Dear Applicant:

Re: Your request for access to information under Part II of the Access to Information and Protection of Privacy Act FLR/07/2018

On January 17, 2018, the Department of Fisheries and Land Resources (FLR) received your request for access to the following records:

"Get the stocking vs harvest numbers (company names, site numbers, etc removed)...just the raw (unadjusted) numbers by cage and site for the last 5 years. Should be a simple table (I have seen this data in the past). This is available in other jurisdictions (even in Canada). Typically 20% die from disease/escape/get predated in the pens by sharks or tuna, or killed by jellyfish or storm, annually (eg Norway)."

Please be advised that a decision has been made by the Deputy Minister for FLR to provide access to the requested information. The response to your request is as follows:

This information was aggregated to protect company specific information and includes salmonids (charr, trout and salmon). Further, we do not have data for 2017 as this data is collected in January/February, of each year, and all of the required data has yet to be received from the companies.

The information requested demonstrates the number of fish that are stocked/entered into sea cages in the calendar year and the total number of fish harvested that same year. Fish entered each year will be harvested in 18-30 months. Therefore the relationship between stocking and harvest numbers, as presented in the same calendar year, only reflects the timing of their entry into, and, removal from sea cages.

Please be advised that you may appeal this decision and ask the Information and Privacy Commissioner to review the decision to provide partial access to the requested information, as set out in section 42 of the Act (a copy of this section of the Act has been enclosed for your reference).
