Dear [Redacted]:

Re: Your request for access to information under Part II of the Access to Information and Protection of Privacy Act (The Act) [Our File #: HCS 015 2014]

On February 27, 2014, the Department of Health and Community Services received your request for access to the following records/information:

"Information Requested:

(1) Amounts paid, either directly or through a reciprocal or other billing arrangement, by the provincial health plan to hospitals, health facilities, and preferred providers for mental health and addiction services rendered to insured persons while outside of their home province but within Canada, in the absence of an emergency (i.e. on a pre-approval basis) in the aggregate (per year) and per patient (average). Please provide this information broken down to reflect:

(a) the condition being treated by the hospital, health facility or service provider; and

(b) the name of the hospital or health facility in which the service was rendered or, if not available, by province.

(2) Number of insured persons referred (including patients referred and not approved, and patients referred and approved) for the out-of-province mental health and addiction services referred to in (1).

The time period of the information requested is January 1, 2011 to present."

On March 20, 2014, by way of a telephone call, the Department presented you with two options for how it might proceed with processing the above-noted request:

(1) An immediate processing of the file with the information requested broken down by (a) "mental health" and (b) "addiction" services, rather than by "condition", as stipulated under part 1(a) of your original request; or,

(2) A more lengthy processing of the request to generate the more specific information (information by "condition"), with a potentially longer wait, and a fee estimated at $1,875.00.
You did not elect either option on March 20, but indicated that you would consider and provide direction to the Department in due course.

On March 21, 2014, the Department wrote to you to advise that, pursuant to subsection 16(1)(b) of the Act, it was extending the 30-day time limit for responding to your request has been extended for an additional 30 days and expected to respond to your request by March 21, 2014.

On April 8, 2014, you indicated that you wished to proceed with option (2), as set out above: that is, more specific information (information by “condition”) with a potentially longer wait, and a fee estimated at $1,875.00. Due to the length of time required to process your request the Department has elected to waive any additional fees.

On April 15, 2014, you confirmed via email that an on-or-before date of August 15, 2014 was satisfactory to you for final delivery of the requested records.

The Department has reviewed your request in the context of the Act and is pleased to inform you that access to these records has been granted. Please find enclosed a copy of the summary documents prepared specifically in response to your request.

Please be advised that a copy of our response to your request will be published on the Office of the Public Engagement’s website five business days after the response is mailed to you. If you have any further questions, please feel free to contact Cheryl Joy, ATIPP Coordinator, at (709)729-7010, or by email at cherylioy@gov.nl.ca.

Sincerely,

BRUCE COOPER
Deputy Minister
