Thank you. This is an excellent recommendation.

Good morning Premier Marshall,

Congratulations on your decision to review Bill 29. I believe it is in the best interests of the people of the province to take this second look.

I would like to suggest that you consider the name of [redacted] when you consider the members of the review panel. [Name] is a respected Newfoundland who I believe most people in the province would respect and he is certainly the type who will give you an honest assessment.

Thanks for considering my suggestion. I have another suggestion and that is that you run for the leadership but I guess that is not going to happen!!!

Premier,

My name is and I am a [redacted] student at CNA. I want to wish you best wishes on becoming interim premier of NL and it is a good change that NL needed. Thank you for taking on the difficult job of governing this province, being willing to listen to the citizenry and giving your best effort. Your best service to NL is all we can ask for. I also appreciate your ordering a review of the contentious Bill 29, as it caused a lot political anger and concern around the province. Inviting citizens to give you input on issues is a good step in the right direction and one I will take you up on it.

Dear Premier Marshall,

I am writing this letter in response to your first speech as Premier of Newfoundland and Labrador on January 24th. There are two aspects of your speech, which encourage me to write you.

The first aspect is the apparent genuineness and sincerity that is contained in your speech. The second aspect deals with your message.

You ask us, the people, to let you know where we believe you are going wrong. In that regard there are several issues which dominated the political landscape in our Province in recent times and which have been the focus of criticism.

A third issue is Bill 29. Again, I did not study this issue enough to have a strong opinion one way or another. I have availed of your access to information on several occasions and certainly found it to be very professional and compliant with the rules.

In fact, I was recently refused some information regarding the CETA talks and your Government's use of Search and Rescue as a bargaining tool. I appealed to the Commissioner's Office however and I won my appeal. This shows that the system works.

Mr. Premier,

Thank you for taking on the job of heading our government. I believe you are a wise and compassionate person. With the move to reconsider Bill 29 you have made a great start. Bill 29 has been at the root of an almost paranoid state the Government has been in over the past two years. I ask myself, what are they afraid of????

I am now hopeful for the first time in some time. I wish you only the best.

St. John's [Redacted]
Thank you very much for offering to serve. I will pass this on to Minister Kent who is responsible for the Office of Public Engagement. Government will be examining options for the process and should be in a position to make a decision and announcement fairly soon. We wish to encourage people who are interested in being on the panel to have an opportunity to make this interest known to us. We will then be in a position to make the selections from that group and those nominated or suggested by others. I am very pleased to see that someone with your outstanding credentials and reputation is prepared to offer to serve and help us ensure that our citizens have confidence in freedom of information and privacy laws. Thanks again.

Good evening Premier Marshall

I am writing to express an interest in sitting on your three person panel to review Bill 29 through a public hearing process.

As you may know, I have been very active in communities – in St. John’s and provincially – in the past twenty years. Through these relationships I believe I have garnered the respect of many in our communities who recognize that I am forthright but honest and accountable in all my efforts working for and with them.
I have no formal political affiliation and have worked equitably with all parties, as the social issues in which am interested are not of a partisan nature.

My interest in this review is to contribute to a process which if done well can ensure that all stakeholders have practical and reasonable access to information.

If you are amenable to my expression of interest, please do not hesitate to call me.

Thanks.

Dear Premier Marshall;

I am writing in relation to your interest in identifying possible individuals to serve on a panel/committee/Board to review Bill 29.

I offer myself for consideration as a member of such a panel/committee. I would bring the following profile to the position:

Should you wish, I would be happy to talk with you or appropriate members of your staff regarding initial views on this issue.

Sincerely,
Hi premier Tom Marshall and my local MHA Steve Kent, I was rereading the Saturday, February 1st of 2014 edition of "the weekly telegram" and it's leading story 'what you need to know about bill 29 and beyond'. In the second paragraph of the article, he states, "the government is doing a full review of the province's access to information system, and members of the public can get involved in the conversation, attend public consultations and have their say via email to Public engagement minister Steve Kent (stevekent@gov.nl.ca) or to premier Tom Marshall (premier@gov.nl.ca). So I am looking for more information on this process. As a private citizen, a MUN student [REDACTED], I have a keen interest in providing feedback on this topic. I also know other friends, students, etc. Who have keen insights into how ATIPPA (access to information and personal privacy protection act) has and is working (or not working). Premier Marshall, thanks again for having an open door policy and saying that you want to hear feedback from people, be it good or bad. I know MHA Kent, you and premier Marshall are like minded on the topic of openness and accessibility. So I await your reply, and I welcome in advance your feedback.

Mr. Premier:

This is to let you know I would be willing to serve on or with the committee to be struck soon to review the province's Access to Information and Protection of Privacy Act, as amended by Bill 29.

Your decision to call for the review interests me because I see the committee's task as one which should entail not only the legislative process but also constitutional issues, especially around the subject of responsible government.

It goes without saying that a tension which gave rise to Bill 29 exists between government and the rapidly evolving media. Not so obvious perhaps is an aspect of this tension, that much confusion has been injected into the notion of freedom of the press, the constitutional convention of cabinet secrecy and the public's perception of a "right to know", a perception that tends to fly in the face of our consent to be governed and the need to protect people's privacy. I believe this confusion is one reason the meaning of the Westminster concept of responsible government has been greatly eroded in recent decades in Canada.

In announcing your decision to call for this review, you indicated that an essential aspect of responsible government has always been transparency. I agree. The committee should effectively recommend an interpretation of transparency proper for a government responsible to a legislature which must answer to the people who elect it. But the challenge is to suggest what is proper without allowing the widespread confusion I mention to render the whole exercise a circuitous argument.

Sincerely,

Dear Premier Marshall

Congratulations on your appointment.

I will start by saying that I have been a Conservative all my life. Crossing the floor?? I don't think so! However it would seem that my party struggles with complacency and an "old boys" (and gals) club mantra.

Not to sound overly verbose.

A club faced with certain historical merchant family by that I mean names enshrined in our culture & history and their own agendas. Whether those agendas are self-serving or simply a matter of ego. Nevertheless those backroom persons that tend to steer government against the tidal currents of common sense.

May I recommend a person that is not an insider. [Redacted]

I suggest to submit his resume, however as eloquent as a resume may be, the measure of a man can only be established by sitting at a table, not an interview table but a table that allows for open and frank discussion.

I know he is more then a casual acquaintance of [Redacted] (as you can see I have co-ed to as well) he may be a starting point for your research into the shoes [Redacted] has worn.
So why not make the call? It may not necessarily follow protocol, he may be pleasantly surprised but you will quickly see what this man is all about.

I understand that the timing for the review will be left up to the review panel to decide; however, I am sending along this further e-mail to explain that I plan to be out of the Province from the latter part of April until mid-June. While away, I would nevertheless be able to work online, by teleconference, etc., and otherwise assist in the review process. I do believe this review is an important step for the Government to take to clarify the issues which have been raised by the public concerning access to information and protection of privacy.

Hi Val,

Please take appropriate action to the attached e-mail. Please cc our office on your response. Copies of responses should be e-mailed to premier@gov.nl.ca Thank you for your assistance.

Chantalle Hull
Office of the Premier
Hi premier Tom Marshall and my local MHA Steve Kent, I was rereading the Saturday, February 1st of 2014 edition of "the weekly telegram" and it's leading story 'what you need to know about bill 29 and beyond'. In the second paragraph of the article, he states, "the government is doing a full review of the province's access to information system, and members of the public can get involved in the conversation, attend public consultations and have their say via email to Public engagement minister Steve Kent (stevekent@gov.nl.ca) or to premier Tom Marshall (premier@gov.nl.ca). So I am looking for more information on this process. As a private citizen, a MUN student, I have a keen interest in providing feedback on this topic. I also know other friends, students, etc. Who have keen insights into how ATIPPA (access to information and personal privacy protection act) has and is working (or not working). Premier Marshall, thanks again for having an open door policy and saying that you want to hear feedback from people, be it good or bad. I know MHA Kent, you and premier Marshall are like minded on the topic of openness and accessibility. So I await your reply, and I welcome in advance your feedback.

Sincerely,

Further to your email dated February 9, 2014, I would like to thank you for your interest regarding Bill 29 and the upcoming review of the Access to Information and Protection of Privacy Act.

In response to your inquiry regarding participating in the consultation process, your name and email address will be held by the Office of Public Engagement until the ATIPP Review Committee is appointed. At that time, it will be forwarded to the Review Committee who will be conducting the public consultation process.

I would like to thank you for your interest in providing input into this important issue and encourage you to submit your suggestions to the Review Committee during the legislative review.

Respectfully, I remain
