August 15, 2018

Dear Applicant:

Re: Your request for access to information under Part II of the Access to Information and Protection of Privacy Act FLR/74/2018

On July 18, 2018, the Department of Fisheries and Land Resources (FLR) received your request for access to the following records:

“All new lease site applications from Northern Harvest Sea Farms during 2017 and 2018 to date. Also, all lease site renewals and open net pen lease site permits for the same time period. Also all transfer permits for the same time period.”

An email from the applicant was received on August 1, 2018 stating:

“we want just the new site applications (identified as such and listed separately from older existing pre-2017 sites) and any subsequent approvals of these same new site applications for 2017 and 2018 to date for Northern Harvest. As well as the other info in the request (much of it is overlap from previous requests in 2017/18 so should be simply an update).”

An additional email was received on August 9, 2018 confirming that:

The last sentence of your request states “Also all transfer permits for the same period.” By “transfer permits” you mean both permits to transfer and transport fish as well as lease site transfers. This would be for the same company identified in the request and for the same time period (2017 and 2018).

Please be advised that a decision has been made by the Deputy Minister for FLR to provide access to the requested information. Redactions have been made under section 40 personal privacy. Attached, you will find a copy of responsive material.

Please be advised that you may appeal this decision and ask the Information and Privacy Commissioner to review the decision to provide partial access to the requested information, as set out in section 42 of the Act (a copy of this section of the Act has been enclosed for your reference). A request to the Commissioner must be made in writing within 15 business days of the date of this letter or within a longer period that may be allowed by the Commissioner. Your appeal should identify your concerns with the request and why you are submitting the appeal.

The appeal may be addressed to the Information and Privacy Commissioner as follows:

Office of the Information and Privacy Commissioner
2 Canada Drive
P.O. Box 13004, Stn. A
St. John's, NL A1B 3V8

Telephone: (709) 729-6309
Toll-Free: 1-877-729-6309
Facsimile: (709) 729-6500

You may also appeal directly to the Supreme Court Trial Division within 15 business days after you receive the decision of the public body, pursuant to section 52 of the Act (a copy of this section of the Act has been enclosed for your reference).

Please be advised that this letter will be published following a 72 hour period after the response is sent electronically to you or five business days in the case where records are mailed to you. It is the goal to have the responsive records posted to the Office of Public Engagement’s website within one business day following the applicable period of time. Please note that requests for personal information will not be posted online.

If you have any further questions, please contact me by telephone at 709-729-4797 or by email at JasonWhiteway@gov.nl.ca

Sincerely,

Jason Whiteway
ATIPP Coordinator

**Right of access**

8. (1) A person who makes a request under section 11 has a right of access to a record in the custody or under the control of a public body, including a record containing personal information about the applicant.

   (2) The right of access to a record does not extend to information excepted from disclosure under this Act, but if it is reasonable to sever that information from the record, an applicant has a right of access to the remainder of the record.

   (3) The right of access to a record may be subject to the payment, under section 25, of the costs of reproduction, shipping and locating a record.

**Access or correction complaint**

42. (1) A person who makes a request under this Act for access to a record or for correction of personal information may file a complaint with the commissioner respecting a decision, act or failure to act of the head of the public body that relates to the request.

   (2) A complaint under subsection (1) shall be filed in writing not later than 15 business days

   (a) after the applicant is notified of the decision of the head of the public body, or the date of the act or failure to act; or
(b) after the date the head of the public body is considered to have refused the request under subsection 16 (2).

(3) A third party informed under section 19 of a decision of the head of a public body to grant access to a record or part of a record in response to a request may file a complaint with the commissioner respecting that decision.

(4) A complaint under subsection (3) shall be filed in writing not later than 15 business days after the third party is informed of the decision of the head of the public body.

(5) The commissioner may allow a longer time period for the filing of a complaint under this section.

(6) A person or third party who has appealed directly to the Trial Division under subsection 52 (1) or 53 (1) shall not file a complaint with the commissioner.

(7) The commissioner shall refuse to investigate a complaint where an appeal has been commenced in the Trial Division.

(8) A complaint shall not be filed under this section with respect to

(a) a request that is disregarded under section 21;

(b) a decision respecting an extension of time under section 23;

(c) a variation of a procedure under section 24; or

(d) an estimate of costs or a decision not to waive a cost under section 26.

(9) The commissioner shall provide a copy of the complaint to the head of the public body concerned.

Direct appeal to Trial Division by an applicant

52. (1) Where an applicant has made a request to a public body for access to a record or correction of personal information and has not filed a complaint with the commissioner under section 42, the applicant may appeal the decision, act or failure to act of the head of the public body that relates to the request directly to the Trial Division.

(2) An appeal shall be commenced under subsection (1) not later than 15 business days

(a) after the applicant is notified of the decision of the head of the public body, or the date of the act or failure to act; or

(b) after the date the head of the public body is considered to have refused the request under subsection 16 (2).

(3) Where an applicant has filed a complaint with the commissioner under section 42 and the commissioner has refused to investigate the complaint, the applicant may commence an appeal in the Trial Division of the decision, act or failure to act of the head of the public body that relates to the request for access to a record or for correction of personal information.

(4) An appeal shall be commenced under subsection (3) not later than 15 business days after the applicant is notified of the commissioner’s refusal under subsection 45 (2).

RE: APPLICATION NO.: 136213
TYPE: Lease
PURPOSE: Aquaculture
LOCATION: Harvey Hill South
RENTAL FEE: $224.00 (plus HST)

This is a revised letter which replaces the one sent to you dated March 28, 2018. Your application for title to Crown land has been conditionally approved as per the location on the attached map and subject to the attached conditions.

A lease agreement will be prepared at the rental fee of $224.00 (plus HST), which is subject to review at five (5) year intervals. A $300.00 title document fee will be required for the preparation and registration of the documents at the Registry of Crown Titles. The rental fee has been established on the basis of the frontage and/or area approved for survey, but may change depending on the frontage and/or area described in the final survey submitted to this Department. Please do not remit any monies until requested to do so.

You must have the land surveyed by a registered member of the Association of Newfoundland Land Surveyors. A list of registered surveyors is available from the Regional Lands Office.

The land survey must not exceed an area of 28 hectares(s).

The land survey must not exceed a frontage of 700 metre(s).

The land survey must be received by this Office on or before one year from the date of this letter, or your application will be considered cancelled by you in accordance with Section 10 of the Lands Act 1991, as amended and Departmental Policy. There will be no further correspondence reminding you of this deadline. Once cancelled, you must wait thirty (30) days before you can reapply for the same site and during this thirty (30) day period applications may be accepted from other interested individuals. The Department will not be responsible for any costs incurred for a land survey should the site be determined unsuitable.
Please note that the land is not to be occupied until you receive a fully executed title document.

Should you require any further information concerning this approval, please contact the Regional Lands Office at the address listed below.

Yours truly,

REGIONAL LANDS MANAGER

NOTE TO USERS

The information on this map was compiled from land surveys registered in the Crown Lands Registry. Since the Registry does not contain information on all land ownership within the Province, the information provided cannot be considered complete.

The boundary lines shown on this map sheet are intended to be used as an index to land sites issued by the Crown. The accuracy of the plot is not sufficient for measurement purposes and does not guarantee title.

Users finding any errors or omissions on this map sheet are asked to contact the Crown Lands Inquiries Line by telephone at 1-833-691-3249 or by email at CrownLandsInfo@gov.nl.ca.

Some sites may not be plotted due to Crown Lands volumes missing from the Crown Lands registry or not plotted due to inadequate survey information.

The User hereby indemnifies and saves harmless the Minister, his officers, employees and agents from and against all claims, demands, liabilities, actions or cause of actions alleging any loss, injury, unauthorized entry (including claims or demands for any violation of copyright or intellectual property) arising out of any missing or incomplete Crown Land titles, and the Minister, his or her officers, employees and agents shall not be liable for any loss of profits or contracts or any other loss of any kind as a result.

For inquiries please contact the Crown Lands Inquiries Line by telephone at 1-833-691-3249 or by email at CrownLandsInfo@gov.nl.ca. Or visit the nearest Regional Lands Office:

Follow Up Flag: Follow up
Flag Status: Flagged

Good morning Hilary,

Please consider this as a request to reactivate Crown Lands Application # 136213. We were unable to have this site surveyed during 2017. However, we will be needing to use this site by June 2018 so I would ask that it be expedited. The Aquaculture licence (AQ 1121) was initially issued on 29 Sep 2016 and the 2017-18 has also been issued with renewal expected in 2018.

I am faxing the credit card payment request to 256-1095 now.

Regards,

Northern Harvest Sea Farms NL Ltd.

Good Morning,

As per our conversation, to reactivate Crown Lands Application # 136213 please submit the attached consent form with payment to this office (fax# 709-256-1095). We also require a request in writing to confirm your request to reactivate. An email or fax cover sheet is sufficient for these purposes.

MARINE AQUACULTURE WATER USE LICENCE/PERMIT

Pursuant to the Water Resources Act, SNL 2002 cW-4.01

Date of Issuance: October 24, 2013

No: WUL-13-087
Elle: 515/F0993

Licensee/Holder: Northern Harvest Sea Farms Newfoundland Ltd.
PO Box 190
St. Alban’s, NL A0H 2E0

Attention:        40(1)

Re: Aquaculture Facility in Northeast Arm (Harvey Hill North), Harbour Breton

The Minister of Environment and Conservation (the "Minister") hereby grants a non-exclusive right to: Northern Harvest Sea Farms Newfoundland Ltd. (the "Licensee/Holder") to install and operate an aquaculture facility with an estimated total area of 20.0 hectares in Northeast Arm (Harvey Hill North), Harbour Breton (47°33'00"N, 55°45'36"W) in reference to the plans submitted with any and all applications for installation and operation of the said facility and the application for transition received on October 22, 2013 from the Department of Fisheries and Aquaculture.

This Licence/Permit is subject to the terms and conditions stated herein and the Water Resources Act and regulations thereunder. Appendix A (attached) forms part and parcel of this Licence/Permit.

This Licence/Permit does not release the Licensee/Holder from the obligation to obtain appropriate approvals or permits from other concerned provincial, federal, and municipal agencies.

It should be noted that prior approval of any significant change(s) in the plans and/or the associated systems and works must be obtained from the Minister.

The Licensee/Holder shall complete and return the attached Notification of Acceptance of Marine Aquaculture Water Use Licence/permit (attached) to the Water Rights Section of the Department of Environment and Conservation within thirty (30) days of receipt of this Licence.

Failure to comply with the terms and conditions set out herein will render this Licence/Permit null and void, place the Licensee/Holder and/or its agent(s) in violation of the Water Resources Act, and cause the Licensee/Holder to be responsible for any and all remedial measures which may be prescribed by the Department of Environment and Conservation.
GOVERNMENT OF
NEWFOUNDLAND AND LABRADOR
DEPARTMENT OF ENVIRONMENT AND CONSERVATION

APPENDIX A

TERMS AND CONDITIONS FOR MARINE AQUACULTURE WATER USE LICENCE/PURCHASE

1. In consideration of the terms and conditions herein contained, the Minister hereby authorizes the Licensee/Holder to install and operate an aquaculture facility with an estimated total area of 20.0 hectares in Northeast Arm (Harvey Hill North), Harbour Breton (47°33'00" N, 55°43'36" W) in reference to the plans submitted with any and all applications for installation and operation of the said facility and the application for transition received on October 23, 2013 from the Department of Fisheries and Aquaculture.

2. The designated purpose of the water use is "Commercial/Aquaculture".

3. The Licensee/Holder shall not impair, pollute or cause to be polluted the quality of the water.

4. The Licensee/Holder shall secure the aquaculture gear by suitable anchors to prevent dislodgement due to wave action and clearly mark the perimeter of the facility with cautionary buoys.

5. The Licensee/Holder shall immediately notify the Minister if any problem arises which may adversely affect water or public safety or any and all water users. The Licensee/Holder shall be responsible for any environmental or property damage, or personal injury arising from dislodgement caused by wind, wave, or ice action, or structural failure or from other water related problems.

6. In the event that the site is no longer being used during the term created by this Licence/Permit, the Licensee/Holder shall remove the aquaculture gear and other work(s)/system(s) associated with and restore all areas affected by this facility to a state that resembles local natural conditions. Further remedial measures to mitigate environmental impacts on water resources and all areas affected by this facility can and will be specified, if necessary in the opinion of this Department.

7. The Licensee/Holder acknowledges and agrees that this Licence/Permit does not grant any interest in land or any right to construct onshore facilities.

8. The Licensee/Holder agrees to abide by such further terms and conditions and directives as may be issued by the Minister of Environment and Conservation from time to time in relation to the site referenced in Clause 1 above.

9. Ownership of water rights remains with the Crown and is not transferred. The Licence/Permit only provides a permission for the Licensee/Holder to use water for the purpose indicated herein. The rights and liberties granted by this Licence/Permit may only be sold, assigned, transferred, leased, mortgaged, sublet or otherwise given away by the Licensee/Holder by obtaining prior written approval from the Minister of Environment and Conservation.

10. This Licence/Permit shall remain in force and effect until such time as the Aquaculture Licence of the Licensee/Holder is not renewed by the Licensee/Holder or is cancelled by the Minister of Fisheries and Aquaculture of the Province of Newfoundland and Labrador or his successor in office pursuant to the provisions of the Aquaculture Act, RSN 1990, c.A-13 or until such time as it is revoked by the Minister of Environment and Conservation of the Province of Newfoundland and Labrador or his successor in office for failure to comply with one or more of the provisions of this Licence/Permit (as amended from time to time) or with the provisions of the Water Resources Act, SNL 2002 c.W-4.01 and any regulations in effect thereafter from time to time and any other relevant legislation enacted by the Province of Newfoundland and Labrador in the future.

11. This Licence/Permit supersedes and cancels in whole and in part Licence/Permit No. WUL-04-134.

12. The Licensee/Holder indemnifies and holds the Minister of Environment and Conservation or his successor in office and Government harmless against any and all liabilities, losses, claims, demands, damages or expenses including legal expenses of any nature whatsoever whether arising in tort, contract, statute, trust or otherwise resulting directly or indirectly from the water rights granted under this Licence/Permit, or any act or omission of the Licensee/Holder, or arising out of a breach of or non-performance of any of the terms and conditions, and provisions of this Licence/Permit by the Licensee/Holder.

Re: Aquaculture Facility in Belle Bay near Belle Island, Fortune Bay

The Minister of Environment and Conservation (the "Minister") hereby grants a non-exclusive right to Northern Harvest Sea Farms Newfoundland Ltd. (the "Licensee/Holder") to install and operate an aquaculture facility with an estimated total area of 20.0 hectares in Belle Bay near Belle Island, Fortune Bay (47°38'01"N, 55°21'14"W) in reference to the plans submitted with any and all applications for installation and operation of the said facility and the application for transition received on May 22, 2012 from the Department of Fisheries and Aquaculture.

This Licence/Permit is subject to the terms and conditions stated herein and the Water Resources Act and regulations thereunder. Appendix A (attached) forms part and parcel of this Licence/Permit.

This Licence/Permit does not release the Licensee/Holder from the obligation to obtain appropriate approvals or permits from other concerned provincial, federal, and municipal agencies.

It should be noted that prior approval of any significant change(s) in the plans and/or the associated systems and works must be obtained from the Minister.

The Licensee/Holder shall complete and return the attached Notification of Acceptance of Marine Aquaculture Water Use Licence/permit (attached) to the Water Rights Section of the Department of Environment and Conservation within thirty (30) days of receipt of this Licence.

Failure to comply with the terms and conditions set out herein will render this Licence/Permit null and void, place the Licensee/Holder and/or its agent(s) in violation of the Water Resources Act, and cause the Licensee/Holder to be responsible for any and all remedial measures which may be prescribed by the Department of Environment and Conservation.
GOVERNMENT OF
NEWFOUNDLAND AND LABRADOR
DEPARTMENT OF ENVIRONMENT AND CONSERVATION

APPENDIX A

TERMS AND CONDITIONS FOR MARINE AQUACULTURE WATER USE LICENCE/PERMIT

1. In consideration of the terms and conditions herein contained, the Minister hereby authorizes the Licensee/Holder to install and operate an aquaculture facility with an estimated total area of 20.0 hectares in Belle Bay near Belle Island, Fortune Bay (47°38'01"N, 55°21'14"W) in reference to the plans submitted with any and all applications for installation and operation of the said facility and the application for transition received on May 22, 2012 from the Department of Fisheries and Aquaculture.

2. The designated purpose of the water use is "Commercial/Aquaculture".

3. The Licensee/Holder shall not impair, pollute or cause to be polluted the quality of the water.

4. The Licensee/Holder shall secure the aquaculture gear by suitable anchors to prevent dislodgement due to wave action and clearly mark the perimeter of the facility with cautionary buoys.

5. The Licensee/Holder shall immediately notify the Minister if any problem arises which may adversely affect water or public safety or any and all water users. The Licensee/Holder shall be responsible for any environmental or property damage, or personal injury arising from dislodgement caused by wind, wave, or ice action, or structural failure or from other water related problems.

6. In the event that the site is no longer being used during the term created by this Licence/Permit, the Licensee/Holder shall remove the aquaculture gear and other work(s)/system(s) associated with and restore all areas affected by this facility to a state that resembles local natural conditions. Further remedial measures to mitigate environmental impacts on water resources and all areas affected by this facility can and will be specified, if necessary in the opinion of this Department.

7. The Licensee/Holder acknowledges and agrees that this Licence/Permit does not grant any interest in land or any right to construct onshore facilities.

8. The Licensee/Holder agrees to abide by such further terms and conditions and directives as may be issued by the Minister of Environment and Conservation from time to time in relation to the site referenced in Clause 1 above.

9. Ownership of water rights remains with the Crown and is not transferred. The Licence/Permit only provides a permission for the Licensee/Holder to use water for the purpose indicated herein. The rights and liberties granted by this Licence/Permit may only be sold, assigned, transferred, leased, mortgaged, sublet or otherwise given away by the Licensee/Holder by obtaining prior written approval from the Minister of Environment and Conservation.

10. This Licence/Permit shall remain in force and effect until such time as the Aquaculture Licence of the Licensee/Holder is not renewed by the Licensee/Holder or is cancelled by the Minister of Fisheries and Aquaculture of the Province of Newfoundland and Labrador or his successor in office pursuant to the provisions of the Aquaculture Act, RSN 1990, c.A-13 or until such time as it is revoked by the Minister of Environment and Conservation of the Province of Newfoundland and Labrador or his successor in office for failure to comply with one or more of the provisions of this Licence/Permit (as amended from time to time) or with the provisions of the Water Resources Act, SNL 2002 c.W-4.01 and any regulations in effect thereunder from time to time and any other relevant legislation enacted by the Province of Newfoundland and Labrador in the future.

11. This Licence/Permit supersedes and cancels in whole and in part Licence/Permit No. WUL-07-099.

12. The Licensee/Holder indemnifies and holds the Minister of Environment and Conservation or his successor in office and Government harmless against any and all liabilities, losses, claims, demands, damages or expenses including legal expenses of any nature whatsoever whether arising in tort, contract, statute, trust or otherwise resulting directly or indirectly from the water rights granted under this Licence/Permit, or any act or omission of the Licensee/Holder, or arising out of a breach or non-performance of any of the terms and conditions, and provisions of this Licence/Permit by the Licensee/Holder.

Re: Aquaculture Facility in Magrath Cove North, Belle Bay, Fortune Bay

The Minister of Environment and Conservation (the "Minister") hereby grants a non-exclusive right to Northern Harvest Sea Farms Newfoundland Ltd. (the "Licensee/Holder") to install and operate an aquaculture facility with an estimated total area of 20.0 hectares in Magrath Cove North, Belle Bay, Fortune Bay (47°39'50"N, 55°22'46"W) in reference to the plans submitted with any and all applications for installation and operation of the said facility and the application for transition received on May 22, 2012 from the Department of Fisheries and Aquaculture.

This Licence/Permit is subject to the terms and conditions stated herein and the Water Resources Act and regulations thereunder. Appendix A (attached) forms part and parcel of this Licence/Permit.

This Licence/Permit does not release the Licensee/Holder from the obligation to obtain appropriate approvals or permits from other concerned provincial, federal, and municipal agencies.

It should be noted that prior approval of any significant change(s) in the plans and/or the associated systems and works must be obtained from the Minister.

The Licensee/Holder shall complete and return the attached Notification of Acceptance of Marine Aquaculture Water Use Licence/permit (attached) to the Water Rights Section of the Department of Environment and Conservation within thirty (30) days of receipt of this Licence.

Failure to comply with the terms and conditions set out herein will render this Licence/Permit null and void, place the Licensee/Holder and/or its agent(s) in violation of the Water Resources Act, and cause the Licensee/Holder to be responsible for any and all remedial measures which may be prescribed by the Department of Environment and Conservation.

40(1)

MINISTER
1. In consideration of the terms and conditions herein contained, the Minister hereby authorizes the Licensee/Holder to install and operate an aquaculture facility with an estimated total area of 20.0 hectares in Magnath Cove North, Pate Bay, Fortune Bay (47°35'50" N, 55°22'46" W) in reference to the plans submitted with any and all applications for installation and operation of the said facility and the application for transition received on May 22, 2012 from the Department of Fisheries and Aquaculture.

2. The designated purpose of the water use is "Commercial/Aquaculture".

3. The Licensee/Holder shall not impair, pollute or cause to be polluted the quality of the water.

4. The Licensee/Holder shall secure the aquaculture gear by suitable anchors to prevent dislodgement due to wave action and clearly mark the perimeter of the facility with cautionary buoys.

5. The Licensee/Holder shall immediately notify the Minister if any problem arises which may adversely affect water or public safety or any and all water users. The Licensee/Holder shall be responsible for any environmental or property damage, or personal injury arising from dislodgement caused by wind, wave, or ice action, or structural failure or from other water-related problems.

6. In the event that the site is no longer being used during the term created by this Licence/Permit, the Licensee/Holder shall remove the aquaculture gear and other work(s/system(s) associated with and restore all areas affected by this facility to a state that resembles local natural conditions. Further remedial measures to mitigate environmental impacts on water resources and all areas affected by this facility can and will be specified, if necessary in the opinion of this Department.

7. The Licensee/Holder acknowledges and agrees that this Licence/Permit does not grant any interest in land or any right to construct onshore facilities.

8. The Licensee/Holder agrees to abide by such further terms and conditions and directives as may be issued by the Minister of Environment and Conservation from time to time in relation to the site referenced in Clause 1 above.

9. Ownership of water rights remains with the Crown and is not transferred. The Licence/Permit only provides a permission for the Licensee/Holder to use water for the purpose indicated herein. The rights and liberties granted by this Licence/Permit may only be sold, assigned, transferred, leased, mortgaged, sublet or otherwise given away by the Licensee/Holder by obtaining prior written approval from the Minister of Environment and Conservation.

10. This Licence/Permit shall remain in force and effect until such time as the Aquaculture Licence of the Licensee/Holder is not renewed by the Licensee/Holder or is cancelled by the Minister of Fisheries and Aquaculture of the Province of Newfoundland and Labrador or his successor in office pursuant to the provisions of the Aquaculture Act, RSN 1990, c.A-13 or until such time as it is revoked by the Minister of Environment and Conservation of the Province of Newfoundland and Labrador or his successor in office for failure to comply with one or more of the provisions of this Licence/Permit (as amended from time to time) or with the provisions of the Water Resources Act, SNL 2002, s. W-4.01 and any regulations in effect thereafter from time to time and any other relevant legislation enacted by the Province of Newfoundland and Labrador in the future.

11. This Licence/Permit supersedes and cancels in whole and in part Licence/Permit No. WUL-07-098.

12. The Licensee/Holder indemnifies and holds the Minister of Environment and Conservation or his successor in office and Government harmless against any and all liabilities, losses, claims, demands, damages or expenses including legal expenses of any nature whatsoever whether arising in tort, contract, statute, trust or otherwise resulting directly or indirectly from the water rights granted under this Licence/Permit, or any act or omission of the Licensee/Holder, or arising out of a breach or non-performance of any of the terms and conditions, and provisions of this Licence/Permit by the Licensee/Holder.

DEPARTMENT OF ENVIRONMENT AND CONSERVATION
APPENDIX A

TERMS AND CONDITIONS FOR MARINE AQUACULTURE WATER USE LICENCE/PERMIT

1. In consideration of the terms and conditions herein contained, the Minister hereby authorizes the Licensee/Holder to install and operate an aquaculture facility with an estimated total area of 12.0 hectares in Benny's Cove (Mal Bay, Fortune Bay) (47°40'40"N, 53°07'49"W) in reference to the plans submitted with the application received on May 9, 2013 and further information provided by the Department of Fisheries and Aquaculture on May 10, 2013.

2. The designated purpose of the water use is "Commercial/Aquaculture".

3. The Licensee/Holder shall not impair, pollute or cause to be polluted the quality of the water.

4. The Licensee/Holder shall secure the aquaculture gear by suitable anchors to prevent dislodgement due to wave action and clearly mark the perimeter of the facility with cautionary buoys.

5. The Licensee/Holder shall immediately notify the Minister if any problem arises which may adversely affect water or public safety or any and all water users. The Licensee/Holder shall be responsible for any environmental or property damage, or personal injury arising from dislodgement caused by wind, wave, or ice action, or structural failure or from other water related problems.

6. In the event that the site is no longer being used during the term created by this Licence/Permit, the Licensee/Holder shall remove the aquaculture gear and other work(s)/system(s) associated with and restore all areas affected by this facility to a state that resembles local natural conditions. Further remedial measures to mitigate environmental impacts on water resources and all areas affected by this facility can and will be specified, if necessary in the opinion of this Department.

7. The Licensee/Holder acknowledges and agrees that this Licence/Permit does not grant any interest in land or any right to construct onshore facilities.

8. The Licensee/Holder agrees to abide by such further terms and conditions and directives as may be issued by the Minister of Environment and Conservation from time to time in relation to the site referenced in Clause 1 above.

9. Ownership of water rights remains with the Crown and is not transferred. The Licence/Permit only provides a permission for the Licensee/Holder to use water for the purpose indicated herein. The rights and liberties granted by this Licence/Permit may only be sold, assigned, transferred, leased, mortgaged, sublet or otherwise given away by the Licensee/Holder by obtaining prior written approval from the Minister of Environment and Conservation.

10. This Licence/Permit shall remain in force and effect until such time as the Aquaculture Licence of the Licensee/Holder is not renewed by the Licensee/Holder or is cancelled by the Minister of Fisheries and Aquaculture of the Province of Newfoundland and Labrador or his successor in office pursuant to the provisions of the Aquaculture Act, RSN 1990, c.A-13 or until such time as it is revoked by the Minister of Environment and Conservation of the Province of Newfoundland and Labrador or his successor in office for failure to comply with one or more of the provisions of this Licence/Permit (as amended from time to time) or with the provisions of the Water Resources Act, SNL 2002 c.W-4.01 and any regulations in effect thereunder from time to time and any other relevant legislation enacted by the Province of Newfoundland and Labrador in the future.

11. The Licensee/Holder indemnifies and holds the Minister of Environment and Conservation or his successor in office and Government harmless against any and all liabilities, losses, claims, demands, damages or expenses including legal expenses of any nature whatsoever whether arising in tort, contract, statute, trust or otherwise resulting directly or indirectly from the water rights granted under this Licence/Permit, or any act or omission of the Licensee/Holder, or arising out of a breach or non-performance of any of the terms and conditions, and provisions of this Licence/Permit by the Licensee/Holder.

Re: Aquaculture Facility In the Hobby, Mal Bay, Fortune Bay

The Minister of Environment and Conservation (the "Minister") hereby grants a non-exclusive right to Northern Harvest Sea Farms Newfoundland Ltd. (the "Licensee/Holder") to install and operate an aquaculture facility with an estimated total area of 40.0 hectares in the Hobby, Mal Bay, Fortune Bay (47°38'36"N, 55°08'56"W) in reference to the plans submitted with the application received from the Department of Fisheries and Aquaculture on December 10, 2012.

This Licence/Permit is subject to the terms and conditions stated herein and the Water Resources Act and regulations thereunder. Appendix A (attached) forms part and parcel of this Licence/Permit.

This Licence/Permit does not release the Licensee/Holder from the obligation to obtain appropriate approvals or permits from other concerned provincial, federal, and municipal agencies.

It should be noted that prior approval of any significant change(s) in the plans and/or the associated systems and works must be obtained from the Minister.

The Licensee/Holder shall complete and return the attached Notification of Acceptance of Marine Aquaculture Water Use Licence/permit (attached) to the Water Rights Section of the Department of Environment and Conservation within thirty (30) days of receipt of this Licence.

Failure to comply with the terms and conditions set out herein will render this Licence/Permit null and void, place the Licensee/Holder and/or its agent(s) in violation of the Water Resources Act, and cause the Licensee/Holder to be responsible for any and all remedial measures which may be prescribed by the Department of Environment and Conservation.

TERMS AND CONDITIONS FOR MARINE AQUACULTURE WATER USE LICENCE/PERMIT

1. In consideration of the terms and conditions herein contained, the Minister hereby authorizes the Licensor/Holder to install and operate an aquaculture facility and grants a non-exclusive right to use the water column for aquaculture with an estimated area of 40.0 hectares in the Hobby, Mal Bay, Fortune Bay (47°38'36"N, 55°08'56"W) in reference to the plans submitted with the application received from the Department of Fisheries and Aquaculture on December 10, 2012.

2. The designated purpose of the use is "Commercial/Aquaculture".

3. The Licensor/Holder shall not impair, pollute or cause to be polluted the quality of the water.

4. The Licensor/Holder shall secure the aquaculture gear by suitable anchors to prevent dislodgement due to wave action and clearly mark the perimeter of the facility with cautionary buoys.

5. The Licensor/Holder shall immediately notify the Minister if any problem arises which may adversely affect water or public safety or any and all water users. The Licensor/Holder shall be responsible for any environmental or property damage, or personal injury arising from dislodgement caused by wind, wave, or ice action, or structural failure or from other water related problems.

6. In the event that the site is no longer being used during the term created by this Licence/Permit, the Licensor/Holder shall remove the aquaculture gear and other work/system(s) associated with and restore all areas affected by this facility to a state that resembles local natural conditions. Further remedial measures to mitigate environmental impacts on water resources and all areas affected by this facility can and will be specified, if necessary in the opinion of the Department.

7. The Licensor/Holder acknowledges and agrees that this Licence/Permit does not grant any interest in land or any right to construct offshore facilities.

8. The Licensor/Holder agrees to abide by such further terms and conditions and directives as may be issued by the Minister of Environment and Conservation from time to time in relation to the site referenced in Clause 1 above.

9. Ownership of water rights remains with the Crown and is not transferred. The Licence/Permit only provides a permission for the Licensor/Holder to use water for the purpose indicated herein. The rights and liberties granted by this Licence/Permit may only be sold, assigned, transferred, leased, mortgaged, sublet or otherwise given away by the Licensor/Holder by obtaining prior written approval from the Minister of Environment and Conservation.

10. This Licence/Permit shall remain in force and effect until such time as the Aquaculture Licence of the Licensor/Holder is not renewed by the Licensor/Holder or is cancelled by the Minister of Fisheries and Aquaculture of the Province of Newfoundland and Labrador or his successor in office pursuant to the provisions of the Aquaculture Act, RSN 1990, c.A-13 or until such time as it is revoked by the Minister of Environment and Conservation of the Province of Newfoundland and Labrador or his successor in office for failure to comply with one or more of the provisions of this Licence/Permit (as amended from time to time) or with the provisions of the Water Resources Act, SNL 2002 c.W-4.01 and any regulations in effect thereunder from time to time and any other relevant legislation enacted by the Province of Newfoundland and Labrador in the future.

11. The Licensor/Holder indemnifies and holds the Minister of Environment and Conservation or his successor in office and Government harmless against any and all liabilities, losses, claims, demands, damages or expenses including legal expenses of any nature whatsoever whether arising in tort, contract, statute, trust or otherwise resulting directly or indirectly from the water rights granted under this Licence/Permit, or any act or omission of the Licensor/Holder, or arising out of a breach or non-performance of any of the terms and conditions, and provisions of this Licence/Permit by the Licensor/Holder.

TERMS AND CONDITIONS FOR MARINE AQUACULTURE WATER USE LICENCE/PERMIT

1. In consideration of the terms and conditions herein contained, the Minister hereby authorizes the Licensee/Holder to install and operate an aquaculture facility with an estimated total area of 20.0 hectares in South East Bight, East Bay, Belle Bay, Fortune Bay (47°42'32.7"N, 55°21'40"W) in reference to the maps submitted with the application received on January 31, 2008 and further information provided by the Department of Fisheries and Aquaculture on April 22, 2008, March 7, 2011, and April 5, 2011.

2. The designated purpose of the water use is "Aquaculture/Commercial".

3. The Licensee/Holder shall not impair, pollute or cause to be polluted the quality of the water.

4. The Licensee/Holder shall secure the aquaculture gear by suitable anchors to prevent dislodgement due to wave action and clearly mark the perimeter of the facility with cautionary buoys.

5. The Licensee/Holder shall immediately notify the Minister if any problem arises which may adversely affect water or public safety or any and all water users. The Licensee/Holder shall be responsible for any environmental or property damage, or personal injury arising from dislodgement caused by wind, wave, or ice action, or structural failure or from other water related problems.

6. In the event that the site is no longer being used during the term created by this Licence/Permit, the Licensee/Holder shall remove the aquaculture gear and other works/systems associated with and restore all areas affected by this facility to a state that resembles local natural conditions. Further remedial measures to mitigate environmental impacts on water resources and all areas affected by this facility can and will be specified, if necessary in the opinion of this Department.

7. The Licensee/Holder acknowledges and agrees that this Licence/Permit does not grant any interest in land or any right to construct onshore facilities.

8. The Licensee/Holder agrees to abide by such further terms and conditions and directives as may be issued by the Minister of Environment and Conservation from time to time in relation to the site referenced in Clause 1 above.

9. Ownership of water rights remains with the Crown and is not transferred. The Licence/Permit only provides a permission for the Licensee/Holder to use water for the purpose indicated herein. The rights and liberties granted by this Licence/Permit may only be sold, assigned, transferred, leased, mortgaged, sublet or otherwise given away by the Licensee/Holder by obtaining prior written approval from the Minister of Environment and Conservation.

10. This Licence/Permit shall remain in force and effect until such time as the Aquaculture Licence of the Licensee/Holder is not renewed by the Licensee/Holder or is cancelled by the Minister of Fisheries and Aquaculture of the Province of Newfoundland and Labrador or his successor in office pursuant to the provisions of the Aquaculture Act, RSN 1990, c.A-13 or until such time as it is revoked by the Minister of Environment and Conservation of the Province of Newfoundland and Labrador or his successor in office for failure to comply with one or more of the provisions of this Licence/Permit (as amended from time to time) or with the provisions of the Water Resources Act, SNL 2002 c. W-4.01 and any regulations in effect thereunder from time to time and any other relevant legislation enacted by the Province of Newfoundland and Labrador in the future.

11. The Licensee/Holder indemnifies and holds the Minister of Environment and Conservation or his successor in office and Government harmless against any and all liabilities, losses, claims, demands, damages or expenses including legal expenses of any nature whatsoever whether arising in tort, contract, statute, trust or otherwise resulting directly or indirectly from the water rights granted under this Licence/Permit, or any act or omission of the Licensee/Holder, or arising out of a breach or non-performance of any of the terms and conditions, and provisions of this Licence/Permit by the Licensee/Holder.

12. This Licence/Permit cancels Licence/Permit No. WUL-08-043.

Re: Aquaculture Facility in Little Bay (Little Burdock Cove, Rencontre East)

The Minister of Environment and Conservation (the "Minister") hereby grants a non-exclusive right to Northern Harvest Sea Farms Newfoundland Ltd. (the "Licensee/Holder") to install and operate an aquaculture facility with an estimated total area of 21.0 hectares in Little Bay (Little Burdock Cove, Rencontre East) (47°38'21"N, 55°14'03"W) in reference to the plans submitted with the application received on October 5, 2010.

This Licence/ Permit is subject to the terms and conditions stated herein and the Water Resources Act and regulations thereunder. Appendix A (attached) forms part and parcel of this Licence/Permit.

This Licence/Permit does not release the Licensee/Holder from the obligation to obtain appropriate approvals or permits from other concerned provincial, federal, and municipal agencies.

It should be noted that prior approval of any significant change(s) in the plans and/or the associated systems and works must be obtained from the Minister.

The Licensee/Holder shall complete and return the attached Notification of Acceptance of Marine Aquaculture Water Use Licence/permit (attached) to the Water Rights Section of the Department of Environment and Conservation within thirty (30) days of receipt of this Licence.

Failure to comply with the terms and conditions set out herein will render this Licence/Permit null and void, place the Licensee/Holder and/or its agent(s) in violation of the Water Resources Act, and cause the Licensee/Holder to be responsible for any and all remedial measures which may be prescribed by the Department of Environment and Conservation.

APPENDIX A

NO: WUL-10-123
File: 515/F1083

TERMS AND CONDITIONS FOR MARINE AQUACULTURE WATER USE LICENCE/PERMIT

1. In consideration of the terms and conditions herein contained, the Minister hereby authorizes the Licensee/Holder to install and operate an aquaculture facility with an estimated total area of 21.0 hectares in Little Bay (Little Burdock Cove, Rencontre East) (47°38'21"N, 55°14'03"W) in reference to the plan submitted with the application received on October 5, 2010.

2. The designated purpose of the water use is "Aquaculture/Commercial".

3. The Licensee/Holder shall not impair, pollute or cause to be polluted the quality of the water.

4. The Licensee/Holder shall secure the aquaculture gear by suitable anchors to prevent dislodgement due to wave action and clearly mark the perimeter of the facility with cautions buoys.

5. The Licensee/Holder shall immediately notify the Minister if any problem arises which may adversely affect water or public safety or any and all water users. The Licensee/Holder shall be responsible for any environmental or property damage, or personal injury arising from dislodgement caused by wind, wave, or ice action, or structural failure or from other water related problems.

6. In the event that the site is no longer being used during the term created by this Licence/Permit, the Licensee/Holder shall remove the aquaculture gear and other works/systems associated with and restore all areas affected by this facility to a state that resembles local natural conditions. Further remedial measures to mitigate environmental impacts on water resources and all areas affected by this facility can and will be specified, if necessary in the opinion of this Department.

7. The Licensee/Holder acknowledges and agrees that this Licence/Permit does not grant any interest in land or any right to construct onshore facilities.

8. The Licensee/Holder agrees to abide by such further terms and conditions and directives as may be issued by the Minister of Environment and Conservation from time to time in relation to the site referenced in Clause 1 above.

9. Ownership of water rights remains with the Crown and is not transferred. The Licence/Permit only provides a permission for the Licensee/Holder to use water for the purpose indicated herein. The rights and liberties granted by this Licence/Permit may only be sold, assigned, transferred, leased, mortgaged, sublet or otherwise given away by the Licensee/Holder by obtaining prior written approval from the Minister of Environment and Conservation.

10. This Licence/Permit shall remain in force and effect until such time as the Aquaculture Licence of the Licensee/Holder is not renewed by the Licensee/Holder or is cancelled by the Minister of Fisheries and Aquaculture of the Province of Newfoundland and Labrador or his successor in office pursuant to the provisions of the Aquaculture Act, RSN 1990, c.A-13 or until such time as it is revoked by the Minister of Environment and Conservation of the Province of Newfoundland and Labrador or his successor in office for failure to comply with one or more of the provisions of this Licence/Permit (as amended from time to time) or with the provisions of the Water Resources Act, SNL 2002 c. W-4.01 and any regulations in effect thereunder from time to time and any other relevant legislation enacted by the Province of Newfoundland and Labrador in the future.

11. The Licensee/Holder indemnifies and holds the Minister of Environment and Conservation or his successor in office and Government harmless against any and all liabilities, losses, claims, demands, damages or expenses including legal expenses of any nature whatsoever whether arising in tort, contract, statute, trust or otherwise resulting directly or indirectly from the water rights granted under this Licence/Permit, or any act or omission of the Licensee/Holder, or arising out of a breach or non-performance of any of the terms and conditions, and provisions of this Licence/Permit by the Licensee/Holder.

Re: Aquaculture Facility in East Bay (Hickman's Point), Belle Bay, Fortune Bay

The Minister of Environment and Conservation (the "Minister") hereby grants a non-exclusive right to: Northern Harvest Sea Farms Newfoundland Inc. (the "Licensee/Holder") to continue operating an existing aquaculture facility with an estimated total area of 20.0 hectares in East Bay (Hickman's Point), Belle Bay, Fortune Bay (47°42' 48"N, 55°23'42"W) in reference to the plans submitted with the application received on November 20, 2008 and further information provided by the Department of Fisheries and Aquaculture on January 22, 2009 and April 7, 2009.

This Licence/Permit is subject to the terms and conditions stated herein and the Water Resources Act and regulations thereunder. Appendix A (attached) forms part and parcel of this Licence/Permit.

This Licence/Permit does not release the Licensee/Holder from the obligation to obtain appropriate approvals or permits from other concerned provincial, federal, and municipal agencies.

It should be noted that prior approval of any significant change(s) in the plans and/or the associated systems and works must be obtained from the Minister.

The Licensee/Holder shall complete and return the attached Notification of Acceptance of Marine Aquaculture Water Use Licence/permit (attached) to the Water Rights Section of the Department of Environment and Conservation within thirty (30) days of receipt of this Licence.

Failure to comply with the terms and conditions set out herein will render this Licence/Permit null and void, place the Licensee/Holder and/or its agent(s) in violation of the Water Resources Act, and cause the Licensee/Holder to be responsible for any and all remedial measures which may be prescribed by the Department of Environment and Conservation.

APPENDIX A

TERMS AND CONDITIONS FOR MARINE AQUACULTURE WATER USE LICENCE/PERMIT

1. In consideration of the terms and conditions herein contained, the Minister hereby authorizes the Licensee/Holder to continue operating an existing aquaculture facility and grants a non-exclusive right to use the water column for aquaculture with an estimated area 20.0 hectares in East Bay (Hickman's Point), Belle Bay, Fortune Bay (47°42'48"N, 55°23'42"W) in reference to the plans submitted with the application received on November 20, 2008 and further information provided by the Department of Fisheries and Aquaculture on January 22, 2009 and April 7, 2009.

2. The designated purpose of the water use is "Aquaculture/Commercial".

3. The Licensee/Holder shall not impair, pollute or cause to be polluted the quality of the water.

4. The Licensee/Holder shall secure the aquaculture gear by suitable anchors to prevent dislodgement due to wave action and clearly mark the perimeter of the facility with cautionary buoys.

5. The Licensee/Holder shall immediately notify the Minister if any problem arises which may adversely affect water or public safety or any and all water users. The Licensee/Holder shall be responsible for any environmental or property damage, or personal injury arising from dislodgement caused by wind, wave, or ice action, or structural failure or from other water related problems.

6. In the event that the site is no longer being used during the term created by this Licence/Permit, the Licensee/Holder shall remove the aquaculture gear and other work(s)/system(s) associated with and restore all areas affected by this facility to a state that resembles local natural conditions. Further remedial measures to mitigate environmental impacts on water resources and all areas affected by this facility can and will be specified, if necessary, in the opinion of this Department.

7. The Licensee/Holder acknowledges and agrees that this Licence/Permit does not grant any interest in land or any right to construct onshore facilities.

8. The Licensee/Holder agrees to abide by such further terms and conditions and directives as may be issued by the Minister of Environment and Conservation from time to time in relation to the site referenced in Clause 1 above.

9. Ownership of water rights remains with the Crown and is not transferred. The Licence/Permit only provides a permission for the Licensee/Holder to use water for the purpose indicated herein. The rights and liberties granted by this Licence/Permit may only be sold, assigned, transferred, leased, mortgaged, sublet or otherwise given away by the Licensee/Holder by obtaining prior written approval from the Minister of Environment and Conservation.

10. This Licence/Permit shall remain in force and effect until such time as the Aquaculture Licence of the Licensee/Holder is not renewed by the Licensee/Holder or is cancelled by the Minister of Fisheries and Aquaculture of the Province of Newfoundland and Labrador or his successor in office pursuant to the provisions of the Aquaculture Act, RSN 1990, c.A-13 or until such time as it is revoked by the Minister of Environment and Conservation of the Province of Newfoundland and Labrador or his successor in office for failure to comply with one or more of the provisions of this Licence/Permit (as amended from time to time) or with the provisions of the Water Resources Act, SNL 2002 c.W-4.01 and any regulations in effect thereunder from time to time and any other relevant legislation enacted by the Province of Newfoundland and Labrador in the future.

11. This Licence/Permit supersedes and cancels in whole and in part Licence/Permit No. WUL-06-066.

12. The Licensee/Holder indemnifies and holds the Minister of Environment and Conservation or his successor in office and Government harmless against any and all liabilities, losses, claims, demands, damages or expenses including legal expenses of any nature whatsoever whether arising in tort, contract, statute, trust or otherwise resulting directly or indirectly from the water rights granted under this Licence/Permit, or any act or omission of the Licensee/Holder, or arising out of a breach or non-performance of any of the terms and conditions, and provisions of this Licence/Permit by the Licensee/Holder.

Re: Aquaculture Facility in Northeast Arm (Harvey Hill South)

The Minister of Environment and Conservation (the "Minister") hereby grants a non-exclusive right to Northern Harvest Sea Farms Newfoundland Ltd. (the "Licensee/Holder") to install and operate an aquaculture facility with an estimated total area of 20.0 hectares in Northeast Arm (Harvey Hill South) (47°31'40"N, 55°46'35"W) in reference to the plans submitted with the application received on December 16, 2009 and further the information provided by the Department of Fisheries and Aquaculture on April 13, 2010.

This Licence/Permit is subject to the terms and conditions stated herein and the *Water Resources Act* and regulations thereunder. Appendix A (attached) forms part and parcel of this Licence/Permit.

This Licence/Permit does not release the Licensee/Holder from the obligation to obtain appropriate approvals or permits from other concerned provincial, federal, and municipal agencies.

It should be noted that prior approval of any significant change(s) in the plans and/or the associated systems and works must be obtained from the Minister.

The Licensee/Holder shall complete and return the attached Notification of Acceptance of Marine Aquaculture Water Use Licence/permit (attached) to the Water Rights Section of the Department of Environment and Conservation within thirty (30) days of receipt of this Licence.

Failure to comply with the terms and conditions set out herein will render this Licence/Permit null and void, place the Licensee/Holder and/or its agent(s) in violation of the *Water Resources Act*, and cause the Licensee/Holder to be responsible for any and all remedial measures which may be prescribed by the Department of Environment and Conservation.

APPENDIX A

TERMS AND CONDITIONS FOR MARINE AQUACULTURE WATER USE LICENCE/PERMIT

1. In consideration of the terms and conditions herein contained, the Minister hereby authorizes the Licensee/Holder to install and operate an aquaculture facility with an estimated total area of 20.0 hectares in Northeast Arm (Harvey Hill South) (47°31′40″N, 55°46′35″W) in reference to the plans submitted with the application received on December 16, 2009 and further the information provided by the Department of Fisheries and Aquaculture on April 13, 2010.

2. The designated purpose of the water use is "Aquaculture/Commercial".

3. The Licensee/Holder shall not impair, pollute or cause to be polluted the quality of the water.

4. The Licensee/Holder shall secure the aquaculture gear by suitable anchors to prevent dislodgement due to wave action and clearly mark the perimeter of the facility with cautionary buoys.

5. The Licensee/Holder shall immediately notify the Minister if any problem arises which may adversely affect water or public safety or any and all water users. The Licensee/Holder shall be responsible for any environmental or property damage, or personal injury arising from dislodgement caused by wind, wave, or ice action, or structural failure or from other water related problems.

6. In the event that the site is no longer being used during the term created by this Licence/Permit, the Licensee/Holder shall remove the aquaculture gear and other work(s)/system(s) associated with and restore all areas affected by this facility to a state that resembles local natural conditions. Further remedial measures to mitigate environmental impacts on water resources and all areas affected by this facility can and will be specified, if necessary in the opinion of this Department.

7. The Licensee/Holder acknowledges and agrees that this Licence/Permit does not grant any interest in land or use of any right to construct onshore facilities.

8. The Licensee/Holder agrees to abide by such further terms and conditions as may be issued by the Minister of Environment and Conservation from time to time in relation to the site referenced in Clause 1 above.

9. Ownership of water rights remains with the Crown and is not transferred. The Licence/Permit only provides a permission for the Licensee/Holder to use water for the purpose indicated herein. The rights and liberties granted by this Licence/Permit may only be sold, assigned, transferred, leased, mortgaged, sublet or otherwise given away by the Licensee/Holder by obtaining prior written approval from the Minister of Environment and Conservation.

10. This Licence/Permit shall remain in force and effect until such time as the Aquaculture Licence of the Licensee/Holder is not renewed by the Licensee/Holder or is cancelled by the Minister of Fisheries and Aquaculture of the Province of Newfoundland and Labrador or his successor in office pursuant to the provisions of the Aquaculture Act, RSN 1990, c.A-13 or until such time as it is revoked by the Minister of Environment and Conservation of the Province of Newfoundland and Labrador or his successor in office for failure to comply with one or more of the provisions of this Licence/Permit (as amended from time to time) or with the provisions of the Water Resources Act, SLN 2002 c.W-4.01 and any regulations in effect thereunder from time to time and any other relevant legislation enacted by the Province of Newfoundland and Labrador in the future.

11. The Licensee/Holder indemnifies and holds the Minister of Environment and Conservation or his successor in office and Government harmless against any and all liabilities, losses, claims, demands, damages or expenses including legal expenses of any nature whatsoever whether arising in tort, contract, statute, trust or otherwise resulting directly or indirectly from the water rights granted under this Licence/Permit, or any act or omission of the Licensee/Holder, or arising out of a breach or non-performance of any of the terms and conditions, and provisions of this Licence/Permit by the Licensee/Holder.

Failure to comply with the terms and conditions set out herein will render this Licence/Permit null and void, place the Licensee/Holderno and/or its agent(s) in violation of the Water Resources Act, and cause the Licensee/Holderno to be responsible for any and all remedial measures which may be prescribed by the Department of Environment and Conservation.

40(1) MINISTER
GOVERNMENT OF NEWFOUNDLAND AND LABRADOR
DEPARTMENT OF ENVIRONMENT AND CONSERVATION
APPENDIX A

NO: WUL-08-100
File: 515/F01050

TERMS AND CONDITIONS FOR MARINE AQUACULTURE WATER USE LICENCE/PERMIT

1. In consideration of the terms and conditions herein contained, the Minister hereby authorizes the Licensee/Holder to install and operate an aquaculture facility and grants a non-exclusive right to use the water column for aquaculture with an estimated area 22.0 hectares in North Bay (Stearns Head), Belle Bay, Fortune Bay (47°41'28"N, 55°25'50"W) in reference to the plans submitted with the application received on October 6, 2008 and further information provided by the Department of Fisheries and Aquaculture on October 7, 2008.

2. The designated purpose of the water use is "Aquaculture/Commercial".

3. The Licensee/Holder shall not impair, pollute or cause to be polluted the quality of the water.

4. The Licensee/Holder shall secure the aquaculture gear by suitable anchors to prevent dislodgement due to wave action and clearly mark the perimeter of the facility with cautionary buoys.

5. The Licensee/Holder shall immediately notify the Minister if any problem arises which may adversely affect water or public safety or any and all water users. The Licensee/Holder shall be responsible for any environmental or property damage, or personal injury arising from dislodgement caused by wind, wave, ice action, or structural failure or from other water related problems.

6. In the event that the site is no longer being used during the term created by this Licence/Permit, the Licensee/Holder shall remove the aquaculture gear and other work(s)/system(s) associated with and restore all areas affected by this facility to a state that resembles local natural conditions. Further remedial measures to mitigate environmental impacts on water resources and all areas affected by this facility can and will be specified, if necessary in the opinion of this Department.

7. The Licensee/Holder acknowledges and agrees that this Licence/Permit does not grant any interest in land or any right to construct onshore facilities.

8. The Licensee/Holder agrees to abide by such further terms and conditions and directives as may be issued by the Minister of Environment and Conservation from time to time in relation to the site referenced in Clause 1 above.

9. Ownership of water rights remains with the Crown and is not transferred. The Licence/Permit only provides a permission for the Licensee/Holder to use water for the purpose indicated herein. The rights and liberties granted by this Licence/Permit may only be sold, assigned, transferred, leased, mortgaged, sublet or otherwise given away by the Licensee/Holder by obtaining prior written approval from the Minister of Environment and Conservation.

10. This Licence/Permit shall remain in force and effect until such time as the Aquaculture Licence of the Licensee/Holder is not renewed by the Licensee/Holder or is cancelled by the Minister of Fisheries and Aquaculture of the Province of Newfoundland and Labrador or his successor in office pursuant to the provisions of the Aquaculture Act, RSN 1990, c. A-13 or until such time as it is revoked by the Minister of Environment and Conservation of the Province of Newfoundland and Labrador or his successor in office for failure to comply with one or more of the provisions of this Licence/Permit (as amended from time to time) or with the provisions of the Water Resources Act, SNL 2002 c. W-4.01 and any regulations in effect thereunder from time to time and any other relevant legislation enacted by the Province of Newfoundland and Labrador in the future.

11. This Licence/Permit supersedes and cancels in whole and in part Licence/Permit No. WUL-08-040.

12. The Licensee/Holder indemnifies and holds the Minister of Environment and Conservation or his successor in office and Government harmless against any and all liabilities, losses, claims, demands, damages or expenses including legal expenses of any nature whatsoever whether arising in tort, contract, statute, trust or otherwise resulting directly or indirectly from the water rights granted under this Licence/Permit, or any act or omission of the Licensee/Holder, or arising out of a breach or non-performance of any of the terms and conditions, and provisions of this Licence/Permit by the Licensee/Holder.

Re: Aquaculture Facility in Cinq Islands Bay, Belle Bay, Fortune Bay

The Minister of Environment and Conservation (the "Minister") hereby grants a non-exclusive right to Northern Harvest Sea Farms NL Ltd. (the "Licensee/Holder") to install and operate an aquaculture facility with an estimated area of 20.0 hectares in Cinq Islands Bay, Belle Bay, Fortune Bay (47°38'36"N, 55°27'06"W) in reference to the plans submitted with the application received on October 6, 2008 and further information provided by the Department of Fisheries and Aquaculture on October 7, 2008.

This Licence/Permit is subject to the terms and conditions stated herein and the Water Resources Act and regulations thereunder. Appendix A (attached) forms part and parcel of this Licence/Permit.

This Licence/Permit does not release the Licensee/Holder from the obligation to obtain appropriate approvals or permits from other concerned provincial, federal, and municipal agencies.

It should be noted that prior approval of any significant change(s) in the plans and/or the associated systems and works must be obtained from the Minister.

The Licensee/Holder shall complete and return the attached Notification of Acceptance of Marine Aquaculture Water Use Licence/permit (attached) to the Water Rights Section of the Department of Environment and Conservation within thirty (30) days of receipt of this Licence.

Failure to comply with the terms and conditions set out herein will render this Licence/Permit null and void, place the Licensee/Holder and/or its agent(s) in violation of the Water Resources Act, and cause the Licensee/Holder to be responsible for any and all remedial measures which may be prescribed by the Department of Environment and Conservation.

[Redacted] MINISTER

GOVERNMENT OF NEWFOUNDLAND AND LABRADOR
DEPARTMENT OF ENVIRONMENT AND CONSERVATION
APPENDIX A

TERMS AND CONDITIONS FOR MARINE AQUACULTURE WATER USE LICENCE/PERMIT

1. In consideration of the terms and conditions herein contained, the Minister hereby authorizes the Licensee/Holder to install and operate an aquaculture facility and grants a non-exclusive right to use the water column for aquaculture with an estimated area 20.0 hectares in Cinq Islands Bay, Belle Bay, Fortune Bay (47°38'36"N, 55°27'06"W) in reference to the plans submitted with the application received on October 6, 2008 and further information provided by the Department of Fisheries and Aquaculture on October 7, 2008.

2. The designated purpose of the water use is "Aquaculture/Commercial".

3. The Licensee/Holder shall not impair, pollute or cause to be polluted the quality of the water.

4. The Licensee/Holder shall secure the aquaculture gear by suitable anchors to prevent dislodgement due to wave action and clearly mark the perimeter of the facility with cautions buoys.

5. The Licensee/Holder shall immediately notify the Minister if any problem arises which may adversely affect water or public safety or any and all water users. The Licensee/Holder shall be responsible for any environmental or property damage, or personal injury arising from dislodgement caused by wind, wave, or ice action, or structural failure or from other water related problems.

6. In the event that the site is no longer being used during the term created by this Licence/Permit, the Licensee/Holder shall remove the aquaculture gear and other work(s)/system(s) associated with and restore all areas affected by this facility to a state that resembles local natural conditions. Further remedial measures to mitigate environmental impacts on water resources and all areas affected by this facility can and will be specified, if necessary in the opinion of this Department.

7. The Licensee/Holder acknowledges and agrees that this Licence/Permit does not grant any interest in land or any right to construct oshore facilities.

8. The Licensee/Holder agrees to abide by such further terms and conditions and directives as may be issued by the Minister of Environment and Conservation from time to time in relation to the site referenced in Clause 1 above.

9. Ownership of water rights remains with the Crown and is not transferred. The Licence/Permit only provides a permission for the Licensee/Holder to use water for the purpose indicated herein. The rights and liberties granted by this Licence/Permit may only be sold, assigned, transferred, leased, mortgaged, sublet or otherwise given away by the Licensee/Holder by obtaining prior written approval from the Minister of Environment and Conservation.

10. This Licence/Permit shall remain in force and effect until such time as the Aquaculture Licence of the Licensee/Holder is not renewed by the Licensee/Holder or is cancelled by the Minister of Fisheries and Aquaculture of the Province of Newfoundland and Labrador or his successor in office pursuant to the provisions of the Aquaculture Act, RSN 1990, c.A-13 or until such time as it is revoked by the Minister of Environment and Conservation of the Province of Newfoundland and Labrador or his successor in office for failure to comply with one or more of the provisions of this Licence/Permit (as amended from time to time) or with the provisions of the Water Resources Act, SNL 2002 c.W-4.01 and any regulations in effect thereunder from time to time and any other relevant legislation enacted by the Province of Newfoundland and Labrador in the future.

11. This Licence/Permit supersedes and cancels in whole and in part Licence/Permit No. WUL-06-075.

12. The Licensee/Holder indemnifies and holds the Minister of Environment and Conservation or his successor in office and Government harmless against any and all liabilities, losses, claims, demands, damages or expenses including legal expenses of any nature whatsoever whether arising in tort, contract, statute, trust or otherwise resulting directly or indirectly from the water rights granted under this Licence/Permit, or any act or omission of the Licensee/Holder, or arising out of a breach or non-performance of any of the terms and conditions, and provisions of this Licence/Permit by the Licensee/Holder.

PERMIT TO TRANSFER AND TRANSPORT

Subject to Section 8 of the Aquaculture Act

This authorizes Northern Harvest Sea Farm NL Ltd or their designates to transfer Atlantic Salmon Smolt, Average Weight: 0.150 kg, Minimum Weight: 0.075 kg, Diploid, Both Sexes from the site located at Stephenville to the site located at Deep Water Point, subject to the following conditions:

1. This Permit to Transfer and Transport is valid from May 18, 2018 to August 31, 2018.

2. A maximum of _____ Atlantic Salmon Smolt, to be transferred from Stephenville, as noted above.

3. This Permit to Transfer and Transport must be carried at all times while transfers are taking place and must be available for inspection upon request of a Federal or Provincial Fisheries Officer or an Aquaculture Inspector.

4. Following transfer, a report on the actual number of each species of plant and/or animal transferred and the immediate mortalities must be reported to the Department of Fisheries and Land Resources by September 14, 2018.

5. Required to have routine diagnostics performed on moribund fish by site veterinarian post transfer.

6. Mortality and morbidity events greater than 0.05% per day for three consecutive days or greater than 4000 kg or 2% of the inventory over a 24 hour period or greater than 10,000 kg or 5% of the inventory over a 5 day period are to be immediately reported to the AAHD.

7. Must adhere to biosecurity and disinfection protocols established for equipment and product. Required to indicate the method of mortality disposal and work with Dr. Nicole O'Brien to establish the vaccination and biosecurity protocols. Dr. O'Brien can be reached at 709-729-5195.

8. If diagnostic results detect pathogen or disease of concern at the originating facility, either during or post transfer, the AAHD and the attending Veterinarian must be notified immediately. Transfer may be halted if necessary.
9. The licensee is required to comply with wellboat/transfer vessel biosecurity protocols that are required prior to transfer and during transfer into NL. Please contact the Biosecurity Auditor at 538-3988 if you do not have a copy of these protocols. Please contact the Biosecurity Auditor or Chief Aquaculture Veterinarian to arrange the audits of wellboats and transport trucks prior to unloading to NL sites.

10. The licensee is required to notify, seven days, forty eight hours and just prior to transfer, the Biosecurity Auditor and Chief Aquaculture Veterinarian.

This authorizes Northern Harvest Sea Farms NL Ltd. or their designates to transfer
Atlantic Salmon Smolt, Average Weight: 0.150 kg, Minimum Weight: 0.1 kg, Diploid, Both Sexes
from the site located at Northern Harvest Smolt, Stephenville to the site located at
Transkill Point, subject to the following conditions:

39(1)(a)(i), 39(1)(c)(i), 39(1)(c)(iii), 35(1)(g)

1. This Permit to Transfer and Transport is valid from June 06, 2017 to August 31, 2017.

2. A maximum of [REDACTED] Atlantic Salmon Smolt, to be transferred from Northern Harvest
Smolt, Stephenville, as noted above.

3. This Permit to Transfer and Transport must be carried at all times while transfers are taking
place and must be available for inspection upon request of a Federal or Provincial Fisheries
Officer or an Aquaculture Inspector.

4. Following transfer, a report on the actual number of each species of plant and/or animal
transferred and the immediate mortalities must be reported to the Department of Fisheries and
Land Resources by September 14, 2017.

5. Required to have routine diagnostics performed on moribund fish by site veterinarian post
transfer.

6. Mortality and morbidity events greater than 0.05% per day for three consecutive days or
greater than 4000 kg or 2% of the inventory over a 24 hour period or greater than 10,000 kg
or 5% of the inventory over a 5 day period are to be immediately reported to the AAHD.

7. Must adhere to biosecurity and disinfection protocols established for equipment and product.
Required to indicate the method of mortality disposal and work with Dr. Nicole O'Brien to
establish the vaccination and biosecurity protocols. Dr. O'Brien can be reached at
709-729-5195.

8. If diagnostic results detect pathogen or disease of concern at the originating facility, either during
or post transfer, the AAHD and the attending Veterinarian must be notified immediately.
Transfer may be halted if necessary.
9. The licensee is required to comply with wellboat/transfer vessel biosecurity protocols that are required prior to transfer and during transfer into NL. Please contact the Biosecurity Auditor at 538-3988 if you do not have a copy of these protocols. Please contact the Biosecurity Auditor or Chief Aquaculture Veterinarian to arrange the audits of wellboats and transport trucks prior to offloading to NL sites.

10. The licensee is required to notify, seven days, forty eight hours and just prior to transfer, the Biosecurity Auditor and Chief Aquaculture Veterinarian.
