER: The hon. the Government House Leader.

MR. A. PARSONS: Absolutely, everything from government has been provided to the Auditor General so that they can do a full and thorough investigation of the Nalcor payment to Mr. Martin.

Thank you.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Opposition Leader.

MR. P. DAVIS: Thank you, Mr. Speaker.
Mr. Speaker, I’ll ask the Premier: How can you release information to the Auditor General—he said it’s not going to create a bias from his perspective, it doesn’t matter to the work that he’s going to do—so how can you release the information to the Auditor General but not to the public? You said you would release the information to the public, why are you not doing that now? What’s in this report that you’re refusing to disclose?

MR. SPEAKER: The hon. the Government House Leader.

MR. A. PARSONS: Again, Mr. Speaker, the public is not the group that’s conducting this investigation. The public wants to know what the investigation of the Auditor General is going to find out, and the Auditor General has access to all this information.

Again, this is nothing new. This is the exact same thing that was done by the previous administration when they referred certain matters to the Auditor General. We look forward to a full and thorough investigation of Mr. Martin’s payout from the former Nalcor board, and we look forward to having that done, and if the Auditor General has more information that they need, we look forward to providing it as soon as requested.

Thank you.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Leader of the Opposition.

MR. P. DAVIS: So the Premier once again is going against a commitment that he repeatedly made here in the House of Assembly, a commitment he made to the people of the province.

Now, Mr. Speaker, the Attorney General, he’s the Minister of Justice, has the ability and the discretion to go beyond what solicitor-client he may decide, and he still has the right and ability and authority to release the report.

So I ask the Premier: Will you stick to your word on this one? On this one will you stick to your word? Will you provide direction and make the report public, live up to the commitment that you made just days ago?

MR. SPEAKER: The hon. the Government House Leader.

MR. A. PARSONS: Thank you, Mr. Speaker.

Again, the Leader of the Official Opposition, a former Premier, is erring in his words. The fact is the Premier said he would like to get the opinion out but he would have to go back to the Department of Justice and see what all the options are. In fact, that’s what the Premier said on a number of occasions here.

The fact is I don’t know why the Member opposite would want government to prejudice this process, prejudice their case. The Auditor General has all the information, the Auditor General is going to do a full and thorough investigation into the payment of Ed Martin’s severance under the contract that was signed by the former Tory-appointed board. We look forward to that investigation being done as well, and again, any information the Auditor General requires, we will certainly be happy to provide that.

Thank you.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Leader of the Opposition.

MR. P. DAVIS: I’ll try another question for the Premier, Mr. Speaker. The Premier has chosen to release bits and pieces of information about this matter already. He’s made that decision. He’s already directed ministers to release information. That appears to have been pieces that government felt were going to benefit them, and that’s all they’ve released.
So I'll ask the Premier: Why not release the full package, as you committed to do, and as you provided to the Auditor General?

MR. SPEAKER: The hon. the Government House Leader.

MR. A. PARSONS: Thank you, Mr. Speaker.

I think I've stated twice already here today, the Auditor General has absolutely all the information necessary that the government has in its possession in order to do a full and thorough investigation into the severance payout to Mr. Martin. The Auditor General has all that.

The Member opposite, I believe, actually wanted the Auditor General involved. The Department of Justice concluded that was the best way in order to get all the information out and allow the Auditor General to use the powers under that piece of legislation to do a full and thorough investigation including getting testimony through a subpoena of all the witnesses and all of the people in this matter.

Thank you, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Opposition House Leader.

MR. HUTCHINGS: Thank you, Mr. Speaker.

Mr. Speaker, I ask the Minister of Finance: Why was the simple deadline to inform the nurses' union and the allied professionals about the intent to enter into negotiations missed?

MR. SPEAKER: The hon. the Minister of Finance and President of Treasury Board.

MS. C. BENNETT: Mr. Speaker, I thank the hon. Member for the opportunity to discuss this issue in the House and as I have said already, have said to Ms. Forward and certainly the Allied Health Professionals, as the minister responsible for the Human Resource Secretariat I accept responsibility for the issue that we are faced with today. I intend to address the issue and certainly as minister I accept accountability for it.

Thank you.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Opposition House Leader.

MR. HUTCHINGS: Thank you, Mr. Speaker.

Mr. Speaker, I ask the minister: How can people have confidence considering the importance of this deadline in the department when you can't meet a simple deadline related to labour negotiations?

MR. SPEAKER: The hon. the Minister of Finance and President of Treasury Board.

MS. C. BENNETT: Mr. Speaker, as I mentioned earlier, as the minister responsible it is unaccountable and my intend to solve the problem, once I have a chance to assess whether what process broke down and implement the corrective action to ensure that situations like this do not happen.

I would remind the Member and remind the Members of this hon. House though that does not change our intent and the unions knowledge of our intent and the current situation that we're faced with, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Opposition House Leader.
MR. HUTCHINGS: Mr. Speaker, not only has the Minister of Finance dropped the ball on this but it is fair to question the value of a $500 an hour being paid to outside legal counsel hired by the Liberal government to assist with negotiations.

How did everyone, including yourself and your high-paid hired help, miss this vital deadline?

MR. SPEAKER: The hon. the Minister of Finance and President of Treasury Board.

MS. C. BENNETT: Mr. Speaker, the Members opposite have certainly the right to ask questions and I will continue to say I accept accountability and responsibility for the error that was made. That doesn’t take away from the fact that government has been clear from the beginning that we intend to bargain with all of our public sector unions in a fair and equitable way.

We are faced with an unprecedented situation in this province and we intend to honour the good faith bargaining. It is our intention to make sure that we treat all unions fairly regardless of whether or not there is a bargaining delay, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Opposition House Leader.

MR. HUTCHINGS: Thank you, Mr. Speaker.

Recognizing that two significant unions, the deadline was missed by the minister, how will this miss impact public sector negotiations going forward?

MR. SPEAKER: The hon. the Minister of Finance and President of Treasury Board.

MS. C. BENNETT: Mr. Speaker, it is our intention that our approach does not change. The circumstances that happened in relation to the serving of the contracts have been unfortunate. I accept accountability for that, as the minister, and intend to solve the process problem once I get to the bottom of it.

However, we cannot lose sight of the fact that government has made it clear from the beginning that we intended to negotiate will all of the unions in a fair and equitable way. It will not change our approach to collective bargaining and having a good-faith dialogue with our very valuable public sector employees, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Opposition House Leader.

MR. HUTCHINGS: Thank you, Mr. Speaker.

The minister indicates she wants to negotiate will all the unions, but how can she proceed with negotiations without all the unions at the table? You’ve missed the deadline. How can you negotiate will all the unions?

MR. SPEAKER: The hon. the Minister of Finance and President of Treasury Board.

MS. C. BENNETT: Mr. Speaker, I have reached out personally to both unions and encouraged them to participate as part of the process that we have this year. We intend to set up a meeting with them to discuss it, but let me be clear, government was clear about our intention. Everybody in the province knew what our intention was. The unions knew what our intention was. The delay won’t change our approach.

Most importantly, we have to ensure equity and fairness amongst all of our unions and make sure that our public sector employees, at the end of the day, have a collective agreement that is fair and reflective of what this province can do for them and is respectful of the circumstances that they find themselves in as employees, Mr. Speaker.
SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Opposition House Leader.

MR. HUTCHINGS: Thank you, Mr. Speaker.

The minister indicated she wanted to be clear with the unions, but she didn’t provide clarity in terms of notifying them. Unfortunately, that’s the issue.

I ask the minister: What is the impact on the budget targets if the nurses’ union and the Allied Health Professionals are not at the table this fiscal year?

MR. SPEAKER: The hon. the Minister of Finance and President of Treasury Board.

MS. C. BENNETT: Mr. Speaker, that question is baffling. We would never budget an assumption about collective bargaining when we haven’t gotten to the table and negotiated in good faith.

As I have said in this House repeatedly, we intend to have those important dialogues with our valuable employees at the table with their union representatives, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: Order, please!

Before I recognize the Opposition House Leader, I will remind all Members that the only person I wish to hear speaking is the individual recognized to speak.

The hon. the Opposition House Leader.

MR. HUTCHINGS: Thank you, Mr. Speaker.

Mr. Speaker, the nurses’ union celebrated the news of the one-year extension granted to them by the Finance Minister’s incompetent misstep.

I ask the Premier: Do you expect nurses to waive this provision?

MR. SPEAKER: The hon. the Minister of Finance and President of Treasury Board.

MS. C. BENNETT: Mr. Speaker, our government expects that the conversations we’ve been having on an ongoing basis with the unions – and I would suggest very clearly and transparently with the people of this province. Our intention from the beginning was to bargain with all of our unions.

The situation that happened with the serving of the letters, as I’ve said to the Member opposite, as the minister responsible for the department, I have accountability for that. I will get to the bottom of the issue that caused this problem. That does not take away from the fact that we have been very clear with the people of this province that we intend to bargain in good faith with all of our public sector unions, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The Opposition House Leader.

MR. HUTCHINGS: Thank you, Mr. Speaker.

I ask the minister: Does she have the ability to force the unions to the table or is that your intent?

MR. SPEAKER: The hon. the Minister of Finance and President of Treasury Board.
MS. C. BENNETT: Mr. Speaker, it is my intent, as the Minister Responsible for the Human Resources Secretariat, and the intent of this government to bargain in good faith with all of our unions. We intend to have those conversations at the bargaining table where they need to happen.

This delay in a bargaining implementation date will not change our approach. We will continue to focus on good-faith bargaining with our valuable employees at the same time as ensuring that we put the interests of the people of the province at the forefront when it comes to providing a sustainable public service in our province, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The Opposition House Leader.

MR. HUTCHINGS: Thank you, Mr. Speaker.

If public employees have been allowed to do their job, I don’t think we’d have this problem.

I ask the minister: How much has been spent to date on the services of McInnes Cooper and outside communications counsel?

MR. SPEAKER: The hon. the Minister of Finance and President of Treasury Board.

MS. C. BENNETT: Mr. Speaker, as I mentioned earlier, it is my intention to solve the process issue that led to the circumstances of yesterday. For the information of the Member opposite, I don’t have the information today. I’m happy to provide it to him tomorrow when I have the information from officials.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The Member for the District of Mount Pearl North.

MR. KENT: Mr. Speaker, it’s good to see the Finance Minister accepting responsibility for a mistake, let’s try the Minister of Transportation and Works. We were shocked yesterday when he admitted that the provincial government removed political posters in the middle of the night.

I ask the Premier again: Who in government ordered that the posters be removed?

MR. SPEAKER: The hon. the Minister of Transportation and Works.

MR. HAWKINS: Thank you, Mr. Speaker.

Really the answer today is no different than yesterday. I stated in this House yesterday that it was an operational decision that management personnel made. We were not aware of that. However, since yesterday I’ve spoken to the employee and I think the employee is well aware of that in the future that anything of a sensitive nature of that will come to the minister’s level. But it was not yesterday reported to me because it was an operational measure they felt that they could care of, Mr. Speaker. It was simply no more than that.

He was just exercising what he thought was his right to do that. He did that and there are no further implications as far as I’m concerned as minister. It is certainly not a responsibility that Premier or myself were aware of prior to taking of the signs.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Member for the District of Mount Pearl North.

MR. KENT: Thank you, Mr. Speaker.

So it’s clear that an employee of Transportation and Works engaged a private contractor through some kind of Standing Order to do this work.
I ask the minister: Has this contractor that he refuses to name done any additional work since the initial $200 job?

MR. SPEAKER: The hon. the Minister of Transportation and Works.

MR. HAWKINS: Thank you, Mr. Speaker.

Well the Member opposite should know because it’s the same contractor they’ve used on numerous occasions to do routine work around the building and for some of the issues they had, Mr. Speaker. Yesterday, they asked that I would table a quote and, Mr. Speaker; I have no problems in tabling the quote. It’s a contractor that the previous government had engaged on numerous occasions to do work around the Confederation Building, and within our property as well, Mr. Speaker. The actual total bill came in – HST included – at $203.40, which I am pleased to table today for the House.

Thank you.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Member for the District of Mount Pearl North.

MR. KENT: Minister, what’s the name of the company and have they done any additional work on behalf of Transportation and Works since the initial $200 job?

MR. SPEAKER: The hon. the Minister of Transportation and Works.

MR. HAWKINS: Thank you, Mr. Speaker.

It’s a fairly open-ended question. This is a contract that we have, a standing contract, and I don’t know they might have been up last night fixing plumbing, I have no idea. These are contracts that we have on a routine basis and they have done work for the previous administration, for this administration, and I would assume if we have work today that needs to be done then it would be done.

So for the Member opposite to ask me if they had done any additional work since yesterday, I don’t know that. I know they haven’t taken any signs down, Mr. Speaker, nor will they take any signs down. He should know that and that’s an answer I have for him.

Mr. Speaker, I really didn’t – not that I didn’t want to name the contractor, I just wanted to protect the contractor but actually the contractor is Kelloway Construction.

MR. SPEAKER: Order, please!

MR. HAWKINS: So there are no secrets over here, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Member for Mount Pearl North.

MR. KENT: Mr. Speaker, fixing plumbing maybe routine but hauling down political posters in the middle of the night certainly is not routine.

SOME HON. MEMBERS: Hear, hear!

MR. KENT: Mr. Speaker, fixing plumbing maybe routine but hauling down political posters in the middle of the night certainly is not routine.

SOME HON. MEMBERS: Hear, hear!

MR. KENT: So 24 hour snow clearing was eliminated with the Liberal budget, long-term care beds were closed with the Liberal budget, 54 libraries were shut down with the Liberal budget and yet you have no trouble spending money to remove political posters in the middle of the night.

I ask the Premier: How can you possibly justify that expense?
MR. SPEAKER: The hon. the Minister of Transportation and Works.

MR. HAWKINS: Thank you, Mr. Speaker.

I don’t know how many times I have to repeat myself with regard to the fact that this particular issue came to the attention of one of the managers that we have. The manager in doing what he thought was right at the time. It’s a practice that had been done in the past and so he made a judgement call with regard to taking those signs down. It is not something out of the ordinary that they would have done.

Mr. Speaker, again I am very clear, I think I’ve been very clear the last two days with regard to answering the question that in fact it was operational and as a matter of fact it was something that had been done previously. They were just following what they thought was regular and they just did that, Mr. Speaker, and that is about as much as I can answer on that question.

MR. SPEAKER: Order, please!

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Member for the District of Mount Pearl North.

MR. KENT: Mr. Speaker, first they cut snacks and stickers at the Janeway through this budget. Today, we hear –

SOME HON. MEMBERS: Oh, oh!

MR. KENT: Mr. Speaker –

MR. SPEAKER: Order, please!

I remind all hon. Members again I know we’ve had a long night and Members are tired. I ask Members to respect the individual who has been identified to speak. The only individual I have identified at this particular time is the Member for Mount Pearl North.

MR. KENT: Mr. Speaker, I’m hearing Members accusing me of not telling the truth. That is certainly unparliamentary; I hope you will address that after Question Period.

First this government over here allows Eastern Health to cut snacks and stickers at the Janeway and today we learn that this Liberal government has cut funding for the Teddy Bear’s Picnic.

I ask the Premier: Is your administration completely out of control?

MR. SPEAKER: The hon. the Minister of Health and Community Services.

MR. HAGGIE: Thank you, Mr. Speaker.

The issue of the snacks and stickers at the Janeway was a decision taken in September of 2015 –

SOME HON. MEMBERS: Oh, oh!

MR. KENT: Not true.

MR. HAGGIE: –with an implementation date this year.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Member for the District of Mount Pearl North.
MR. KENT: I challenge the minister to table documentation in this House to prove that statement which is inaccurate, Mr. Speaker.

Back to the poster issue, the minister said there’s no real policy and this feels like –

SOME HON. MEMBERS: Oh, oh!

MR. SPEAKER: Order, please!

MR. KENT: Thank you, Mr. Speaker.

SOME HON. MEMBERS: Oh, oh!

MR. SPEAKER: Order, please!

I say to the Member for Labrador West that you need not stand today. I’ve made it very clear in this House. You will not be recognized today.

The Member for the District of Mount Pearl North.

MR. KENT: Excellent call, Mr. Speaker.

The minister said there’s no real policy on poster removal. This feels like flags all over again.

I ask the Premier: If there’s no policy, why were the posters removed?

MR. SPEAKER: The hon. the Minister of Transportation and Works.

MR. HAWKINS: Thank you, Mr. Speaker.

Again, as I’ve stated before and I will continue to state, it was an operational decision that was made. There is no policy in place. It was a practice – as you know, of course, at the Confederation Building we have the Pippy Park and that’s within our property.

However, Mr. Speaker, since yesterday we’ve been reaching out to the City of St. John’s as well as to the utilities because it is our understanding that these poles are actually owned by the city and there are certain bylaws. That’s an exercise that we will continue to do.

I can assure you, Mr. Speaker, one of the important things to take subjectivity out of decision making, we need clear policies. That certainly will be my intent as we look further into what happened in this situation, that we will have a policy that we can adhere to so subjectivity is not an issue.

MR. SPEAKER: Order, please!

MR. HAWKINS: Thank you, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The Member for the District of Mount Pearl North.

MR. KENT: Thank you, Mr. Speaker.

I ask the Premier: Why were the resign posters taken down while other political signs, like the NL rising posters that have been up for weeks in the same location, were not touched?

MR. SPEAKER: The hon. the Minister of Transportation and Works.
MR. HAWKINS: Thank you, Mr. Speaker.

A very good question actually. It’s a question I asked the employee this morning. I wanted an answer to that because yesterday I didn’t have an answer to that.

Apparently, from my understanding, the director was in Montreal at the time. The manager had called him and specifically told him the type of sign it was, didn’t get into any details of other signs. It was a decision based on the information that he had.

It was not intended to be anything other than that, Mr. Speaker. That’s the explanation I had from the employee and I believe that to be accurate and correct. That’s why I’m stressing it’s important for us to have a policy in place that we do not have subjective decisions made. We need to have a policy in place. We know exactly what we have to and we will have that.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Member for the District of St. John’s Centre.

MS. ROGERS: The minister’s plan for the levy, projected revenue of $126 million annually. Her modified levy, plan b, will raise only $61 million. The minister also said a federal loan payment due to the federal government has been deferred to 2022, and that was the reason for changing the levy.

I ask the minister: How can the $27 million deferral of the debt payment offset the large shortfall in projected revenues from the levy?

MR. SPEAKER: The hon. the Minister of Finance and Treasury Board.

MS. C. BENNETT: Mr. Speaker, as part of the redefined temporary deficit levy the payments for the outstanding $267 million equalization repayment floor loan, which was deferred by the federal government, the amount was deferring for a number of years. What we did in the department was ascertain how we could make changes to the temporary deficit levy.

As such, we were able to make those changes which would mean that individuals with $50,000 of taxable income would pay no levy and individuals between $50,000 and $100,000 would pay significantly less. Three and four Newfoundlanders won’t be paying the deficit levy, and certainly we were pleased with what the feds did.

Thank you.

MR. SPEAKER: The hon. the Member for St. John’s Centre.

MS. ROGERS: Mr. Speaker, I ask the minister: What is she planning to cut now that the amount to be collected by the levy will be reduced?

MR. SPEAKER: The hon. the Minister of Finance and President of Treasury Board.

MS. C. BENNETT: I’m sorry, Mr. Speaker. I didn’t hear the Member opposite’s question.

MR. SPEAKER: The hon. the Member for St. John’s Centre.

MS. ROGERS: Thank you, Mr. Speaker.

I asked the minister: What is she planning to cut now that the amount to be collected by the levy will be reduced?

MR. SPEAKER: The hon. the Minister of Finance and President Board.

MS. C. BENNETT: Nothing.
MR. SPEAKER: The hon. the Member for St. John’s Centre.

MS. ROGERS: Increase the number of exempt taxpayers reduce the amount that people earning between $50,000 and $100,000 will have to pay and increase the burden on taxpayers with more than $100,000 in taxable income.

I ask the minister: Is she now admitting that the initial plan for the levy, her plan (a) was a political blunder which placed a disproportionate share of the burden on low and middle-income earners?

MR. SPEAKER: The hon. the Minister of Finance and President of Treasury Board.

MS. C. BENNETT: Mr. Speaker, what I’m prepared to admit is that our budget made sure that we were able to borrow money at a cost that was significantly stable compared to what would have happened had we not made the changes in the budget, including the introduction of the Temporary Deficit Levy which we have debated in this House, Mr. Speaker, since April 14, and which we’ve put legislation in, and that we’re debating now, that would see this legislation be removed, Mr. Speaker.

That’s what I can say to this House. We made sure that we were able to borrow money to pay for critical services like education, like health.

MR. SPEAKER: I ask the Member to get to her question, please.

MS. ROGERS: — to keep libraries open in 54 communities.

I ask the Premier: Will he listen to the people of Fogo Island —

MR. SPEAKER: Order, please!

MS. ROGERS: — Change Islands —

MR. SPEAKER: Order, please!

The Member’s time for her question has been expired.

As we’ve said, I’ve said, repeatedly here in the House of Assembly, as result of the changes in the ways that people are accessing texts in the twenty-first century, the provincial libraries board has decided to move towards a regional model. Regionalization is something that we heard time and again through the Government Renewal Initiative exercise that Members opposite have even suggested. I believe we got a missive from Brunei the other day, a former Minister of Finance who sat on with that government, suggested regionalization. So it’s something the provincial
libraries board did in good faith to try and improve their services so they would have a minimum of 30 hours of operation per week that around 85 per cent of the population would be within 30 minutes commuting distance.

Thank you, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The hon. the Member for the District of St. John’s Centre for a very short question.

MS. ROGERS: Mr. Speaker: Will the Premier listen to the plea of the Mayor of Lourdes, supported by two of his own MHAs for the area, and reverse the decision to close their libraries?

MR. SPEAKER: The hon. the Minister of Education and Early Childhood Development.

MR. KIRBY: Well, Mr. Speaker, there’s a lot of work to be done in this area from here to when any changes are made. As we’ve said, we encourage local organizations to reach out to the school district to see if there are ways that public access to school libraries can be maintained in those libraries that are co-located in schools. We also encourage municipalities and local organizations to see if there are opportunities to take over the operation of all of those libraries, a good number of them, that are located in municipal buildings.

There’s a lot more to be done here. I encourage Members to encourage local organizations, municipalities, local groups to reach out to the school district and to the libraries board to try and find ways to continue service.

MR. SPEAKER: Order, please!

MR. KIRBY: Thank you, Mr. Speaker.

SOME HON. MEMBERS: Hear, hear!

MR. SPEAKER: The time for Question Period has expired.
You are invited to the following event:

**NOIA CONFERENCE RECEPTION 2016**

Event to be held at the following time, date, and location:

- **Tuesday, June 21, 2016 from 7:00 PM to 10:00 PM (NDT)**
- **The Rooms**
  - 9 Bonaventure Avenue
  - St. John's, NL A1C 5P9
  - Canada

ALS Awareness Month Recognized in Newfoundland and Labrador

Mr. Speaker, I rise to recognize June as ALS Awareness Month.

Amyotrophic lateral sclerosis – more commonly referred to as ALS or Lou Gehrig’s Disease – is a rapidly progressive, fatal motor neuron disease that leaves those affected in a state of progressive paralysis. We know that roughly 3,000 Canadians are currently suffering from this disease, 80 per cent of whom will die within five years of diagnosis.

The ALS Society of Canada undertakes significant fundraising efforts on a national scale, investing in research to one day turn ALS from a terminal disease to a treatable one.

During the month of June, the ALS Society of Newfoundland and Labrador brings volunteers together from across the province to organize fundraising walks. I am pleased to say that last year’s walks were a tremendous success, raising a combined total of more than $118,000. Forty per cent of this funding is directed to ALS Canada’s National Research Fund and 60 per cent stays here in the province to support local families living with the disease.

The ALS Society will be hosting Walk for ALS events across Newfoundland and Labrador during the month of June. Residents can check the society’s website for a complete schedule of walks at www.walkforals.ca.

I encourage all members of this Honourable House – and indeed all residents – to join me in commending the ALS Society of Newfoundland and Labrador and its national counterpart as we recognize ALS Awareness Month in this province.

Thank you, Mr. Speaker.
Good morning

Attached and below for your approval is a Ministerial Statement which is scheduled to be read by Minister Joyce in the House tomorrow afternoon.

Thanks,
Meghan

Honourable Eddie Joyce
Minister Responsible for Fire and Emergency Services - NL
June 9, 2016

Minister Recognizes Learn Not to Burn Program

Mr. Speaker, I rise today to recognize an important program that teaches children from preschool to Grade 3 how to prevent fires and escape a fire safely. The Learn Not to Burn program was developed by the National Fire Protection Association and has been taught in schools throughout this province for the last 16 years.

Through Budget 2016, the provincial government allocated $60,000 to the Newfoundland and Labrador Association of Fire Services to continue offering this worthwhile program. The association has also been able to leverage partnerships with other organizations to provide additional resources to participating students. This year over 10,000 students were reached through 73 Learn Not to Burn presentations.

Mr. Speaker, while this program is aimed at young children, it offers information about fire safety for people of all ages. Participants learn about crawling low in smoke; identifying exits in public places, and how to use matches and lighters safely. Students complete the program with a renewed sense of confidence in their fire safety skills.

I ask all members in this House to join me in commending the Newfoundland and Labrador Association of Fire Services for their efforts to teach fire safety to our youngest citizens and for bringing public attention to this very important issue.

Key Messages

- As part of the difficult decisions made in Budget 2016, the Retail Sales Tax, or RST, on insurance premiums will be reintroduced. The RST on insurance premiums is being reintroduced at 15 per cent, effective July 1, 2016 and will be applied for contracts renewed or a new contract entered into on or after July 1, 2016.

- The previous administration eliminated the RST on insurance premiums in 2008. This was only one of the many measures they took that were unsustainable and have contributed to the fiscal situation we face today.

- The RST will apply to insurance premiums for property and casualty insurance policies, mainly for vehicles, homes and business locations. It does not apply to life, sickness, health, or mortgage insurance premiums.

- It is estimated that this revenue measure will generate $111 million in revenue annually.

Secondary Messages

- The tax will apply to new contracts of insurance that are effective after June 30, 2016.

- The tax will not apply to any contracts of insurance that have an effective date prior to July 1, 2016.

- Government had considered a limited retroactive application of the tax to the April 14, 2016 budget announcement for policies that are cancelled and renewed prior to July 1, 2016 as part of the one-time transitional rules for implementation of the program. Government has sided with the consumer and did not pursue that route. This is due to:
  - The additional administrative burden this would place on both the insurance companies and Government resources, including audit and legal, to administer and enforce such a program; and,
  - The degree of subjectivity that would need to be applied in determining if a cancellation and renewal was done for valid purposes or tax avoidance purposes.
Oops - wrong one!!
Will send correct one..

Subject: CBC Request: Breakdown of income number request

Hi Minister,

As discussed, here is the inquiry I have from CBC. And my proposed response. Please let me know if I am ok to respond?

Thanks,
Jennifer

CBC Inquiry – June 2, 2016
Questions 1 – 4 are Based on Total Income, and the 2014 preliminary data

1. How many people are making less than $50,000?
   298,090

2. How many people are making less than $40,000?
   258,993

3. How many people are making less than $30,000?
   211,235

4. How many people are making less than $20,000?
   149,342

5. How many people in the province are there on social assistance? What is their maximum income?

   As of April 2016 - 33,368 beneficiaries (adults and children)
   Monthly rates are available at http://www.aes.gov.nl.ca/income-support/overview.html#monthlyrates

6. How many people in the province are there on workers compensation? What is their maximum income?

   Approximately 6,000 claimants received wage-loss benefits from WorkplaceNL in 2016. Some of these are receiving partial payments as they are in a return-to-work program with modified hours so the employer pays partial wages and WorkplaceNL pays partial wage loss benefits. As well, some receive benefits for a short period of time before returning to work.

   Wage-loss benefits to injured workers are non-taxable benefits.

   Injured workers are entitled to receive wage-loss benefits of 80 per cent of their pre-injury net earnings, with gross pre-injury earnings set at a maximum compensable ceiling of $62,540 in 2016. This is the highest maximum compensable ceiling in Atlantic Canada.

   For those at the maximum, probable EI, CPP and income tax is deducted from $62,540 to reach pre-injury net earnings, then 80 per cent is applied to reach the wage-loss benefit. In addition, WorkplaceNL pays the cost of health-care services (directly to the health care provider) for the life of the injured worker’s claim.

7. How many people in the province are on a seniors pension?

   The total number of individuals receiving a private pension in 2013 was 59,060, average amount was approximately $20,000.
   There are 129,230 individuals receiving the Canada Pension Plan and 92,180 individuals receiving Old Age Security.
   An individual may be receiving income in one or more of these categories – Private Pension, Canada Pension Plan, and Old Age Security.
Hi Jennifer,

I am just following up on the request for the income breakdown.

Thanks,
Melissa
How many people are making less than $50,000?
How many people are making less than $40,000?
How many people are making less than $30,000?
How many people are making less than $20,000?
How many people in the province are there on social assistance? What is their maximum income?
How many people in the province are there on workers compensation? What is their maximum income?
How many people in the province are on a seniors pension?

I am hoping to air something on this as early as possible. If you have any questions, feel free to get in touch,

Dennis...price freeze in Labrador remains in effect for tomorrow.
Wayne

Thanks Wayne. They have the price freeze, correct?
Wayne

Will look into it.
Wayne
Hi Wayne,
Donna is interested in Zone 14 as well. Do you have any insight into Thursday's price for that zone?
Thanks,
Dennis

Cc: Andrews, Wayne; Kenway, Janelle
Subject: RE: Max Gas Price Estimate

Hi Dennis,

Further to your request, please see attached for our estimate of the maximum regulated price for regular unleaded (self serve) for the Avalon this week. Basically expecting a 1.3 cent decrease due to slightly lower NYH product prices and a stronger Cdn $ relative to US currency.

Similar to last week though, there are retail stations in St. John's (and perhaps elsewhere) priced below the current maximum of 132 cents with some stations in the east end priced at 124.9 cents yesterday for regular unleaded self serve.

I hope this helps and let me know to discuss further. I am home sick today but will check emails during the day. As well, you may contact Wayne if you need something more urgent.

Paul

Hey Paul.
Tomorrow when it's convenient I was wondering if you could make an unofficial call (based on your platts data) on Thursday's maximum price for Avalon Peninsula regular unleaded self-service. Last week was $1.32 if my memory is correct. Which lately I'm beginning to doubt.
Thanks,
Dennis

Tried to return your call...
Motorists are advised that street cleaning operations are in effect. Beginning at 12:01 am and continuing until 7:00 am, THURSDAY, JUNE 9, 2016 the following downtown streets will be swept.

ODD  BONAVENTURE AVE (Merrymeeting Rd-Empire Ave)
ODD  COOKSTOWN RD (Freshwater Rd-Lemarchant Rd)
ODD  EMPIRE AVE (Freshwater Rd-Bonaventure Ave)
EVEN  FRESHWATER RD (Harvey Rd-Empire Ave)
ODD  LEMARCHANT RD (Bus Island by Freshwater Rd)
EVEN  LONG'S HILL (Lemarchant Rd-Queen's Rd)
EVEN  MAYOR AVE (Freshwater Rd-Empire Ave)
EVEN  MERRYMEETING RD

All vehicles must be removed from the streets noted during this time period. Any vehicle left on the street during a scheduled cleaning will be ticketed. Please do not re-park your vehicle in any area that is scheduled for cleaning. The mechanical broom may make several passes on your street.

Your cooperation and patience are appreciated. Together, we can keep your neighbourhood clean.

Thanks! I'm looking into it. Also, feel free to pass my contact to Adam.

Net metering is the big one. That will enable the industry to start and jobs to be created.

Beyond that we need a green energy strategy for the province moving forward that embraces new tech and startups.

Then we need to retrain people (almost every trade has skills that will transfer) to work in the industry (solar, wind, geothermal, tidal etc.).

That's the quick answer...I can give you contact and he can enlighten you to a whole new world of possibilities...It's really awesome stuff and just starting to take off.

Let's do something!

BTW: Freshbooks is super awesome, you gotta try it:

Hey Peter,

It's [Redacted]...How are things in the PO?

I want you to have a look at something.

These guys are about to get some serious traction here in NL and I think it might be something the Ball government could really use to show leadership in the whole "diversification of the economy" thing we so desperately need.

Also if you guys need some messaging in that department for broadcast you know who to reach out to!

Hi just waiting for PO and Cab Sec approval (noting of course that we will hold delivery of this, pending whether QP etc goes ahead).

Cheers,
Hugh

Good morning

Attached and below for your approval is a Ministerial Statement which is scheduled to be read by Minister Joyce in the House tomorrow afternoon.

Thanks,
Meghan
Statement by
Honourable Eddie Joyce
Minister Responsible for Fire and Emergency Services - NL
June 9, 2016

Minister Recognizes Learn Not to Burn Program

Mr. Speaker, I rise today to recognize an important program that teaches children from preschool to Grade 3 how to prevent fires and escape a fire safely. The Learn Not to Burn program was developed by the National Fire Protection Association and has been taught in schools throughout this province for the last 16 years.

Through Budget 2016, the provincial government allocated $60,000 to the Newfoundland and Labrador Association of Fire Services to continue offering this worthwhile program. The association has also been able to leverage partnerships with other organizations to provide additional resources to participating students. This year over 10,000 students were reached through 73 Learn Not to Burn presentations.

Mr. Speaker, while this program is aimed at young children, it offers information about fire safety for people of all ages. Participants learn about crawling low in smoke; identifying exits in public places, and how to use matches and lighters safely. Students complete the program with a renewed sense of confidence in their fire safety skills.

I ask all members in this House to join me in commending the Newfoundland and Labrador Association of Fire Services for their efforts to teach fire safety to our youngest citizens and for bringing public attention to this very important issue.

**Federal funding available for deployment of infrastructure for fast-charging infrastructure for electric vehicles**

Nearly one quarter of Canada’s GHG emissions come from transportation, which is primarily fueled using carbon intensive fuels (i.e. gasoline and diesel). Early action to support fuel switching is needed in order for Canada to meet its GHG reduction goals. To that end, in Budget 2016, the Government of Canada committed to supporting the deployment of infrastructure for fast-charging infrastructure for electric vehicles, natural gas and hydrogen refueling stations.

Sent: Thursday, June 9, 2016 2:08 PM
To: DOWNTOWNSTREETCLEANING@LISTSERV.STJOHNS.CA
Subject: Downtown Street Cleaning - JUNE 10, 2016

Motorists are advised that street cleaning operations are in effect. Beginning at 12:01 am and continuing until 7:00 am, FRIDAY, JUNE 10, 2016 the following downtown streets will be swept.

- EVEN BONAVENTURE AVE (Harvey Rd-Empire Ave)
- ODD BONAVENTURE AVE (Harvey Rd-Merrymeeting Rd)
- EVEN COOKSTOWN RD (Freshwater Rd-Lemarchant Rd)
- EVEN EMPIRE AVE (Freshwater Rd-Bonaventure Ave)
- ODD FRESHWATER RD (Harvey Rd-Empire Ave)
- EVEN LEMARCHANT RD (Section with Civic Nos. 2-8)
- ODD LONG'S HILL
- ODD MAYOR AVE (Freshwater Rd-Empire Ave)
- ODD MERRYMEETING RD

All vehicles must be removed from the streets noted during this time period. Any vehicle left on the street during a scheduled cleaning will be ticketed. Please do not re-park your vehicle in any area that is scheduled for cleaning. The mechanical broom may make several passes on your street.

Your cooperation and patience are appreciated. Together, we can keep your neighbourhood clean.

Subject: Presentation to Ministerial Advisory Panel June 10 2016.pptx

Hi Minister:
This is the latest version of the presentation for Halifax. We have someone double checking the figures. The notes coincide with the slides in the Presentation.
I have already put them in a Binder for you. Let me know if you are fine with the presentation and the notes. We can update your Binder accordingly.
Thanks,
Wanda
The northern shrimp fishery stretches from the east coast of the province of Newfoundland and Labrador to Baffin Strait with shrimp fishing areas numbered 0 through 7 north to south with SFA 2 and 3 now referred to as the Eastern and Western assessment zones.

Newfoundland and Labrador is the only Province directly adjacent to SFAs 4, 5, 6 and 7. As such, the Province of Newfoundland and Labrador should be the primary beneficiaries of the resources in these waters.

From 1977 to 1996, the offshore had sole access to the Northern shrimp fishery, which was mainly carried out in the more northerly areas.

The fishery was initially developed through foreign charters and did not become Canadianized until the 1980s.

The offshore shrimp fishery in SFA 6 developed in the 1980s.

The last offshore entrant, Newfound Resources, entered the fishery in 1991, only 6 years prior to the inshore being granted temporary access.

The TAC increased from 8,200 tonnes to 37,600 tonnes from 1977 to 1996.
• At the same time as the traditional groundfish resources started to decline, shrimp resources increased. The Province advocated during this time for access to the shrimp resource for the inshore harvesters.

• The NL inshore fishery dates back to the 1600s. Settlement occurred in areas close to the inshore fishing grounds throughout the province. The first permanent settlement was established in 1610 in Cupids.

• The fishery was focused on cod, particularly along the northeast coast of the island and off the coast of Labrador, as small boat harvesters fished the northern cod stock.

• We are all aware of the 1992 closure of the northern cod fishery and the hardship it brought to fishing people, communities and the province in general. With the decline of cod and other groundfish stocks came an increase in crab and shrimp resources in the area known as 2J3KL (Northeast coast and southern Labrador).

• Inshore harvesters gained access to these shellfish species in the same areas where they had traditionally fished cod. Note that 2J3K is virtually the same geographical area as SFA 6. Inshore harvesters of the east coast of the island and southern Labrador have a centuries-old historic attachment to fishing these waters.
• The Offshore Fleet currently consists of 10 factory freezer trawlers and the inshore sector consists of 234 active licence holders which mostly utilize vessels that are less than 65 feet in length. They supply shrimp to the 10 onshore cooked and peeled processing operations.

• The offshore fleet is mobile and has access to all SFAs, while the inshore fleet is less mobile and currently has access to only SFA 6.

• The Northern Shrimp Fishery provides significant benefits to the Newfoundland and Labrador economy.

• Resource declines will continue to negatively impact employment levels and cause economic losses to communities throughout Newfoundland and Labrador.

• We need a balanced approach to how the resource declines are shared so that the viability of all stakeholders is respected.
Slide 3

- The Northern Shrimp Fishery is a significant contributor to the Newfoundland and Labrador Economy.

- In 2015, the inshore and offshore sectors:
  - Contributed $419 M in GDP;
  - Generated $196 M in labour income; and
  - Generated 2,054 person years of employment.

- This is a significant increase from GDP impacts from 2013, as the market prices for shrimp products increased significantly:
  - Cooked and peeled shrimp prices increased from $3.56 per pound based on Pisces report to $8.25 per pound based on Gemba and Canada UK partners.
  - Landed price to inshore harvesters averaged $1.58 per pound up from 60 cents.
  - Offshore prices rose to $2.40 per pound according to DFO, up from $1.68 per pound in 2013.

- Resource declines will have a negative impact on the Newfoundland and Labrador Economy. However, a balanced approach is needed that recognizes the viability and contributions of both the inshore and offshore sectors.
Science advice over the past 5 years has clearly indicated the need for quota reductions in SFA 6 and the closure of SFA 7.

Province opposed the DFO application of LIFO to quota reduction.

In 2014, as the LIFO policy continued to be applied the province established an All Party Committee on Northern Shrimp Allocations to have a unified voice advocating for a change in the policy given the drastic implications to the inshore harvesters, onshore processing activities, and various communities.

All-Party Committee’s previous recommendations to DFO were to:
1. Eliminate LIFO policy;
2. Establish a new sharing arrangement taking into account adjacency and historical attachment;
3. Conduct full annual scientific assessments of Northern Shrimp Stocks; and
4. Study the impact of climate change on shrimp and its ecosystem.
Slide 5

- Clearly the inshore sector is most impacted by the application of LIFO policy. They have lost 59% of their northern shrimp quota, which is down by more than 45,000 tonnes since 2009.

- The offshore sector has lost approximately 15% of their quota over the same period, down by just over 10,000 tonnes since 2009.
Slide 6

- The red line shows the resource threshold which was established for the offshore when the inshore fleet entered the fishery in 1997.

- The yellow bars show the total inshore allocations.

- The blues bar shows the total offshore allocations.

- The deep red bars show the community and special allocations which are virtually all harvested by the offshore sector.

- The graph demonstrates that from 1997 to 2009 the overall northern shrimp quota increased and all sectors benefitted.

- However, from 2009 to 2015 as the overall quota declined the inshore suffered by far the greatest reduction due to LIFO.

- In 2015, the inshore had just over 30,000 tonnes, similar to 1998.

- The special allocations and offshore quotas totaled about 88,000 tonnes in 2015, while in 1998 their total was approximately 53,000 tonnes, which was 66 percent more than they had access to in 1998.

- This clearly demonstrates the imbalance created by the LIFO approach to quota reductions.
The Panel is seeking input on three key questions related to the LIFO policy. I will first address the first of the three questions, “Should LIFO be continued, modified, or abolished and why?”

The All Party Committee is united in its position that LIFO policy should be abolished.

The LIFO policy is not used in other Canadian Fisheries as it is not a comprehensive sharing arrangement.

Ignores adjacency, inshore history of shrimp fleet, and historical attachment to fish resources in same area.

LIFO doesn’t recognize DFO’s decision in 2007 to convert temporary inshore licences to regular-permanent licences.

It doesn’t recognize significant investments by the inshore fleet and the level of debt due to combining. The northern shrimp resource was developed to generate economic activity.

The development of the inshore sector generated a great deal of economic activity, including an initial $200M private sector investment; up to 365 licensed inshore enterprises; up to 13 processing plants; and up to 3,500 direct jobs.
• DFO required that significant investments be made in order to participate in the shrimp fishery. Harvesters had to gear up in order to be licensed.

• New policies in 2007 encouraged harvesters to take on more debt.
Slide 8

- Ignores viability of the inshore fleet
- Fails to consider relative mobility of the fleets
- Ignores availability of shrimp to the offshore in other SFAs
- Does not consider impacts on rural adjacent communities
- The policy disproportionately impacts the inshore sector
Slide 9

• If LIFO is continued and we see a 50% reduction in SFA 6, which is quite possible given the science, the inshore would be reduced to under 10,000t, the same quota they had in 1997.

• In 1997, the offshore and special allocations totaled about 50,000 tonnes but would have about 80,000t in 2016 under LIFO, which will be harvested almost exclusively by offshore operations.

• In no way can such a discrepancy in impacts be justified, therefore LIFO must be abolished and a better, more reasonable approach to northern shrimp allocations implemented.
In September 2014, the Department of Fisheries and Aquaculture (DFA) commissioned Pisces Consulting to conduct a study on the socio-economic impacts of quota reductions on the inshore and offshore harvesting and processing sectors.

The Pisces Report shows that with continued application of LIFO, there would be a significant reduction in projected landings to the inshore sector in the mid-term (from 50,788 tonnes in 2013 to 15,087 tonnes by 2019, a reduction of 35,681 tonnes).

The report demonstrates that the impacts of continued application of LIFO include inshore sector losses of $114 million in provincial GDP, $68 million in labour income, and 868 person years of employment.

It would impact over 100 communities, displace 160 vessels, and 750 crew members in the inshore harvesting sector and displace 7 plants and over 1,000 plant workers in the inshore processing sector.

The closure of shrimp plants will also result in lower municipal taxes and fewer community services. It would also impact local businesses that derive income from companies and individuals involved in the fishery.
- The offshore would see a reduction in projected landings by 10,354 tonnes (26% reduction). The offshore sector losses would be $34 million of provincial GDP, $21 million in labour income, and 271 person years of employment.

- The offshore would see the displacement of two vessels and 108 crew members.

- Given the current shrimp prices and the value generated in the economy, the impacts on the Province will be much greater than those projected by Pisces Consulting in 2013.
Slide 11

• The Wade Locke Report, commissioned and paid for by the Canadian Association of Prawn Producers (CAPP), examines the economic analysis of the Pisces Report and refutes the findings that the application of LIFO will result in the most detrimental impacts to the provincial economy.

• Locke indicated that the offshore contributes more per tonne GDP in the offshore than inshore and downplayed the Person Years of Employment which according to Pisces was higher in the inshore in 2013.

• This discussion of who benefits from the shrimp fishery is based on certain facts and economic terms that have definitions. It is important to understand these definitions if one is to truly understand the conclusions being made about these facts and figures.

• Gross Domestic Product (GDP) speaks to where the value has been added, in terms of a geographical space or entity like Newfoundland and Labrador. It does not provide details regarding who benefits from that wealth generation only where it occurred. To understand who benefits is better understood by examining other indicators like labour income and employment for these indicators speak to who benefits and where the benefactors are located (i.e. which province or territory).
• However, the Provincial Department of Finance subsequently calculated the economic impacts of the shrimp sector to the Newfoundland and Labrador economy. The analysis indicates that the GDP per tonne impacts are greater to the inshore than to the offshore. The inshore also contributed more to labour income and person years of employment.

• Pisces Consulting Limited prepared a base case model using 2013 as the base year in order to calculate impacts of quota reductions on the inshore and offshore sectors under three different scenarios including: Model 1 - LIFO maintained, Model 2 - Inshore % Maintained, and Model 3 - a Balanced Approach (Pisces Consulting Limited, 2015). The Base Case was used as a representative base case for industry against which possible impacts of quota cuts were measured.

• As with any impact analyses, price changes (raw material and market) can have major impacts on the GDP outcomes. For example, the Department of Finance ran various estimates for 2013 onshore processing GDP based on different market prices for cooked and peeled shrimp. The results for GDP impacts for the processing sector changed significantly.
The Department of Finance assessed the economic impacts of the shrimp industry for 2015 to the Province.

- The results demonstrates that the inshore shrimp sector contributed $217 million to GDP, $105 million to labour income and 1321 persons years of employment.

- The Offshore contributed $202 million to GDP, $91 million to labour income and 733 person years of employment.

- The inshore shrimp fishery is more labour intensive and involves more local onshore processing and as a result it delivers larger local economic benefits than the offshore shrimp fishery.

- The offshore shrimp fishery is more capital intensive. Products produced using capital intensive production processes and less local labour generally produce high GDP, but significant portions of this GDP accrues to the capital owners and as a result the local employment and labour compensation impacts are lower.

- The additional GDP generated from the inshore shrimp fishery is 12% higher than that from the offshore. The inshore shrimp fishery generated approximately $105 million in labour income in 2015 which was 20% higher than the offshore and the inshore sector also generated 1,320 person years of employment which was 88% higher than the offshore sector.
Slide 13
• The above graph illustrates how GDP Impacts on a per tonne basis are sensitive to fluctuations in prices.

• The light blue bars represent the per tonne impacts of the inshore sector, while the dark blue represents the GDP impacts of the offshore sector.

• The first pair of bars show GDP Impacts per tonne for the inshore and offshore sectors based on Wade Locke’s analysis of the 2013 Pisces Baseline model.

• In the Baseline Model, the market price for cooked and peeled shrimp was $3.56 per pound, the inshore harvesters received 60 cents per pound, while the offshore sector received $1.68 per pound for shell-on product. Based on these prices, the benefits to the offshore were $540 more per tonne compared to the inshore sector as noted by Wade Locke Consulting, in his analysis for CAPP.

• The next two pairs of bars represent the Department of Finance’s analysis of the economic impacts in 2013 based on two different market prices for cooked and peeled shrimp. Here the prices to inshore harvesters and the offshore sector are held constant.

• As you can see from the chart, the results are sensitive to the price changes and at $5.19 per pound for cooked and peeled shrimp (which was the Urner Barry recorded
price in 2013), the GDP per tonne changes in favour of the inshore sector by $502.

- The Department of Finance further completed the economic analysis for 2015, which is illustrated in the last pair of bars. Shrimp prices have increased substantially between 2013 and 2015, and the effects on GDP per tonne for both sectors have increased significantly.

- Given the relative increases in raw material prices to the inshore harvesters and cooked and peeled market prices, in comparison to the price increase for shell-on shrimp, the GDP per tonne to the inshore sector was $630 greater than the offshore.
Slide 14

• These are long standing principles in fisheries management many are recognized internationally.

• Adjacency has been defined for northern shrimp as those who live closest to the resource or have traditionally fished in those waters should have priority access. Six of the offshore licence holders are not adjacent to any of the shrimp fishing areas.

• In earlier slides we have demonstrated that NL inshore harvesters have fished cod in the waters which equate to SFA 6 for centuries and therefore they have the longest historic attachment to these waters, but LIFO would have this fleet removed from the fishery first.

• The fact that inshore vessels do not have vessels capable of fishing shrimp in northern areas and landing it to the inshore plants must be considered in the allocation principles moving forward. Therefore, the inshore viability is directly linked to their access to SFA 6.

• The aboriginal and special allocations provide important revenue and economic development to adjacent communities in Nunavut, Labrador, and northern Newfoundland, many of these would be the first to be removed under LIFO, we do not agree that this should occur.
• There is no question from our economic studies that allocations to the inshore provides greater employment, yet LIFO favours the offshore.

• Also important, the principles of adjacency, historical attachment, fleet viability, aboriginal and community participation, economic development, and maximizing employment reflect the sharing arrangement principles for northern shrimp announced in 1997.
Slide 15

• The offshore should be moved out of SFA 6. They have access to all other SFAs and are more mobile. This will still continue to provide the Offshore fleet with allocations well in excess to their 1997 level.

• This is a significant change but note that the resource has and looks to continue to decline in SFA 6 and this is the only area which the inshore can fish.

• Similar decisions have been made where one sector or fleet has had to move geographically in order for new sharing arrangements to be implemented.

• Those that currently hold special or community allocations in the fishery should remain in the fishery. All are adjacent to the northern shrimp resource and with the exception of the Nunatsiavut Government all have held allocations since at least 2003.

• Amongst offshore Licence holders, some have a strong social agenda which accrues major benefits to adjacent communities which should also be recognized by the Panel.
An independent study of an access dispute between NL based inshore scallop fleet and the offshore on St. Pierre Bank was conducted by David Hooley Q.C. in 2005.

The Hooley report recommended that the inshore fleet be provided exclusive access to the northern scallop bed which was closest to shore and more accessible to inshore vessels.

The offshore fleet received exclusive access to the more distant scallop beds. This recommendation was implemented and accepted by DFO.
Slide 17

- Similar in the expansion of the snow crab fishery in NL, where larger inshore crab vessels were moved to further offshore areas and smaller inshore vessels were given exclusive access to the bays and fishing grounds inside 25 miles.

- Again decision based on accessibility of vessels to fishing areas and geographical separation of fleets.
Slide 18

- Based on the All Party Committee's recommendation, the following graph shows a new equitable sharing arrangement.

- Again considering a potential 50% reduction in SFA 6, this proposed sharing arrangement compared to LIFO distributes the impacts of the declining resource to all participants rather than almost exclusively to the inshore sector.

- In this arrangement, the Offshore retains more shrimp than when inshore entered fishery in 1997, plus they have access to additional amounts of community and special allocations.
Slide 19

• The proposed changes achieves a more balanced approach.

• Inshore fishery maintained in SFA 6.

• Reduced impact for onshore plants and associated communities.

• Offshore viability maintained through access to quota to areas north of SFA 6
Slide 20

- Special/Community/Aboriginal allocation holders provided greater stability through permanent shares.

- Preserves ability of the adjacent entities of the province to continue with needed social and economic development initiatives.
Presentation to Ministerial Advisory Panel
All-Party Committee on Northern Shrimp Allocations
June 10, 2016
- Newfoundland and Labrador Adjacent to SFAs 4, 5, 6 and 7
- Offshore access to all SFAs
- Inshore access to SFAs 6 & 7
- SFA 7 closed 2015
The Northern Shrimp Fishery is a significant contributor to the Newfoundland and Labrador Economy.

In 2015, the inshore and offshore sectors:
- Contributed $419 M in GDP;
- Generated $196 M in labour income; and
- Generated 2,054 person years of employment.

Resource declines will have a negative impact.

Need a balanced approach that recognizes the viability and contributions of both inshore and offshore sectors.
• Recognized the need for quota reductions
• Opposed to application of the LIFO policy
• 2014: Province established All-Party Committee on Northern Shrimp Allocations:
  • Eliminate LIFO policy;
  • Establish a new sharing arrangement taking into account adjacency and historical attachment;
  • Conduct full annual scientific assessments of Northern Shrimp Stocks; and
  • Study the impact of climate change on shrimp and its ecosystem.
Offshore: 73,700t to 62,900t (-14.7%)

Community: 28,000t to 26,000t (-7.1%)

Inshore: 77,000t to 31,600t (-59%)
Northern Shrimp Quota by Fleet Sector 1996 to 2015

Northern Shrimp Quota by Fleet Sector 1996 to 2015

APC Position – Abolish because...

- LIFO not used in other Canadian Fisheries
- Ignores adjacency and inshore history
- Doesn’t recognize DFO 2007 decision to make inshore licences regular permanent.
- Doesn’t recognize significant investments by the inshore sector and the level of reliance on access to shrimp.
• Ignores viability of the inshore fleet
• Fails to consider relative mobility of the fleets
• Ignores availability of shrimp to the offshore in other SFAs
• Does not consider impacts on rural adjacent communities
• Disproportionately impacts inshore sector
Northern Shrimp Quota by Fleet Sector 1996 to 2016 under LIFO

*Assuming 50% reduction in SFA 6
Pisces Report – Based on 2013 Data

**NL- Inshore**
- Projected reductions of 35,681 t
- GDP Loss $114 million
- Labour Income Loss $68 million
- Employment - Loss of 868 person Years
- Impact 100 communities, displace 160 vessels, 750 crew, 7 plants and 1000 plant workers
- Lower municipal taxes and less services
- Other negative spin off impacts.

**NL- Offshore**
- Projected reductions of 10,354 t
- GDP Loss $34 million
- Labour Income Loss $21 million
- Employment – Loss of 271 Person Years
- Displace 2 vessels and 108 crew
- Wade Locke Report - Commissioned and Paid by CAPP
  - Critiqued and refuted the Pisces Report
  - Argued that the offshore contributes more GDP/tonne than the inshore sector.
  - Recommended that the Province re-do the analysis
• Department of Finance Calculated the Impacts of the Shrimp Resource to Newfoundland and Labrador by Sector utilizing more recent data.

Principles

• Adjacency
• Historical Attachment
• Fleet Mobility and Viability
• Aboriginal and Community Participation
• Economic Development
• Maximize Employment
What are the elements of a new access and allocation regime for the Northern Shrimp Fishery?

- Remove Offshore from SFA 6
  
  Other Examples:
  
  Sea Scallop on St. Pierre Bank
  Snow Crab in NL

- Permanent Percentage Shares for All Current Special/Community Allocation Holders

- Decisions respect Land Claim Agreements

- Consider social benefits of offshore licence holders.
• Access dispute on St. Pierre Bank
• 2005 Hooley report:
  – NL Inshore be provided exclusive access to northern bed (more adjacent).
  – Offshore exclusive access to middle and southern bed.
• Recommendation accepted and implemented by DFO
• Near shore fishery developed by larger inshore vessels in 1970s
• Temporary access to smaller inshore vessels in 1995
• Temporary permits converted to regular commercial licences in 2003
• Smaller vessels provided exclusive access to bays and nearshore areas.
• Larger vessel access moved further offshore
Northern Shrimp Quota by Fleet Sector 1996 to 2016
Inshore Harvesting Only in SFA6

Source: DFO 1996-2015
* Assuming 50% reduction in SFA 6
• Achieves more balanced approach
• Inshore fishery maintained in SFA 6.
• Reduced impact for onshore plants and associated communities
• Offshore viability maintained through continued access to areas north of SFA 6
• Special/Community/Aboriginal allocation holders provided greater stability through permanent shares

• Preserves ability of the adjacent entities of the province to continue with needed social and economic development initiatives.
Thank you
Commission for Environmental Cooperation's 2016 Regular Session of Council postponed

New date for Council Session and Joint Public Advisory Committee meeting to be announced

Montreal, 7 June 2016—Due to unforeseen circumstances, the 23rd Regular Session of the Council of the Commission for Environmental Cooperation (CEC) and public meeting of the CEC's Joint Public Advisory Committee (JPAC), scheduled for 14–15
June 2016 in Tuxtla Gutiérrez, Chiapas, Mexico, have been postponed to a later date that will be announced in the coming weeks.

The CEC North American Youth Photo Challenge, which closed on 1 June 2016, will continue as scheduled. The three contest winners and six runners-up will be announced publicly on 13 June 2016. Photos submitted by the winners, runners-up and others will be available for viewing on the CEC website.

Keep up-to-date with the CEC’s work by following @CECweb on Twitter, like us on Facebook at www.facebook.com/cecconnect and check our website www.cec.org.

About the CEC

The Commission for Environmental Cooperation (CEC) is an intergovernmental organization that supports the cooperative environmental agenda of Canada, Mexico and the United States to green North America’s economy, address climate change by promoting a low-carbon economy, and protect its environment and the health of its citizens. The CEC is composed of three bodies: a Council, representing the governments of the three member countries, a Joint Public Advisory Committee (JPAC) that advises the Council and serves as a liaison with the public, and a Secretariat that supports the Council and JPAC and prepares independent reports. The CEC brings together governments, civil society, and businesses to develop innovative North American solutions to global environmental challenges. Find out more at www.cec.org.

CEC initiatives are undertaken with the financial support of the Government of Canada, through Environment and Climate Change Canada, the Government of the United States of America, through the Environmental Protection Agency; and the Government of the United States of Mexico, through the Secretaría de Medio Ambiente y Recursos Naturales.

Subject: Making the Case for a New 3 billion dollar SR&ED Tax Credit Authority: Canada’s Innovation Rankings Jeopardized

CANADIAN ADVANCED TECHNOLOGY ALLIANCE

Making the Case for a New 3 billion dollar SR&ED Tax Credit Authority: Canada’s Innovation Rankings Jeopardized

"Canada is not doing as well as others in international evaluations of R&D investment and innovation success. Canadians are not getting what this country needs out of this (SR&ED) program." (CATAAlliance) Ottawa, ON... CATAAlliance, Canada’s One Voice for Innovation Lobby Group today has tabled a SR&ED Game Plan to address major deficiencies in Canada’s 3 billion dollar SR&ED tax incentive program.
CATA Sr. VP of Advocacy, Russ Roberts, commented, "$3 billion plus is currently being spent in a program where there is sufficient uncertainty about the credits that firms are being advised to significantly discount them when making decisions on investment."

He added, "Experience suggests that a significant portion of ICT claims are retrospective and only windfall earnings and other countries like the UK appear to be achieving much more for less with their programs."

The SR&ED Game Plan calls for the creation of an Independent Authority to determine eligibility for tax credit claims associated with the ICT sector and then sets out key responsibilities of this new Authority.

Responsibilities of the proposed Independent Authority

- Review both refundable and non-refundable claims for SR&ED tax credits in the sector to determine if they meet definitions and are reasonably supported;
- Issue certificates of eligibility at the concept phase;
- Monitor progress and do onsite reviews as necessary;
- Provide truly independent and timely redress processes;
- Review claims under the new refundable labour based "digital innovation" tax credit we propose for outside the SR&ED program, as described below;
- Review claims under the proposed new "innovation box" tax credit aimed at promoting the commercialization of successful innovations;
- Where definitions are met and it is appropriate, issue certificates of eligibility upfront so claimants file at the concept phase of the work. The CRA would still provide financial reviews;
- Evaluate the new "digital innovation" and "innovation box" tax credits for effectiveness and ease of use to determine what modifications could improve the concepts; and,
- Evaluate the effectiveness of various tax credits available to companies in the ICT sector, compared with international best practices.

CATA CEO, John Reid, concluded, "After three decades of continuous advocacy by the business community for improvement in the SR&ED program, serious, longstanding issues with the SR&ED program persist. Our innovation driven community is discouraged and many are doubters. If these issues are not fully addressed now we reduce our prospects for becoming a top ranking competitive innovation nation success."

++ Action:

The SR&ED Game Plan (9 pages) is linked to key research documents to support recommendations and as a basis for a cross Canada advocacy Campaign now being deployed.

Executive CATA members with an interest in this subject area can request a copy by contacting CATA CEO, John Reid at jreid@cata.ca and also discuss how best to engage in advancing advocacy.

From their EPR:

The approval of the proposed resource access road will provide Eagleridge with safe, efficient, environmentally friendly and reliable daily access to potential exploration target sites in and around the Big Triangle Pond exploration project area. The reason and rationale for the undertaking is not intended for any potential commercial production during exploration activities or in the future. Only if exploration activities have ceased and it has been determined that there is a feasible economic mineral deposit would a mining lease and further development approvals be sought. This process would have to take place over an extended period of time spanning years. Only after such an arduous process was thoughtfully and meticulously carried out and completed, with various other governmental standards and regulations being met, would a company begin to consider a commercial production scenario. The exploration industry is characterized by high-risk venture capital investment with little chance of a return on investment.

Only in very few cases are exploration companies successful in finding commercially viable economic mineral deposits.

Subject: Investments
DEBT EXPENSES

2016/17 debt expense: $982M

2016/17 Total government expenses: $8.48 Billion

% of budget for debt expense: 11.6%

- Debt expense per day: $2.7M/Day
- Debt expense per week: $18.9M/Week
- Debt expense per month: $81.9M/month

We are spending more on debt expense this year than we are on the following departmental budgets combined (Below totals $977.8M)

- Municipal Affairs – $232.2M
- Justice and Public Safety - $258.1M
- Transportation and Works - $443.7M
- Natural Resources - $43.9M

We are spending more on debt expense this year than we are on the following departmental budgets combined (Below totals $952.9M)

- Transportation and Works - $443.7M
- Child, Youth and Family Services - $152.5M
- Business, Tour, Culture and Rural Development - $100.8M
- Forestry and Agrifoods - $73.5M
- Seniors, Wellness and Social Development – $21.6M
- Environment and Conservation - $58.0M
- Natural Resources - $43.9M
- Fisheries and Aquaculture - $14.7M
- Service NL - $39.0M
- Fire and Emergency Services - $5.2M
EDUCATION

2016/17 Budget: $891 Million
Total government expenses: $8.48 Billion
% of budget for Education: 10.5%

Larger Education Investments

$13M annually for Full Day K incl. 142 teaching positions and increased student assistants

$119M to support inclusive education

$38.3M to the 10 year child care strategy, Caring for our Future

$400K to hold French and English school board elections

$106M for school infrastructure – school construction, extensions, repairs and maintenance

$63M for MUN and College of North Atlantic of which $5.1M to support low tuition

Specific Infrastructure in education:

Mount Pearl - St. Peter’s Junior High extension (Munden Drive)- $5.6M
Mount Pearl - St Peter’s Primary Ext/Reno (Ashford Drive) - $3.7M
Paradise – New K-6 School (Octogon Pond) $4.7M
Portugal Cove-St Philips New Gr 5-9 School - $15M
Torbay – New Grade 5 -7 School $13M
CBS – New K-7 school - $16.1M
Gander – New Gr 4-6 School - $11.1M
HEALTH CARE

2016/17 Budget: 3.03 Billion

Total government expenses: 8.48 Billion

% of budget for Healthcare: 35.7%

Larger Health Care Investments

$2.6M – for new drug therapies

$3.5M – for enhanced care needs in personal care homes

$14.75M – Health Sciences Centre Electrical Substation (new substation required – HSC and MUN serviced by old substation built 60 years ago); Emergency Generators (needed bc back up capacity is at max at HSC already; in addition - PET scanner coming online in the fall)

$300K for Seniors Resource Centre to enhance its information and referral system

$5.9M – Community based organizations and agencies that deliver programs and services encouraging healthy living

$1.84M - recreation, physical activity and wellness

$1M to support healthy living and increased physical activity initiatives in school aged children

$3.1M – Carbonear Long Term Care

$2.6M – St. John’s PET Scanner
$2.5M – New Waterford Hospital planning
$8.5M – New Western Memorial planning
$2M – Long term care planning in Central and Western Health
$350K – new and expanded svs to help ppl quit smoking
MUNICIPAL AFFAIRS

2016/17 departmental expenses: $232.2M

2016/17 Infrastructure expenses alone: $114M

Four (4) year (2016-2019) new and existing municipal infrastructure projects - provincial government investment alone: $344.1M. Add in federal funding and municipal contributions: Total $625M and 980 FTE per year

2016/17 Municipal Operating Grants - $22M

Improvements to municipal buildings - $5M

Individual projects for 2016/17

- Paradise - Widening of topsail road $4M
- Mt. pearl - Commonwealth Avenue street improvements $4m
- Donovan's street improvements $2.8M
- Topsail Rd/Blackmarsh Road intersection $2.9M
SENIORS & LOW INCOME

To ensure the tax burden is lessened on the most vulnerable including low income seniors, individuals, families and persons with disabilities, the Seniors’ Benefit was enhanced and the Newfoundland and Labrador Income Supplement was introduced

- Newfoundland and Labrador Income Supplement $63.7M
- Seniors’ benefit – Enhances the existing Seniors Benefit $12.7M
  ○ Replaces the Home Heating Rebate and the HST Credit

Total $76.4 M

$3.5M to support placement of select individuals with enhanced care needs into personal care homes

$250K to create a new Seniors Advocate office with an annual budget of $500K beginning in 2016-17

$300K for the Seniors’ Resource Centre to enhance its information and referral system

$300K for age-friendly transportation services

$100K to support continued development of age-friendly communities throughout NL
TRANSPORTATION & WORKS

2016/17 Budget Expense: $443.7M
2016/17 infrastructure budget only: $224.6M

Individual projects

Team Gushue Highway Extension $23.1M
Wharves and Ferry terminal renovations $8.13M
Sir Robert Bond Bridge, Exploits River $15.7M
Heavy equipment replacement $5M
  (All of this is for snow plows)
Provincial roads program $62M
Motorists are advised that street cleaning operations are in effect. Beginning at 12:01 am and continuing until 7:00 am, MONDAY, JUNE 13, 2016 the following downtown streets will be swept:

EVEN  BARTER'S HILL
ODD   BARTER'S HILL (Casey St-New Gower St)
ODD   CASEY ST
EVEN  CASHIN AVE (Campbell Ave-Empire Ave)
ODD   CASHIN AVE (Pennywell Rd-Empire Ave)
BOTH  EMPIRE AVE (Cashin Ave-Freshwater Ave)
ODD   GOLF AVE
EVEN  PATRICK ST
EVEN  PENNYWELL RD (Cashin Ave-Prince of Wales St)
ODD   PENNYWELL RD (Cashin Ave-Golf Ave)
EVEN  PRINCE OF WALES ST
EVEN  ST. CLARE AVE (Campbell Ave-Golf Ave)

All vehicles must be removed from the streets noted during this time period. Any vehicle left on the street during a scheduled cleaning will be ticketed. Please do not re-park your vehicle in any area that is scheduled for cleaning. The mechanical broom may make several passes on your street.

Your cooperation and patience are appreciated. Together, we can keep your neighbourhood clean.

Want to help build a better online Canada? This is your chance!
We are now accepting applications from professionals with governance experience interested in joining CIRA's board of directors.

The deadline to submit your application is 2 p.m. ET, June 20, 2016.

YOUR ROLE AS A BOARD MEMBER

The role of CIRA board directors is to help foster the development of .CA. They provide strategic direction and oversight for the .CA domain name registry to help guide CIRA as it fulfills its mandate to manage the .CA domain as a key public resource for the benefit of all Canadians. As well, the board plays a key role in helping build a better online Canada through initiatives such as the community investment program and the development of internet exchange points.

DESIZED SKILLS AND EXPERIENCE

We are seeking Canadians who have:

- Previous board experience with solid understanding of board governance (mandatory for all applicants);
- Finance, accounting and audit experience;
- Investment management and performance oversight experience;
- Experience in relevant industry sectors (domain name industry and internet infrastructure experience);
- A passion for Canada's Internet.

For additional information about CIRA's board election process, please visit cira.ca/election.

About CIRA

The Canadian Internet Registration Authority (CIRA) is the organization that manages Canada's .CA domain name registry, develops and implements policies that support Canada's Internet community and represents the .CA registry internationally.

From: Canadian Gas Association [mailto:news=cga.ca@mail92.atl151.rsgsv.net] On Behalf Of Canadian Gas Association
Sent: Thursday, June 09, 2016 1:23 PM
To: Premier,
Subject: CGA says customers, investors need certainty around affordable energy choice for the long-term.

June 9, 2016

CGA says customers, investors need certainty around affordable energy choice for the long-term. More natural gas initiatives would lower costs for Ontarians.

Ottawa – June 8, 2016 The Canadian Gas Association says the Ontario Climate Action Plan released today does not state that natural gas use will be phased out
by 2030 – an improvement on a leaked earlier draft of the plan. However, it leaves uncertain whether there remains any such phase out strategy for the longer term.

"It will be essential for the Ontario Government to work closely with industry on possible changes to the building codes and new concepts such as a 'net zero carbon home'. Consultation with the sector prior to January 1, 2017 will be critical to clarify the future role of natural gas in order to provide the investment certainty required by consumers, businesses and gas utilities," said Timothy M. Egan, President and CEO of the Canadian Gas Association.

Gas utilities, and the use of natural gas, have again and again been the most cost-effective means to reduce emissions.

"We recognize the government's investment in renewable natural gas and natural gas for transportation in this plan. The cost per tonne of reduced emissions with these initiatives is very low by comparison to other options, demonstrating that gas innovation should be more prominently featured. Ontario's gas utilities have been leaders in driving energy efficiency and reducing emissions while keeping energy affordable and this leadership should be built upon," noted Egan.

"Affordability remains an ongoing concern" added Egan. "Natural gas rate-payers will now be asked to foot the bill for billions of dollars over the next several years to underwrite a range of initiatives. We want to ensure that what is delivered back to them is the most cost effective option to build on their existing natural gas use."

"Ontario's industry, our commercial institutions, our homeowners have watched electricity prices rise steadily for too long: if government is now about to do the same with natural gas costs, without clear benefits, we will lose opportunity, jobs, and the sustainable future we all desire."
About CGA
The Canadian Gas Association (CGA) is the voice of Canada’s natural gas distribution industry and its members are distribution companies, transmission companies, equipment manufacturers and other service providers. Natural gas has a central place in Canada’s energy mix meeting over 30 per cent of the country’s energy needs. Today over 6.6 million customers representing well over 20 million Canadians rely on natural gas for heat and power in homes, apartments, buildings, businesses, hospitals and schools.

L’ACG dit que les clients et investisseurs ont besoin de certitude sur les choix énergétiques abordables pour le long terme. D’autres initiatives en matière de gaz naturel permettraient de réduire les coûts pour les Ontariens.

Ottawa - 8 juin 2016 L’Association canadienne du gaz dit que le plan d’action
pour le climat publié aujourd’hui par le gouvernement ontarien ne précise pas que l’utilisation du gaz naturel sera éliminée d’ici 2030 – une amélioration par rapport à une version précédente qui avait fait l’objet d’une fuite dans les médias. On reste toutefois dans l’incertitude quant à une éventuelle stratégie d’élimination à plus long terme.

« Il sera essentiel pour le gouvernement de l’Ontario de travailler en étroite collaboration avec l’industrie sur la modification éventuelle des codes du bâtiment et de nouveaux concepts comme une “maison zéro carbone”. La consultation avec le secteur, avant le 1er janvier 2017, sera indispensable pour préciser le rôle futur du gaz naturel et fournir la certitude requise par les consommateurs, les entreprises et les services publics de gaz quant à leurs investissements », a déclaré Timothy M. Egan, président et chef de la direction de l’Association canadienne du gaz.

Les services de gaz, et l’utilisation du gaz naturel, ont à maintes reprises prouvés qu’ils étaient les moyens les plus rentables de réduire les émissions.

« Nous saluons l’investissement du gouvernement dans le gaz naturel renouvelable et le gaz naturel pour le transport en vertu de ce nouveau plan. Le coût par tonne d’émissions réduites par ces initiatives est très faible par rapport à d’autres options, ce qui démontre que l’innovation en matière de gaz devrait être mieux mise à profit. Les services publics de gaz de l’Ontario ont été des chefs de file dans la promotion de l’efficacité énergétique et la réduction des émissions tout en maintenant des tarifs d’énergie abordables. On devrait miser sur ce leadership », a noté M. Egan.

« L’abordabilité demeure une préoccupation constante, a ajouté M. Egan. Les abonnés au gaz naturel vont se faire demander de payer la note au cours des prochaines années pour des milliards de dollars destinés à toute une gamme d’initiatives. Nous voulons nous assurer qu’ils obtiendront en retour l’option la plus rentable pour miser sur leur consommation actuelle de gaz naturel. »
« Les industries de l'Ontario, ses commerces et ses propriétaires de maison voient les tarifs d'électricité augmenter depuis trop longtemps : si le gouvernement est maintenant sur le point de faire la même chose avec les tarifs de gaz naturel, sans avantages évidents, nous allons perdre des chances, des emplois et l'avenir durable que nous désirons tous. »

L'ACG
L'Association canadienne du gaz (ACG) est le porte-parole de l'industrie de distribution du gaz naturel du Canada. Ses membres sont des entreprises de distribution et de transport, des fabricants d'équipement et d'autres fournisseurs de services. Le gaz naturel occupe une place centrale dans l'approvisionnement énergétique du Canada dont il comble 30 % des besoins. Aujourd'hui, plus de 6,6 millions d'abonnés représentant plus de la moitié de la population canadienne comptent sur le gaz naturel pour le chauffage et l'alimentation en énergie des maisons, appartements, immeubles, entreprises écoles et hôpitaux.

Please do not reply to this email as this account is not monitored outside of regular working hours. Thank you.
Good evening,

After two days of blockades disrupting operations at the Muskrat Falls site in Labrador, Nalcor was granted an injunction against the individuals responsible for the blockade by the Supreme Court of NL late this afternoon. The Sheriff served the individuals responsible for the blockade around 5:30 or so NST. The individuals did not remove the blockade or vacate the site. We are in the process of seeking subsequent action with the Courts to allow the RCMP to enforce the injunction.

Night shift is continuing as normal for Astaldi, Andritz and Barnard for all camp residents. Astaldi issued a notification that there was no transport for local workers to the site because the blockade had not ceased in time for the night shift.

The EOC continues to monitor the situation. A further update will be provided should the situation change.

Thanks
Karen

As of 1:00 p.m., there is no change in the situation at the Muskrat Falls site in Labrador. The blockade remains in place at the main gate, and inbound traffic continues to be blocked from entering the site.

A further update will be provided if the situation changes.

thanks,
Janine

------- Forwarded by Janine McCarthy/NLHydro on 06/10/2016 01:19 PM -------

As of 8:30 a.m. this morning, the situation with the blockade remains largely unchanged. A few individuals continue to have the blockade in place at the main gate, blocking all inbound traffic from entering the site.

Astaldi issued a notice to their workers early this morning notifying them that the dayshift has been cancelled for local workers due to the blockade. Camp residents will report to work as per their regular scheduled time. Construction continues at the Muskrat Falls site.

The EOC team at Muskrat Falls is working with contractors to facilitate planning for night-shift operations. The LCP EOC team in St. John’s is providing support, as required.

A further update will be provided after the next update at noon (NF time).

Thanks,
Janine

Janine McCarthy
As of 7:00 p.m. NF time, approximately 8 individuals have established a blockade preventing inbound traffic at the main gate to the Muskrat Falls construction site. The individuals are allowing outbound traffic to leave. The individuals have 2-3 vehicles at the site currently.

Construction is continuing at Muskrat Falls. Day shift workers from the local area were able to leave today, however local night shift workers are being impacted by the protest activity as they are unable to access the site. The EOC team at Muskrat Falls is working with contractors to facilitate day-shift operations for tomorrow.

The individuals have indicated that they're prepared to continue the blockade for some time and that their overall intention is to attempt to shut down construction at the site.

RCMP remain at the site and our emergency team at Muskrat Falls continues to monitor and manage the situation on the ground.

We will provide a further update in the morning.

Provincial Government Celebrates Environment Week

Mr. Speaker, I am pleased to rise in this House today to recognize June 5-11 as Canadian Environment Week.

Mr. Speaker, a healthy environment is essential to the physical, social and economic well-being of all Newfoundlanders and Labradorians.

The Government of Newfoundland and Labrador is firmly committed to protecting the environment and my department is undertaking valuable work on many fronts.

Our comprehensive approach to the challenges facing our environment today includes action to reduce greenhouse gas emissions, protect natural areas and wetlands, and ensure the sustainability of our flora and fauna, while finding opportunities to capitalize on the emerging green economy.

Mr. Speaker, I know that the people of Newfoundland and Labrador stand behind us in our efforts to protect the environment, and in fact, this morning I met some very inspiring young people who will carry that commitment into the future.

The students at Beachy Cove Elementary School in Portugal Cove-St. Philips, are future leaders in the field of environmental stewardship, and this morning we signed a proclamation together to launch Canadian Environment Week.

Mr. Speaker, I invite all of my colleagues here in this Honourable House to join me in celebrating Canadian Environment Week.
Thank You.
Received your earlier message on above. I understand from Bruce H Mr. Wells has outlined resource needs. We should discuss early this week.

Minister Recognizes National Cancer Survivors’ Day in Newfoundland and Labrador

Mr. Speaker, I am pleased to rise in this Honourable House to recognize that yesterday was National Cancer Survivors Day. With advances in cancer prevention, early detection, and treatment more people are recovering and living longer lives following a cancer diagnosis.

Cancer survivors and their families joined representatives of Eastern Health, the Dr. H. Bliss Murphy Cancer Care Foundation, the Canadian Cancer Society, Young Adult Cancer Canada and others at a community walk to celebrate the day.

Our government continues its work in close collaboration with the regional health authorities, school districts and community partners to support programs and policies aimed at prevention. This includes smoking cessation programs, sun safety campaigns and other healthy living initiatives under the Cancer Control Policy Framework. Eastern Health’s Cancer Transitions: Moving Beyond Treatment Program and the Canadian Cancer Society’s Defy Cancer Program are two more examples of meaningful efforts to support survivors.

National Cancer Survivors Day is a celebration of life. It is an opportunity for survivors to celebrate and acknowledge those who have supported them along the way.

Thank you, Mr. Speaker.

- I commend your government for listening and holding a National Inquiry into this important issue.
- As Minister of Aboriginal Affairs, I will lead the Government of Newfoundland and Labrador's participation in the National Inquiry, and the implementation of the resulting recommendations which are applicable to the Provincial Government.
- Our government has already engaged provincial Aboriginal governments and organizations to determine their views and objectives for the National Inquiry.
- We engaged Miawpukek First Nation, Nunatsiavut Government, the two Innu First Nations, the NunatuKavut Community Council and the Qalipu Mi'Kmaq as well as the Newfoundland Native Women’s Association and the Newfoundland Aboriginal Women’s Network.
- All participants were emphatic in expressing the need for the Inquiry to travel to Aboriginal communities to hear testimony from anyone who would like to participate and for support to be provided to participants before, during, and after their participation in the inquiry.
- There was also strong agreement with the need for immediate action, in addition to awaiting the outcomes from the inquiry process.
Minister Recognizes National Cancer Survivors’ Day in Newfoundland and Labrador

Mr. Speaker, I am pleased to rise in this Honourable House to recognize that yesterday was National Cancer Survivors Day. With advances in cancer prevention, early detection, and treatment more people are recovering and living longer lives following a cancer diagnosis.

Cancer survivors and their families joined representatives of Eastern Health, the Dr. H. Bliss Murphy Cancer Care Foundation, the Canadian Cancer Society, Young Adult Cancer Canada and others at a community walk to celebrate the day.

Our government continues its work in close collaboration with the regional health authorities, school districts and community partners to support programs and policies aimed at prevention. This includes smoking cessation programs, sun safety campaigns and other healthy living initiatives under the Cancer Control Policy Framework. Eastern Health’s Cancer Transitions: Moving Beyond Treatment Program and the Canadian Cancer Society’s Defy Cancer Program are two more examples of meaningful efforts to support survivors.
National Cancer Survivors Day is a celebration of life. It is an opportunity for survivors to celebrate and acknowledge those who have supported them along the way.

Thank you, Mr. Speaker.

Our understanding (based on most recent conversations with officials) is that she wants to look at the letter, talk to PQ and then talk to our Premier.

Sent from my BlackBerry 10 smartphone on the Bell network.

I am told that Premier Wynne's office has attempted to arrange a teleconference with our Premier but am not sure if the time has yet been confirmed.

Sean

Minister Recognizes June as Seniors Month in Newfoundland and Labrador

Mr. Speaker, I rise today to recognize June as Seniors Month in Newfoundland and Labrador. It is a time to show our appreciation for the many contributions older adults have made, and continue to make, in our province.

My mandate from the Premier includes the development of legislation to create a Seniors’ Advocate Office. I am pleased to say that Budget 2016 provides funding to establish this office. It will be independent of government, report to the House of Assembly and be a strong voice for seniors and their families as we look to address system-wide issues which impact older adults.

Budget 2016 provides $63.7 million for the Newfoundland and Labrador Income Supplement to help eligible low income seniors, individuals, families, and persons with disabilities. We have also increased the Low Income Seniors’ Benefit by $12.7 million in Budget 2016 bringing the total annualized investment in the seniors’ benefit to $57.9 million. Many seniors in our province will benefit from these two programs.

We continue to support seniors to live healthy, independent lives while participating fully in their communities.

I ask all members to join me in celebrating June as Seniors Month and recognizing the many contributions of seniors throughout our province.

Spoke to Premier. He had spoken to Premier Wynn in Winnipeg recently and chatted about AIT and the energy issue. Premier has no problem releasing letter to Premier Wynn. Also, Premier wants to have the telephone call with Premier Wynn (they had agreed to this in Winnipeg) so the call should be arranged...for a time that fits, ie. avoid QP.

MEETING OF THE FEDERAL/PROVINCIAL/ TERRITORIAL/INDIGENOUS FORUM

LOGISTICS INFORMATION NOTE

1. LOCATION, DATE AND TIME

This conference will be held on June 10, 2016 in the Pinnacle Room located on the penthouse level of the Delta Ottawa City Centre, 101 Lyon Street North, Ottawa, ON K1R 5T9, telephone: (613) 237-3600 or (888) 890-3222.

The conference is scheduled as follows:

Date: June 10, 2016 from 8:30 AM to 3:30 PM

Press Conference from 3:30 PM to 4:00 PM (Ballroom A)

A private dinner for Ministers and Leaders as well as a separate private dinner for Senior Officials will take place during the evening of June 9th.

The private dinner of Ministers and Leaders will be held in the Chaudière Room. Ministers and Leaders may be joined by 1-2 co-chair officials to act in a note-taking capacity.

The private dinner of Senior Officials will be held in the Capitale Room.

Further details on timing of private dinners will be shared in the near future.

2. REGISTRATION

Please ensure all members of your delegation planning to attend the conference have registered by sharing delegation details with Rose McConville at Rose_McConville@gov.nt.ca no later than June 6, 2016.

The meeting area will only be open to those with conference identification. Access to the room will be controlled by the use of special admission passes.

Admission passes will be available from 3:00 PM to 6:00 PM on June 9th in the main lobby of the Delta Ottawa City Centre and from 7:30 AM to 8:30 AM on June 10th near the entrance of Ballroom A of the Delta Ottawa City Centre.

3. DELEGATIONS

Delegations are asked to limit their numbers to 5 per delegation.

Outside of the main meeting table, seating inside the Pinnacle Room may be theatre style.
MEETING OF THE FEDERAL/PROVINCIAL/TERRITORIAL/INDIGENOUS FORUM

LOGISTICS INFORMATION NOTE

4. ACCOMMODATIONS

A block of rooms has been reserved at the Delta Ottawa City Centre (Deluxe Room $189/night, Club Room $239/night). Participants are invited to make reservations through the following online reservation process or by dialing (888) 236-2427 and identifying the group name Federal/Provincial/Territorial/Indigenous Forum. Reservations must be received by 4:00 PM, June 3, 2016. Availability of rooms cannot be guaranteed after this time.

5. MEALS

The following meals will be provided to delegates on June 10th at the Delta Ottawa City Centre:

- Breakfast will be served in Ballroom A from 7:30 AM to 8:30 AM
- Lunch will be served in Ballroom A from noon to 1:00 PM*

*A private lunch of Ministers and Leaders will take place in the Vice-Regal Boardroom.

For special needs, including allergies please contact: Mike Argue - Mike_Argue@gov.nt.ca - telephone: (867) 767-9134, Extension: 18025

6. MEDIA

The media conference will be located in Ballroom A between 3:30 PM to 4:00 PM.

A media advisory will be issued on June 8, 2016. Members of the media will be required to register in advance of the conference.

Delegations are asked to include no more than two individuals who will be involved in the development of the meeting communique as well as a media contact. Please share these details with Mike Argue at Mike_Argue@gov.nt.ca no later than June 3, 2016. It would be appreciated if both an email address as well as a cell phone number could be provided for the media contact and officials developing the communique.

7. CONFERENCE SERVICES

CICS services are not available for this meeting. Northwest Territories administrative support will be available at the registration desk in the foyer of the penthouse level during meeting hours.

Simultaneous interpretation will be available in the Pinnacle Room during conference proceedings.
MEETING OF THE FEDERAL/PROVINCIAL/TERRITORIAL/INDIGENOUS FORUM

LOGISTICS INFORMATION NOTE

8. GROUND TRANSPORTATION

Delegations are responsible for their own ground transportation. If you wish to arrange transportation support for your Minister or Leader, we can recommend Millennium at (613) 860-5466.

Subject: Re: Extremely Important To Contact ASAP

Mr. Ball

I received a call from Rodney Mercer. He asked me to meet with him. Mr. Ball, that would be a mistake and I can not make any mistakes with what I have to offer.

What I have to share is a business of Government worth in excess of a Billion Dollars.

One of the people I have sat with recently is Dave Denine. I have know Dave since I am 9 yrs old. He and I went over what I am proposing for a couple of hours ... he told me that you are a real down to earth man and should be open to what I have. It takes a strong leader to take the measures to do what is right.

I know you are being pressured from ever angle. Mr. Ball not only am I capable of building a business of Government, I also can read through people and situations. I am a very strategic thinker with a real vision for solutions. You need me sir!!! I come with my plan of business... no one else has come close to the package I will be first offering you to work with.

Dave suggested we meet at my kitchen table.. you and I only.. we can discuss this plan and schedule a further time to make agreement on how we can work together to role out. Day or Night.. for your benefit, it should be as soi. As humanly possible.

I do not belong to any political party and my goals are for every Child, Woman and Man in the province.

Sent from my BlackBerry 10 smartphone on the Bell network.
Subject: Extremely Important To Contact ASAP

Dear Mr. Ball,

I can not express enough how much you and I need to have contact as soon as possible...

I have recently had conversations with your MHA's and a minister in your party... They are very interested in what I have to offer.

I ask you, for your benefit, the benefit of politics in this province and especially for the people of the province, please call me before you make anymore drastic changes. I work extremely well in extreme stressful environments. For some reason, I preform my best under pressure. I have a way out of this which will not only have you free but one which will install trust in the people again.

Mr. Ball, I have been working on a lot of business for the government on my own, long before the past elections and the budget. I have massive gains to offer that will hush the crowd of roaring people.

Tomorrow morning I have my first meeting with one of the major union leaders, I have a program which will quiet everyone and turn this province around today!!!

My cell number is

Have an amazing day!!!

Subject: Accident Nalcor Churchill Falls

You owe it to yourself, and your family, to make it home safely every day. What have you done today so that nobody gets hurt?

----- Forwarded by Deanne Fisher/NLHydro on 06/06/2016 03:24 PM -----

hi, see below. Feel free to call if you have any questions.

On Friday afternoon (June 3), an incident occurred at Churchill Falls in which a Nalcor employee working in the switchyard sustained injuries caused by the release of pressurized air. The employee was treated on the scene by our Emergency First Responders. He is safe and with family and was transported for follow-up medical treatment in St. John's. As an investigation of the incident is conducted, and in the interest of maintaining privacy for the individual and his family, we are unable to provide further detail at this time. However, we understand that he is in stable condition as he receives ongoing treatment and examination.

The incident is being investigated and has the full attention of Nalcor and the Churchill Falls management team. Occupational Health & Safety was notified and is on site, and we are fully supporting their investigation.

The safety and well-being of our people is Nalcor's number one priority and we will continue to focus on providing the support needed to the employee involved and his family.

Fyi
Hi Folks,

FYI

Just received a call a worker at Nalcor Churchill Falls site was injured approx 245 this afternoon. He was stuck with a blast of compressed air. Extent of injuries are unknown at this time. The worker is stable and is being treated at site. Our officer is on route to investigate. Will follow up when I have more information.

Thanks,
Loyola
