He had to meet with Councillors and while they were great to talk to they determined they would stick with the policy in place but he wonders why he has to pay taxes on this service. Jonathan suggests he send him an email so he can bring this issue up on the next Municipal Monday.

VOCM Night Line - Mon, December 11, 2017

1 PRICE OF FOOD/CHRISTMAS LIGHTS/ROOSTERS ARE BETTER: "Al" from Torbay says he is upset with the price increases in food at the grocery stores these days. He thinks that people with their Christmas lights on are going to be in shock when they get their electric bills. He thinks the lights were up awfully early. "Terry Hussey" says he thinks that social media makes people feel more and more lonely and this has led to nostalgia and, in turn, they start putting up their decorations earlier so they can feel happier. "Josh Taylor" says people associate Christmas decorations with feeling good. Al says roosters are better than hens and he hopes to get one for Christmas.

2 SOLE-SOURCING CANNABIS FOR NL: "Mike Keough" is unhappy with the deal struck between the Province and Canopy Growth for our cannabis supply. He thinks this leaves local growers at the mercy of the NLC if they want in on becoming suppliers. "Josh Taylor" feels there are several problems with the selection of Canopy Growth even though they are quite reputable. "Terry Hussey" doesn't understand why the government focused on a single source because there are so many other sources. If buyers do not like the Canopy Growth product, they will have to try ordering online for their supply.

3 MUNICIPAL ELECTIONS: Jonathan chats with "Terry Hussey" and "Josh Taylor" about some of the interesting things which happened with the recent municipal elections. Terry thinks there is a feeling of a new beginning with the new St. John's City Council with so many new people in the seats. Josh agrees there is a real diversity in the Council now. They are pleased with the fact that so many women were among the candidates and many were voted into office this year. They comment on former St. John's Mayor Andy Wells' attempt to regain that seat. There is always talk of regionalization, but Josh feels we will be held back strategically if we don't get a regional perspective on the province.

4 CITY OF ST. JOHN'S BUDGET: St. John's Councillor "Dave Lane" is pleased to have passed a 'hold the line' budget today. There was a surplus from 2016 and they used that to pay down debt, which made it easier to avoid tax increases. He says that keeping costs under control is very important with this budget. They want to find new revenue sources so they can keep taxes down in future. "Terry Hussey" and "Josh Taylor" also chat with Mr. Lane about the budget. Mr. Taylor is disappointed with the statements from those councillors who voted against the budget because it almost seems like they did it just for the sake of disagreeing because the issues they brought up, such as lack of public consultation, seem weak. Mr. Lane
sadows the Council needs to work together and he hopes the votes opposing will not be a trend to expect down the road.

7  SMALL BUSINESS TAX REFORM: Jonathan chats with "Terry Hussey" and "Josh Taylor" about how rough a year it has been for the federal Finance Minister. The small business tax reform which was planned was ultimately pared down as a result of the uproar within the small business community. They speculate that it might not have caused such a fuss if Government had not been so smarmy about it all, but rather presented the plan and explanation of why the decisions were made.

8  HOUSE INSURANCE CONCERNS: A "Caller" had a problem with her house insurance. She lost 6 of 7 pieces of siding and a bit of eavestroughing and put in a claim for it to be replaced. She says the insurance company came out to do an assessment on the work before it was done. Now her insurance has gone up an extra $1000/year. "Terry Hussey" said he had to help his parents on a house insurance claim and it was a very complicated process. He feels that the process is not set up to protect the individual at all.

9  BONAVISTA-BURIN-TRINITY ELECTION AND MP INFLUENCE IN OTTAWA: Jonathan chats with "Terry Hussey" and "Josh Taylor" about the by-election results as they come in from Bonavista-Burin-Trinity, showing Liberal Churence Rogers in the lead. They wonder if our MPs are really going the extra mile for the province because it seems like we are not getting as much help as we need.

10  TURNED AWAY FROM VOTING: "Sid" took his parents to the polling station to vote in the Bonavista-Burin-Trinity by-election, but he lost his wallet, so he was turned away. His parents did not have ID with them, but Sid's brother took them in later. They attempted to prevent his parents from voting again and also have his brother a hard time. Sid feels certain that they were given difficulty because those at the polling station knew they did not plan to vote for Churence Rogers. Sid is willing to take this to Supreme Court. "Terry Hussey" and "Josh Taylor" share a few thoughts on the discussion, as well.

12 VOTE AGAINST THE CITY OF ST. JOHN'S BUDGET: St. John's City Councillor "Maggie Burton" shares her thoughts on the City of St. John's Budget. She said she could not support a budget which does not invest in the people of the city. She does not feel that it has been proven that Mile One is the answer to bringing in arts and entertainment despite millions invested in that facility, with very little invested in smaller arts sources. She is also very unhappy that the budget did not reduce the Metrobus fees because she opposes an increase in those fees to gain revenue. "Terry Hussey" and "Josh Taylor" add their own comments on the budget. Ms. Burton says she feels there should have been public consultations done last Spring and she is disappointed that there was so little progression with this budget.
